

Tesni was a giant anthro Tyrannosaurus Rex. She stood at a mighty height 254 centimeters (8' 4") tall. Her scales were a dark green on her back, arms, and legs, and a lighter green on her underbelly. She was quite curvy around her hips, and had breasts slightly larger than Z cups. Her eyes were blue, and her tail was thick at the base of her ass while the tip was much more narrow.

Now Tesni was pretty unique. She was a demigod. Her father was Min, the god of reproduction, love, and sexual pleasure. Her mother was a priestess of a tribe in a jungle. Tesni learned many magical gifts from her mother, as well as being gifted with innate abilities that her father gave her.

Although some of her father's powers came with a price. She had, an *insanely* strong libido. She felt like she was constantly in heat ever since she hit puberty. She practically had to masturbate at least three times a day if not more to try and help satiate her libido. And to top it off, her vagina was one of hypens. And with being 2.54 meters, she had quite the large labia.

Now even though Tesni liked her tribe, there was a problem with the tribe. It was made of all women. The men of the tribe left around the time that Tesni was born, and never returned due to a failed mission. So now Tesni is worshiped by the tribal women, in hopes that she will be able to help bring them a new male unto their lives.

Though Tesni had supernatural powers, she couldn't quite manifest a man for the women. But, she also never really felt the need to search or try and pray to her father for a spouse. The women of the tribe worshiped her, they brought her food, they pretty much pampered Tesni. Her life was pretty set. All she had to do was pretend that she was still searching for answers and the tribe continued to worship her.

Tesni, was extremely happy with how things were going.

Copper was an English Springer Spaniel. He had a height of 178 centimeters (~5' 10"). His fur was white with large and small brown spots that ran from his face to his tail, but his tummy and paws remained white. His penis was 15.25 centimeters (~6") long with a 10.16 cm (4") girth and a 12.7 cm (5") knot. His testicles were the size of grapes. His eyes were brown and his fur was short except around his ears.

Copper was currently flying a small cargo plane over an uncharted jungle. It was his first time flying solo, and he had everything properly set up for a safe flight. The flight had been going great, and he was an hour away from his destination. It was approaching midnight, and he was feeling kind of sleepy. He felt that everything was secured, so he set the plane to auto pilot and decided to take a quick power nap to get some rest.

However, Copper's plan for a 30 minute peaceful nap and being woken up by his alarm, turned into a 6 hour night's rest while being woken up to the blaring sound of the plane's altitude warning blaring in his ear.

Copper panicked and started to look as to why the plane was descending. Turns out, burning six hours of fuel has a tendency to empty the gas tank. He was currently descending towards the jungle below at a rapid rate, with no chance of rectifying the situation. He knew the best course of action was to abandon the plane. He got his parachute, and jumped out.

As Copper fell, he quickly pulled the rope for his parachute, but his altitude was too low already, and by time the parachute had deployed, it was already too late.

The parachute did reduce some of his velocity, but Copper crashed in through the top of the trees of the jungle. His body smashed and broke branches as he fell. Pain coursed through his body, as it felt like bruises and possibly broken bones began to cover him. His head smacked hard against a tree branch, and he blacked out. His parachute got caught on some of the branches above him.

Copper now hung there, swinging in the breeze stuck to branches, above a village full of women staring up at his motionless body.

The women of the village quickly worked together to reach up to the hanging dog. It took some time, but they successfully cut him free. They took his body and began to clean and tried to heal him of his wounds. But as they cleaned him, they found out that he wasn't a female. The tribal women got overly excited. They grabbed the unconscious dog, wrapped his naked body up to where his his legs and arms were bound, and took him to Tesni.

[smut]

Tesni was relaxing back in her bed with her clothes off. Her whole hand was stuffed inside her labia so her fingers could reach her baseball sized clitoris. She had just started and already her orgasm could be felt building. Her pussy was already sopping wet with her natural lube, and juices were sticking to her fingers.

Tesni was only about a minute into her private session before she heard a knock at her door. She gasped. Her whole body jolted as she was startled from the sound, and pulled her hand out of her labia. She took a deep breath, and heard the knock again. *"Holy crap. Why are they bothering me at this time?"* She thought to herself. *"My lunch offering isnt due for another couple of hours."* She got out of her bed and heard the knocking continue. *"Geez."* *"Alright! Hold on. I'm on my way."* She put on her loin cloth and bra, and made her way to her door.

[/smut]

Tesni tried to primp herself up with a wooly robe that some of the villagers made for her, and opened the door outward towards her followers with her eyes closed and arms open. She smiled disingenuously and spoke in her best voice of royalty. *"Hello my worshipers. What can I do for you-"* She opened her

eyes and saw a lot of villagers holding a person bound by vines. Her tone completely changed and went to something more casual. "What the heck is this?"

"My goddess!" Said Nora, the female goat of the village. She had a massive grin on her face. "We have brought you a male! You can finally bear children! And once you do, then maybe Min or you will be able to bless us with being able to us with husbands and families ourselves!"

Tesni's jaw dropped somewhat, and her eyebrows slightly furrowed. "What?"

Nora kept her wide smile. "It's a male my lady! Your prayers to your father have finally been answered! Please goddess! Bear children for our sake, so our village may prosper!"

"Oh." Said Tesni. "Right. Well, you see. Uh. So, he's uh." She was looking for any excuse she could. Her life was already way too pampered for her to change anything. "He's uh, too small for me. I'm afraid he just won't satisfy my needs. But you are more than welcome to have him. Take him as my blessing or whatever." She started to turn and got ready to close the door, but was stopped

Nora looked very confused, and looked to her village mates, and then back to Tesni. "But, my goddess, you have powers! You can change the form of this dog to have him pleasure and satisfy you! It would be a great dishonor to us if we took him for our own needs over your satisfaction." She curtsied to Tesni.

"Uuuuhhhh..." Muttered Tesni.

Nora looked up in even more confusion. "My goddess, have we done something to displease you?"

"Er, well, no, you haven't. It's just--"

"Oh joyous day then!" Said Nora now back to her happy self. "I was afraid. We have dedicated our lives to you, and if you were to reject our offering of this male and have him not impregnate you for the betterment of our tribe, then I think I would have lost all faith and have looked elsewhere for guidance!" A lot of nodding and agreement muttering happened behind her. "But, I'm happy to see you accept this male my goddess!"

Tesni gave a fake smile, realizing her followers were so willing to abandon her. "Right! Of course! And, you know, I wouldn't want to offend you all or have you stop worshipping me. So, I'll uh, I'll just go ahead and take that male off your hands there." She reached over and delicately picked up the unconscious dog with ease. Tesni shivered in slight disgust at his limp body as she held him against her hips. "Well, I'll uh, get to work with this male then. I'll let you all know when this works! Could be a bit though, so er, keep on praying and bringing me food!"

"And we'll bring some as well for the future father of our spouses as well!" Said Nora with excitement and her tail wagged.

Tesni gave a fans smile and spoke through her gritted teeth. "Of course... And food for the male..."

The tribal women cheered, and began to leave Tesni's hut while chanting the T-Rex's name. There were murmurs and joyful speeches of what Tesni would do.

Tesni continued her fake smile and waved goodbye to her worshipers. She closed the door and her fake smile changed to a genuine frown. "Crap!" She looked down at the naked dog she held in her arms. "Ew." She walked to her bed and lightly tossed the dog onto the bed and stared down at him. "Why'd you have to come into my life you mutt. I had it made, and now I'm expected to do what my followers want or else they'll dip." She furrowed her eyebrows some more and placed her hand on her hip while resting the other on her side. She looked down at his crotch and stared at his sheath. "Gosh you suck. You're not even big enough to do anything for me." She huffed. "Guess I'll start thinking of what I need to do with you then." She began to walk away to her kitchen, and chuckled. "Maybe I'll just say he died from not being able to handle me." She stripped herself of her robe and tossed it to the ground so she was just in her loin cloth and thin bra. She went to grab a book from a nearby shelf, to see if her mother had left her anything that she could find of use to use on the dog.

Minutes passed, and Copper slowly started to come too. His eyes started blinking and the pain started to come back to his body. He winced and his body scrunched slightly. "Oooooowww. What the heck happened." He softly muttered to himself. He tried to analyze where he was. He quickly realized he was bound and tied around his wrists and ankles, while simultaneously being naked. Next he noticed he was laying on a bed, and across from him on the other side of a room, was a giant ass and some thick hot dog like lips. The magnificent looking body parts were attached to a fine bodied amazoness. She was currently leaning over searching for something on a bookshelf, and her privates were staring right at him. He grinned slyly. "Well, hello there." He said with some poor charisma.

Tesni's head perked up and her right eyebrow raised up and her left one furrowed. She slowly stood up and turned around to look at where the noise came from, and noticed that the dog had his eyes open and had a very stupid looking grin on his face. "Oh, you're awake."

Copper could feel his tip begin to leave his shaft. "And I must say I was awoken to a very fine view. So, what has brought you to this bedroom with me on this fine evening?"

"Brings me to this bedroom?" Said Tesni with some frustration. "You must have bigger balls on you than you show to suggest that I chose to meet you. When in fact, my worshippers saved you from certain death, and have brought you *to me* so that I may take care of you. So show some respect you cretin. For I, Tesni, daughter of the god of reproduction, love, and sexual pleasure, have chosen to not smite you for your infiltration of my village."

Copper sat there in silence for a moment. "A demigod of sexual pleasure you say?" His grin grew wider. "And how exactly could someone like myself join your followers in worship of you?"

"Oh shutup." Said Tesni as she tossed a book in her hand at him. But her aim was too good and accidentally smacked him in the head, causing him to get knocked out, and falling unconscious back on the bed. Tesni's face and stance went from being uninterested to concerned. "Uh. Dog?" She walked

over and picked up his limp arms. It was completely dead weight and she let it drop, plopping on his furry tummy. "Uh oh."

—

Copper slowly woke back up with a headache. He brought his still bound hands to his head and rubbed it. "Oooooooooowwww." He creaked his eyes open as he tried to get his eyes to adjust to the lighting. The room was much darker, and there were candles lit about the room. "What happened?"

"Oh thank Min you're not in a coma!" Said Tesni and she placed her hand on her chest and let out a deep breath. She was sitting next to him on the bed. There was a book in her hand she was reading that she placed on her lap. "Gosh, I can't even imagine what the worshippers would do if I killed you."

Copper glanced and looked up and down at the T-Rex's body. "Damn your big lady."

Tesni's face turned to disappointment. "...I don't feel as bad for knocking you out anymore." She brought her book back up to her face and began to read again.

"So miss fertility goddess." Said Copper with a smirk. He shimmied himself over to her to where he was closer. Tesni noticed his movement, and copied him to where she scooted away from him. "Why have you chosen to capture a delectable treat such as myself and lock me away in your bedroom? Feeling a bit kinky are we?" He wiggled his eyebrows.

Tesni lowered her book slowly to where it rested in her lap, turned her face to the dog and glared at him. "If you must know, you are here because my worshippers deem it necessary."

Copper thought he would get a more fun answer, and his face turned to confusion. "What?"

Tesni sighed deeply. "Look, I'm a demigod, daughter of Min right? Well, my worshippers haven't seen a man in decades. All of them out there are older than me technically, and they see you as a blessing. They think that if you and I procreate, then that will bring another blessing upon us, or something. I didn't fully understand their thinking process. But basically either I have sex with you and become impregnated, or they stop worshiping me. And I am *not* going to lose this life of a deity." She brought the book back up to face to continue reading.

Copper could feel the gears in his head. He then grinned. "I humbly accept the duty of being your seed giver my lady! Do to my body as you see fit!" He rolled over on his side a bit so his sheath and balls would be better eye candy to the T-Rex.

"I'm honored." Said Tesni with some sarcasm. She flipped a page and continued reading.

"So, when will my body be yours?"

"As soon as I find a spell that can make your dick big enough for me."

Copper looked down at his sheath. Then back at Tesni. "It's a decent size."

Tesni chuckled. "If I was maybe half your size and wasn't cursed with a hyper pussy, then sure, maybe."

Copper smirked. "Hyper pussy? Man, it doesn't matter the size. I'm sure I can handle it, no matter what."

Tesni raised an eyebrow. "You sure about that?"

"Absolutely! There's no pussy I can't handle!"

[smut]

Tesni leaned over and picked up the dog from the bed and held him for a few seconds in the air. She then spread her legs, and the heat from her vulva began to emanate out onto the bedding. She lifted her loincloth with her other hand to let him look upon her loins. "Still think you can handle that?"

Copper gulped. Her lips were bigger than his head and even his shoulders. His confidence seemed to be wavering. "Chyeah. Obviously. I've been in my fair share of large pussies. Never met one I couldn't handle."

Tesni chuckled. "Good then. Because I've been horny for a while now and need something to help me climax." She placed the dog on her tail, and moved his face to her lips. "Enjoy your meal." She then shoved his body further into her vulva. There was a squelch as his face penetrated her lips. She brought the book back to her head and continued to read. "Now, where was I?"

—

Copper felt his world go dark as his head was shoved deep into Tesni's lips. His fur became drenched in her arousal juices. He stuck out his tongue and licked around. "Oooooohhh. Tasty." He thought to himself. He continued to lick around inside her pussy, lapping up whatever juices he could.

—

Tesni softly murred to herself as she felt the dog begin to lick her insides. "Hmmm. Maybe that dog does know a bit about pleasuring a woman." She flipped the page of her book one more time and her eyes widened. "Oh! This would be perfect!" She moved the book and looked down at her crotch to see the dog's tail was wagging as he continued to eat her out. "Well dog, this might be your lucky day. I think I found something good for you." She placed the book down on the nightstand and went to reach and pull the dog out from her, but she stopped herself. "Well. Maybe he can stay in there for just a bit longer." She brought her right hand down to her vulva and spread her lips, and began to rub her enlarged clitoris. "Mmmmm. Keep going doggy boy."

—

Copper was in his happy place. The juices he continued to eat tasted fantastic. And even with him starting to feel his stomach press more firmly against Tesni's tail, it didn't stop him. He was going to make sure he could please this T-Rex.

—

Tesni surprised herself as she began to slightly moan. Her fingers were already sopping wet from just being in her lips for less than a minute. She could feel her orgasm approaching. "Damn. This dog is doing better than I thought." She could hear the squelches of her fingers betwixt her lips, and it almost sounded like she could hear the dog taking heavy gulps. But she would worry about that later. At this moment, she was just too focused on her climax. She began to apply more direct pressure on her baseball sized clitoris and moved faster as well. Her breathing began to quicken, and she could feel her pussy begin to gush more with liquid. "Enjoy your drink doggy."

—

Copper started to feel his face get onslaught with more liquid. He stopped just going for a quick slurp and opened up his gullet to receive the delicious vaginal juices. While his mouth may have been open, he still used his tongue to run along the inside of her walls, lapping up any additional liquids he could that stuck her pussy. He could feel his stomach bulging, as her juices quickly stuffed him.

—

Tesni felt her orgasm about to hit her. She continued to rub her clitoris with vigor. "Ah. Ah. AH. AH. AAAAAAHHH!" Her climax had come, and she applied more pressure around her clit as she came. She brought her hand to her chest and squeezed her breast to try and add some nipple stimulation to the mix. Her eyes went slightly crossed and she bit her lower lip while her tongue stuck out. "*This dog is turning out to be a pretty decent pleasure toy after all.*" She thought to herself.

After around two minutes of pure climaxing pleasure, Tesni's orgasm came to an end. She pulled her fingers out of her lips, and sticky sexual liquids clung to her fingers, and dripped like parabolas as it stuck to her lips. She brought her hand to her mouth and licked what juices remained. She made an audible pop as she sucked her last finger. She smiled deviously as she licked her lips. She brought her hand down to the dog, and slowly pulled his head out of her heat stricken pussy. She moaned as her loins felt tender from his service.

Copper's face and neck were soaked in vaginal arousal juices. His face looked like he had dunked his fur into bucket of lube from how many liquids were dripping from his face. He had the biggest grin Tesni had ever seen on an animal. "Wow." He said softly as his tail wagged.

[/smut]

Tesni looked at the dog that she held in her hand. He still looked the same, however, his stomach was bloated to the point where it looked like he had swallowed the volume of both of her massive beach ball sized breasts. "Well there little dog. It seems that you are of some use after all."

"Told you I could handle it." Said Copper with a smirk.

"Good, because I found something that I think can be useful to you." Said Tesni as she placed the dog back down on the bed. She swung her legs over the edge of the bed and stood up as she grabbed the book on the nightstand.

"And how pray tell can I do that?"

"With a bit of magic that my mother taught me. I'll be right back." Tesni walked away and left the bedroom.

Copper was now in the room by himself. His cock was at full mast and pressing into his femme juiced up belly. He tried to get up to go and follow Tesni to see what she was doing, but with how damaged his body was and how much weight was pressing against his stomach, he felt pretty immobilized.

But Copper thankfully didn't have to wait long, as Tesni walked back into the room holding something in her hand that looked like a doll. "Here it is." She said as she walked up to Copper and held the doll in front of his face.

"What's that?" Said Copper as he looked at the doll. It had a shape that was very similar to that of Tesni. Even the pussy and tits looked accurate. The doll was about the height of a Barbie doll but way more shapely.

"It's a voodoo doll of me of course. You see, you aren't big enough for me in your current state. However, your dick should be plenty big enough for a voodoo doll."

"How is a voodoo doll going to help me impregnate you? Don't you just feel stuff? Like you'd feel me lick it, but it would just be a sensation to you. You're not actually being licked."

"Well I guess voodoo doll is a generalization of what this truly is. It's a doll that has an exact replica of my genitalia in it. Whatever goes inside there, goes inside me. It pretty much acts like a relative size portal."

Copper looked at the doll in confusion. "Sooooooooooooo..."

Tesni sighed. "If you have sex with this doll it will basically be like having sex with me, but for once in your life your dick will actually be of a satisfying size. And if you put anything in it, I'll receive it." She looked at the dog's blank face. She rolled her eyes and sighed. She placed the pussy of the doll in front of his face. "Put your tongue in there, and tell me what you taste."

Copper looked at her meekly then slowly brought out his tongue and slowly inserted it into the doll. It immediately tasted of her sexual juices from earlier, and his tail began to wag. He shoved his tongue deeper into the doll and saw its belly bulge. He then heard Tesni moan and he looked over at her. Her stomach was distended as well. In fact, everytime he moved his tongue, the bulge in her belly moved as well, and it matched that of the dolls. He pulled his tongue out quickly. "Woah."

Tesni felt a shiver run down her spine and she readjusted herself. "Yes. 'Woah'. So, you are going to have sex with this doll, understood." She then handed the doll to the dog.

Copper looked up at her and gave a nervous grin. "Uh, sorry, I don't think I'm able to reach my penis with this belly full of femme cum." He tried to reach around his giant belly towards his cock.

Tesni let out a sigh. "So I'm going to have to use my doll to have sex with you huh?"

Copper's nervous grin turned into something more confident. "It uh, looks that way." He pulled his hands behind his head as he relaxed.

[smut]

Tesni let out a huff. "You're lucky my worshippers want me to get pregnant." She moved the doll from the dog and went to his crotch. She pulled back his fat belly with one hand and brought the doll to his erection with the other. His tip had a string of precum connected to his fat tummy. She placed the doll against his girthy tip, and felt her own lips begin to spread against the bed sheets. "Gosh this is weird."

Tesni took a deep breath, and slowly started to push the doll's pussy down on his cock. She let out a moan as she finally felt something large and girthy enough stretch her pussy. She stopped the movement of the doll for a second to take a breather. She could hear the dog moaning slightly in the background. She looked down at her belly and saw that there was a bulge around her belly button. She grinned as she rubbed it with her other hand. "Mmm. Looks like you might work as a boy toy after all dog."

Copper's tail wagged. "Well thank you my goddess. I do my best to-" He felt Tesni's hand around his muzzle.

"Don't talk while I do this. You might ruin it for me." Said Tesni. The dog nodded and she pushed the doll down further on the dog's cock. She moaned as his dick continued to stretch her insides. He moaned as well, but with his muzzle shut not a lot of sound came out.

Tesni slowly moved the doll down on the dog as if the doll was his personal cock sleeve, and he was her massive dildo. She felt her stomach bulge as his cock stuffed the doll and herself. It felt amazing. Nothing had ever pleased her this much before. She groaned as she pushed the doll down deeper on the dog. His cock was now pressing between her breasts. She let go of the dog's muzzle and he began to moan more loudly, and she moved her hand to her breast. She squished it towards his cock, and used her shoulder to prop the other one. "Can you feel it mutt? Can you feel my godly rack pressing around your shaft?"

Copper whimpered and nodded with a smile. *"Holy crap."* He thought to himself. *"Her pussy is absolutely divine! Well, it makes sense that she's a demi-goddess I guess. OOOOH GOSH!"*

Tesni moved the doll up and down the dog's cock in a slightly faster motion. She enjoyed the feeling of her breasts move around the bulge of his cock, but even more so, the sensation of his dick penetrating her from within. It was more of a test earlier with the voodoo doll for being slow, and now she was ready for the full force of his meaty cock.

Tesni started to use the voodoo doll on the dog as if it was his own fleshlight. She moved the doll up and down the dog's cock, jacking him off with her doll. She moaned with the dog as his dick was thrust deep into her godlike pussy. Her body literally got displaced from the force. But she didn't care, it felt incredible. She did it again, and again. Stroking the dog's cock and having it thrust deeply inside her.

But it felt to her like she could go further, and something was stopping the doll from being pushed down. She took a glance and saw that the dog's cock was knotted, and the doll's vag wasn't fitting around it. She grunted. "Brace yourself mutt. You're going all in."

"What?"

Tesni shoved the doll down on the dog's cock with some extra force. Tesni moaned as she felt his knot stretch her own insides. There was now a very prominent bulge at her pelvis. She rubbed it, and grinned deviously as she looked at the dog. He had a giant grin on his face and his tongue was lolled out. He smiled back at her. "Alright dog. Do what you males are born to do! Breed me! And help me bring life to my worshipers!" She began to furiously stroke his cock with the voodoo doll. It didn't move much as it was knotted, but it was enough to stimulate him, though she did it mainly for her.

Copper moaned loudly and his legs spasmed as he was close to climaxing. The feeling of Tesni's godly pussy milking his cock, and her stroking him with the doll, it was all so magical. He knew he wouldn't last much longer. He felt his balls twinge and his cock tense up as she jacked him off. And with her next few strokes, she got him to peak, and he began to climax.

Tesni felt the dog's dick bulge slightly from within her, and suddenly her womb felt a hot and warm liquid coat every centimeter of her insides. She belted out a loud roar of pleasure. Her stomach bulged and pushed her tits further away, and she watched as the cock continued to shoot globs and globs of cum into her. Her belly bulged at the tip of the dick with every jizz shot. The semen soon started to quickly fill up her womb, making the cock shaped bulge become less visible as it became more rounded. She wrapped her arm around the tip, pulling it closer to her chest, and pressed her head against the tip to try and feel the cum bulge press against her. She let out moans as each shot pushed her head back slightly from all the force. Her hand squishing against her stomach as she pushed against the dick and it kept inflating her. Soon the jizz began to balloon her belly out even further, and she already looked like she was able to give birth to a set of twins.

But as the orgasm from the dog slowly stopped, so did the cum shots hitting Tesni's face. She released her grip from the cock inside her. Her belly instantly sloshed as it formed into a giant sphere. She licked her lips and rubbed her belly, feeling the warm goo jostle inside her. She looked at the dog to see his reaction, and saw that he had his eyes half closed with his tongue hanging out of his mouth, and a wide smile on his face. She released her grip of the voodoo doll, and saw that it too looked extremely pregnant. "So dog, what did you think?"

"That was... oh my gosh. That was amazing." Said Copper. "Your body, is freaking crazy good."

"Damn right. I'm a sex goddess dog." Tesni leaned over and patted the dog's belly. "Maybe you will be useful to me." She then stood up from the bed, and felt her stomach succumb to gravity, and tried to pull her down. But she was too strong for it, and kept her balance. She rubbed her belly, and looked back at the dog laying on the bed. "Now, stay there and be a good boy, and soon mommy will be back for round two."

[/smut]

"Yes ma'am!" Yelled Copper enthusiastically.

Tesni licked her lips again, and found her loincloth laying on the ground next to her bra. She slipped them both back on and went to her front door. She swiftly opened it up, getting ready to proudly proclaim as loud as she could to her followers what she had done. But as she opened it up, she saw all of her worshippers standing outside already, eagerly waiting to hear the news. "Oh. You're uh, you're already here..."

"Oh yes dear Tesni!" Said Nora. "We heard your cry of pleasure and we all immediately came rushing to see what happened!" A lot of the worshippers were already staring at Tesni's belly, and there were a lot of giggles and murmurs of excitement.

"Cool, glad to know now that literally all of my orgasm moans in the past have been audible." Muttered Tesni to herself. "But yes! I have laid with the dog that you have provided to me. What you see inside me is his sperm. I can say without a doubt, I will be blessing him with children."

Cheers and screams of joy were heard from the worshippers. Tesni kind of had a reel back a bit from their loudness. "Oh joyous day Tesni!" Said Nora. "We are all so happy to hear this wonderful news! This is definitely a fantastic blessing for our people."

"Yeah so like, woohoo and whatnot." Said Tesni with a shrug. "Now can you go get me and the dog some dinner? We're hungry."

"Of course Tesni! Right away!" Said Nora, and all of the followers quickly broke off to make some food for their goddess.

Tesni smirked and walked back inside, closing the door behind her. She peered into her bedroom from a distance, and saw the massive belly of the dog just laying there on the bed with his tail wagging softly. She rolled her eyes and her smirk turned to a smile. She glanced down at her belly and rubbed it. "Well, I guess this isn't *technically* a 100% guarantee that I'm pregnant. Just good odds." She then looked back at the dog. "Hey mutt!" She yelled. "Get your ass ready. I'm coming in there for round two."
