- Talk to Hapaki. You'll follow him and find the missing will.
- Click on Linduro. She will reward you with credits and a room for the night.

- Use the Mountain Road and Harbor Access to go to Harbor.
- Talk to Zatanka
- Talk to Adoka
- Talk to Turges. He will tell you that he's now looking for Mel. This is the end of the Main Quest at this time.
- Go to Guest House and Sleep. This will take you directly into the next Main Quest. The Quest will end and that is the end of the new story content for now.
- Currently, this pops you into a new dialogue with Semni. (If you haven't talked to her yet, she won't pop in)
- Visit Mel's Garage. There you help her get your ship to her yard so that she can start fixing. Bad news is that it will take at least 3 weeks to get the ship going again. Turges talks about a solution.
- Meet Turges in the Morning at the Bar. He talks about how he has a boat that he can use to take you, his thanks for your help with Mel. Unfortunately, the weather takes a turn and it starts raining.
- You follow Turges to Mel and her shop and learn that because there is a storm coming, the Harbor is closed. Mel talks about a way around, and you and Kuhno must investigate the Harbor's Gate.
- Go to the Harbor and check out the Gate to see what can be done.
- **Important.** – I forgot to edit out the note in this quest that says 'this is the end' IGNORE THIS. There is still more. I will fix it in a week or so with a quality patch.
- At this point, you get to invite a companion of your choosing between Corsoni, Perluun, Vynore, and Zatanka.
- For Perluun, you must have talked with her twice and had sex with her once to unlock her as an option.
- For Zatanka, you just need to have met her during the Main Quest. You don't need to 'pay her back' before inviting her along.
- For Vynore, after you meet her, she should be available to invite
- For Corsoni, after you meet her, she should be available to invite.
- Chose which girl to join you in your adventure on Island 1, and enjoy the ride!
- Your first few events on Onakinii are pretty straightforward. You will meet Secult the hacker and Nyras the girl with an axe to grind against the Orcis Corp.
- Talk to Secult about the Data Hack Job. You and Kuhno will recount the first job you did together. Chose whether or not to have Kuhno distract the guards, or take them down.
- Talk to Secult about finding Turges and your mission companion.
- You'll meet with Turges and get a clue about your missing companion. One is still with Turges.
- Check out Kuhno's new look. During this quest, you will receive a call from Tengot, a corporate agent working for the Orcis Corp.
-
- **Orcis Corporation Questline**
- The next point is meeting Tengot. She wants you to work for her in exchange for information on the Dream Master and for erasing your past crime against Orcis.
- Track down smugglers at the Vanish Bar. The Vanish is located in the Melirox District which will open up after meeting Tengot.

- Tengot calls you in a panic. One of her little pet problems has gone screwy. This quest is fairly simple but ends with a choice of how to get a young executive 'back on Tenot's track'. It will be up to you what his future entails.
- Tengot will get in contact with you at the Hotel Map about the final task. It is time to recover the stolen prototype, one way or another. Since you know where it is, the only thing that is left to do is figure out how to take it. Do you go in quiet? Or go in loud? Of course, things aren't always simple and Costis, the smuggler will get in touch to give you a third option.
- It will be up to you, which option you go with, and each will have bonuses, and potential consequences.
- Go to Shores and then meet with Tengot for a debrief. She will react differently based on how things played out at the warehouse.
-
- **Smuggling Cartel Questline**
- After doing the first job for the Corpo, talk to Kuhno at the Shores Map. She will mention the idea about searching for other groups on Onaikinii who can help you track down the Dream Master.
- Go to the Melirox District and then click on 'Meet the Smugglers'. This will have you meeting the boss of the Smuggling Cartel, Ooli. She has a simple job for you.
- Deal with the cop as you please. This will end the quest, and set the stage for the next mission for the Smugglers. More content for them is coming in December.
-
- **New Home Questline –**
- Started in Secult's Room.
- Kuhno and Xun realize they need a place of their own to stay because it's hard sleeping at Secult's place, or at Turges Noodle shop. The mercs decide they'll stay at the hotel on the water but it costs 1000 credits. If they have that, they can get a hotel room immediately.
- Otherwise, Secult offers them a job.
- They meet Gyoko, a broker who can get just about anything on the island. (If you have 1000 credits to start with, you can meet Gyoko for the job at the Casino. You can also try your luck at Blackjack)
- She sends them to the jungle and they meet Shura and Raiko, two survivalists who live off the land. They complete the mission and receive the money to get a hotel room.
- If for any reason you can't get enough money for the hotel room. There is a Money Cheat option enabled for this build.
- Once you are done completing the new content, you will get the option to return to Lowoswah to finish up any content you missed there.
