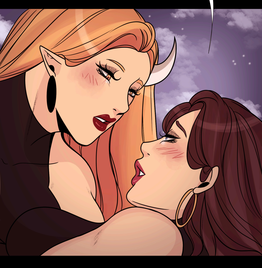
Mmh...

Ahh...

You must think it's stupid right?

Being afraid of something like that...



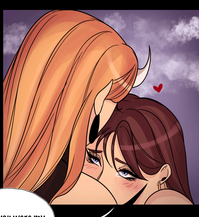
Not at all.

Everyone has their fears. I even think that's it's totally fair to be scared of this moment.

It's your body and your intimacy. Only you can decide when it's the right time or who can touch it.

Were you scared the first time you did it?

I was, yes.

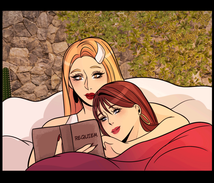


I wish you were my first...

Lilith has always been so... sweet and patient with me.

She takes care of me, making time to teach me things.

No matter the situation, her presence has always comforted me.



It feels so different from when I was with Gabriel...

Who always wanted the best of me.

I thought he was just worried about me, my future, and was trying to help me by doing things his way. That's why I gave myself to him, even if I wasn't feeling ready at that time.

I was such a fool. It was a kind of manipulation.

A hold he had over me.

Babe.

Are you okay?

Do you want to stop?

It looks like you were daydreaming.

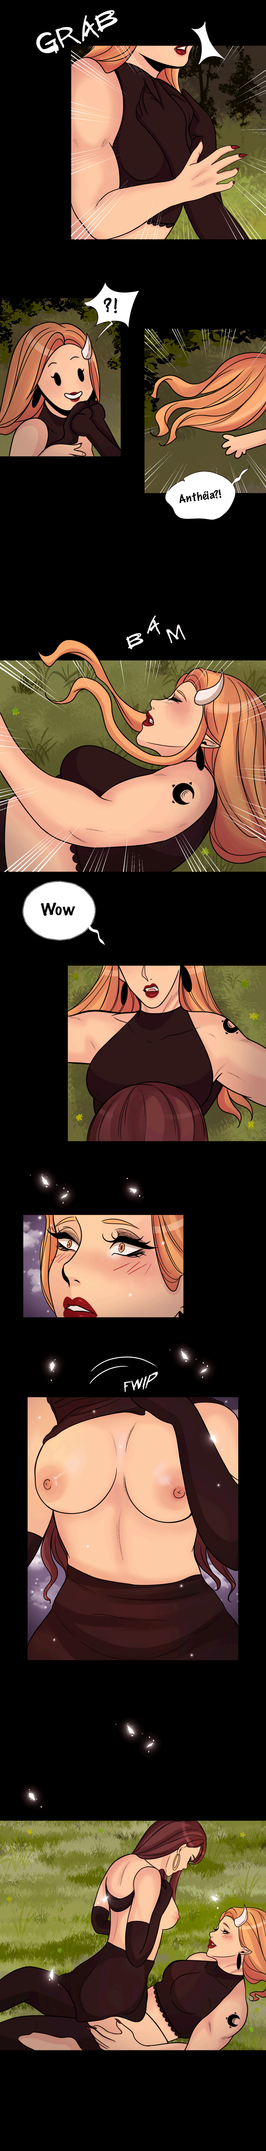
Lilith got me out of this nightmare.

Sorry! I got carried away! I might have done too much...? Did I make you feel uncomfortable?

I hope you don't think I'm using you to feel better. I'm absolutely not like that, I swear!

And I learned to live my life the way I wanted to. Even if I know that I might face the consequences of my acts later.

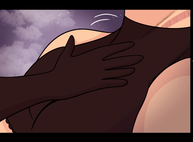
All I care about is that she gave me the light that I have always desired.



Because it's working.

Shhh.

You stay quiet.



LET'S SIN TOGETHER.

My specialty.
