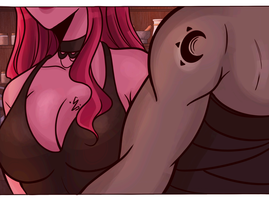
How long have you been exposed to the sun?

Maybe 4-5 hours.

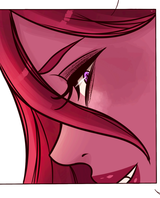
In a scale of 1 to 10, how clear can you see?

I'll say 4.

Clack



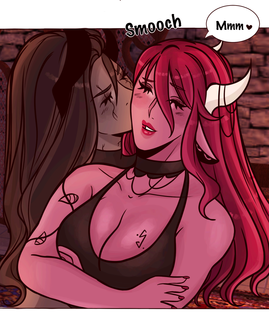
How many time I have told you to pay attention to your eyes?



A night demon shouldn't expose itself to the sun that long.

I know.

I can't even see your beautiful face.



Ahh - Urda.
I really missed you.

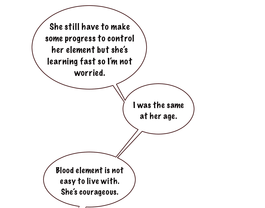
Lift

I missed you even more my love.

We have a lot of time to catch up with, you and me.
Smooch

So, how is my little Lilith doing?
Don't worry, she's doing good.

Plop



She still have to make some progress to control her element but she's learning fast so I'm not worried.
I was the same at her age.
Blood element is not easy to live with. She's courageous.

Sniff

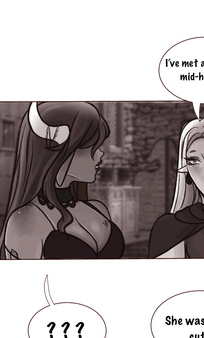
Is she getting used to the underground citiies? Didn't she suffer too much from the lack of the sun? She's sleeping well?
I Hope you didn't hit her too hard during your lessons?
SLURP

Honey, is it all about the kid? I suffer too ya know?
She hits hard too! Even if I'm an old person she has no pity.
I'm starting to get jealous.
I'm sorry, I'm sorry!
Open your eyes!

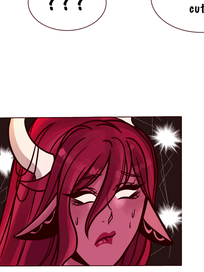
By the way, I think she got a girlfriend.
Really? She didn't tell me anything.
This elixir will relieve your eyes.

Me neither. I just know that she's a girl she met some time ago.
Oh really, I wonder who-
Huh?

... don't tell me!



I've met an angel in mid-heaven.
???
She was really cute.



Don't tell me she felt in love with that angel girl!

What is it?

Oh nothing! I was daydreaming.

But babe

You look really cute with those purple eyes.

Cute?

Did ya really called me cute?

Yes you're really really cute.

What are you going to do about that?

I wonder.

What am I going to do with you?
