The world's population (men, in particular) is facing an unprecedented challenge. A pandemic is imminent, but at the moment few people are aware of it. The World Health Organization (WHO) is attempting to warn people about this new contagion that is turning men into women.

Contagion Day

Life is so strange.
You can live for years like a monk, then you meet a beautiful babe and fuck her for hours and hours. Absolute madness!

She seemed to know exactly what a man wants.

And I forgot to ask for her number... damn it!

John has no awareness of the alien bacteria that is now present on the planet. All he knows is that he's just had the hottest sex of his life with an absolute dream of a woman he just met... but soon he'll experience the other side of this dance.

One day later...early in the morning. John is getting ready for his work day.

What the...?

My chest feels so sore...
and why are my nipples erect?

And why am I
so darn horny? This goes
way beyond my usual
morning wood.

A few hours later, after a hard working day. John's body continues to change, as does his mind. However, while John realizes something strange is happening to his body, he's unaware that he is also experiencing some mental changes.

Hopefully this cream I bought relieve the itching on my swollen nipples.

The second day. The changes are more advanced. John's muscle mass has decreased significantly, while his facial features somehow seem softer. But not only this. His short hair has grown at an alarming rate...as has his chest.

The itch is mostly gone...but those tiny lumps look a lot like female breasts!

My face... it looks so different! And my hair is growing so fast.

I need to see my doctor!

It's usually hard to get a same-day appointment with my doctor, but once I described my symptoms, they told me to come in right away.

My body feels so strange. The way my shirt rubs against my erect nipples sends waves of pleasure through my body. They were never this sensitive before. And I'm so damn horny. I've already jerked off five times today. I hope I don't get another erection while I'm in the doctor's office.

Tell me, John,
when exactly did you first
notice these changes?

It's been nearly three days.
Doc, what the heck is wrong with
me? What would make my body
change so dramatically?

I work out every day, but
my muscle mass has decreased. I'm
so much weaker than I was. And look at
my face! My skin is so smooth. And
my lips are swollen!

I used to have hair on
my chest, but look at me now!
Yesterday, my nipples puffed up and stayed
erect. And the flesh beneath them grew
and grew. Don't you think they almost
look like female breasts?

And I'm horny. So damn
horny! I masturbate and a few minutes later
I'm rock hard again. I jerked off before I came
here, hoping it would prevent me from getting
an erection during my visit, but look! I can't
control it! What's wrong with me?

We need to monitor your
symptoms, but first we need
to take a blood sample.

Frankly, this sounds like the kind
of case that the WHO has been giving us
alerts about. Have you seen any of the reports
in the media? One of my colleagues encountered
someone infected last week. It looks like
we're in a... FemDemic!

Oh, Doc... I appreciate you caring... and your touch... it sends shivers through my entire body.

Even though we have to wait for the results of the blood test, I see many parallels with my colleague's case. He described to me how this patient underwent a complete gender change in a few days... without any surgery or hormone therapy.

You mean... there are other people like me?

I am afraid to say, John, that you are going to become a woman.

I'll prescribe hormone blockers so we can keep things at bay as best we can. Please refrain from any sexual activities until we learn more details.

But John's appearance isn't the only thing that is changing.. his behavior is shifting as well. On the way home, he passes a boutique...

I need to pay more attention to the news. I can't believe I've never heard about any other cases like mine.

Oh my... how beautiful is THAT?!

No way...

I know it's crazy, but I really want to go inside. Those dresses look so... alluring...

This top suits me very well, I think.

Wow, what an experience! I should visit boutiques more often!

Hmmm... do these pants make me look fat?

These shoes... wow. I never wore heels before, but they feel so natural on my feet.

I can't believe how much skin I'm showing... and that I even got a handbag and heels. The doctor was right... I'm truly becoming a woman.

When I think about it...
why am I so worried?

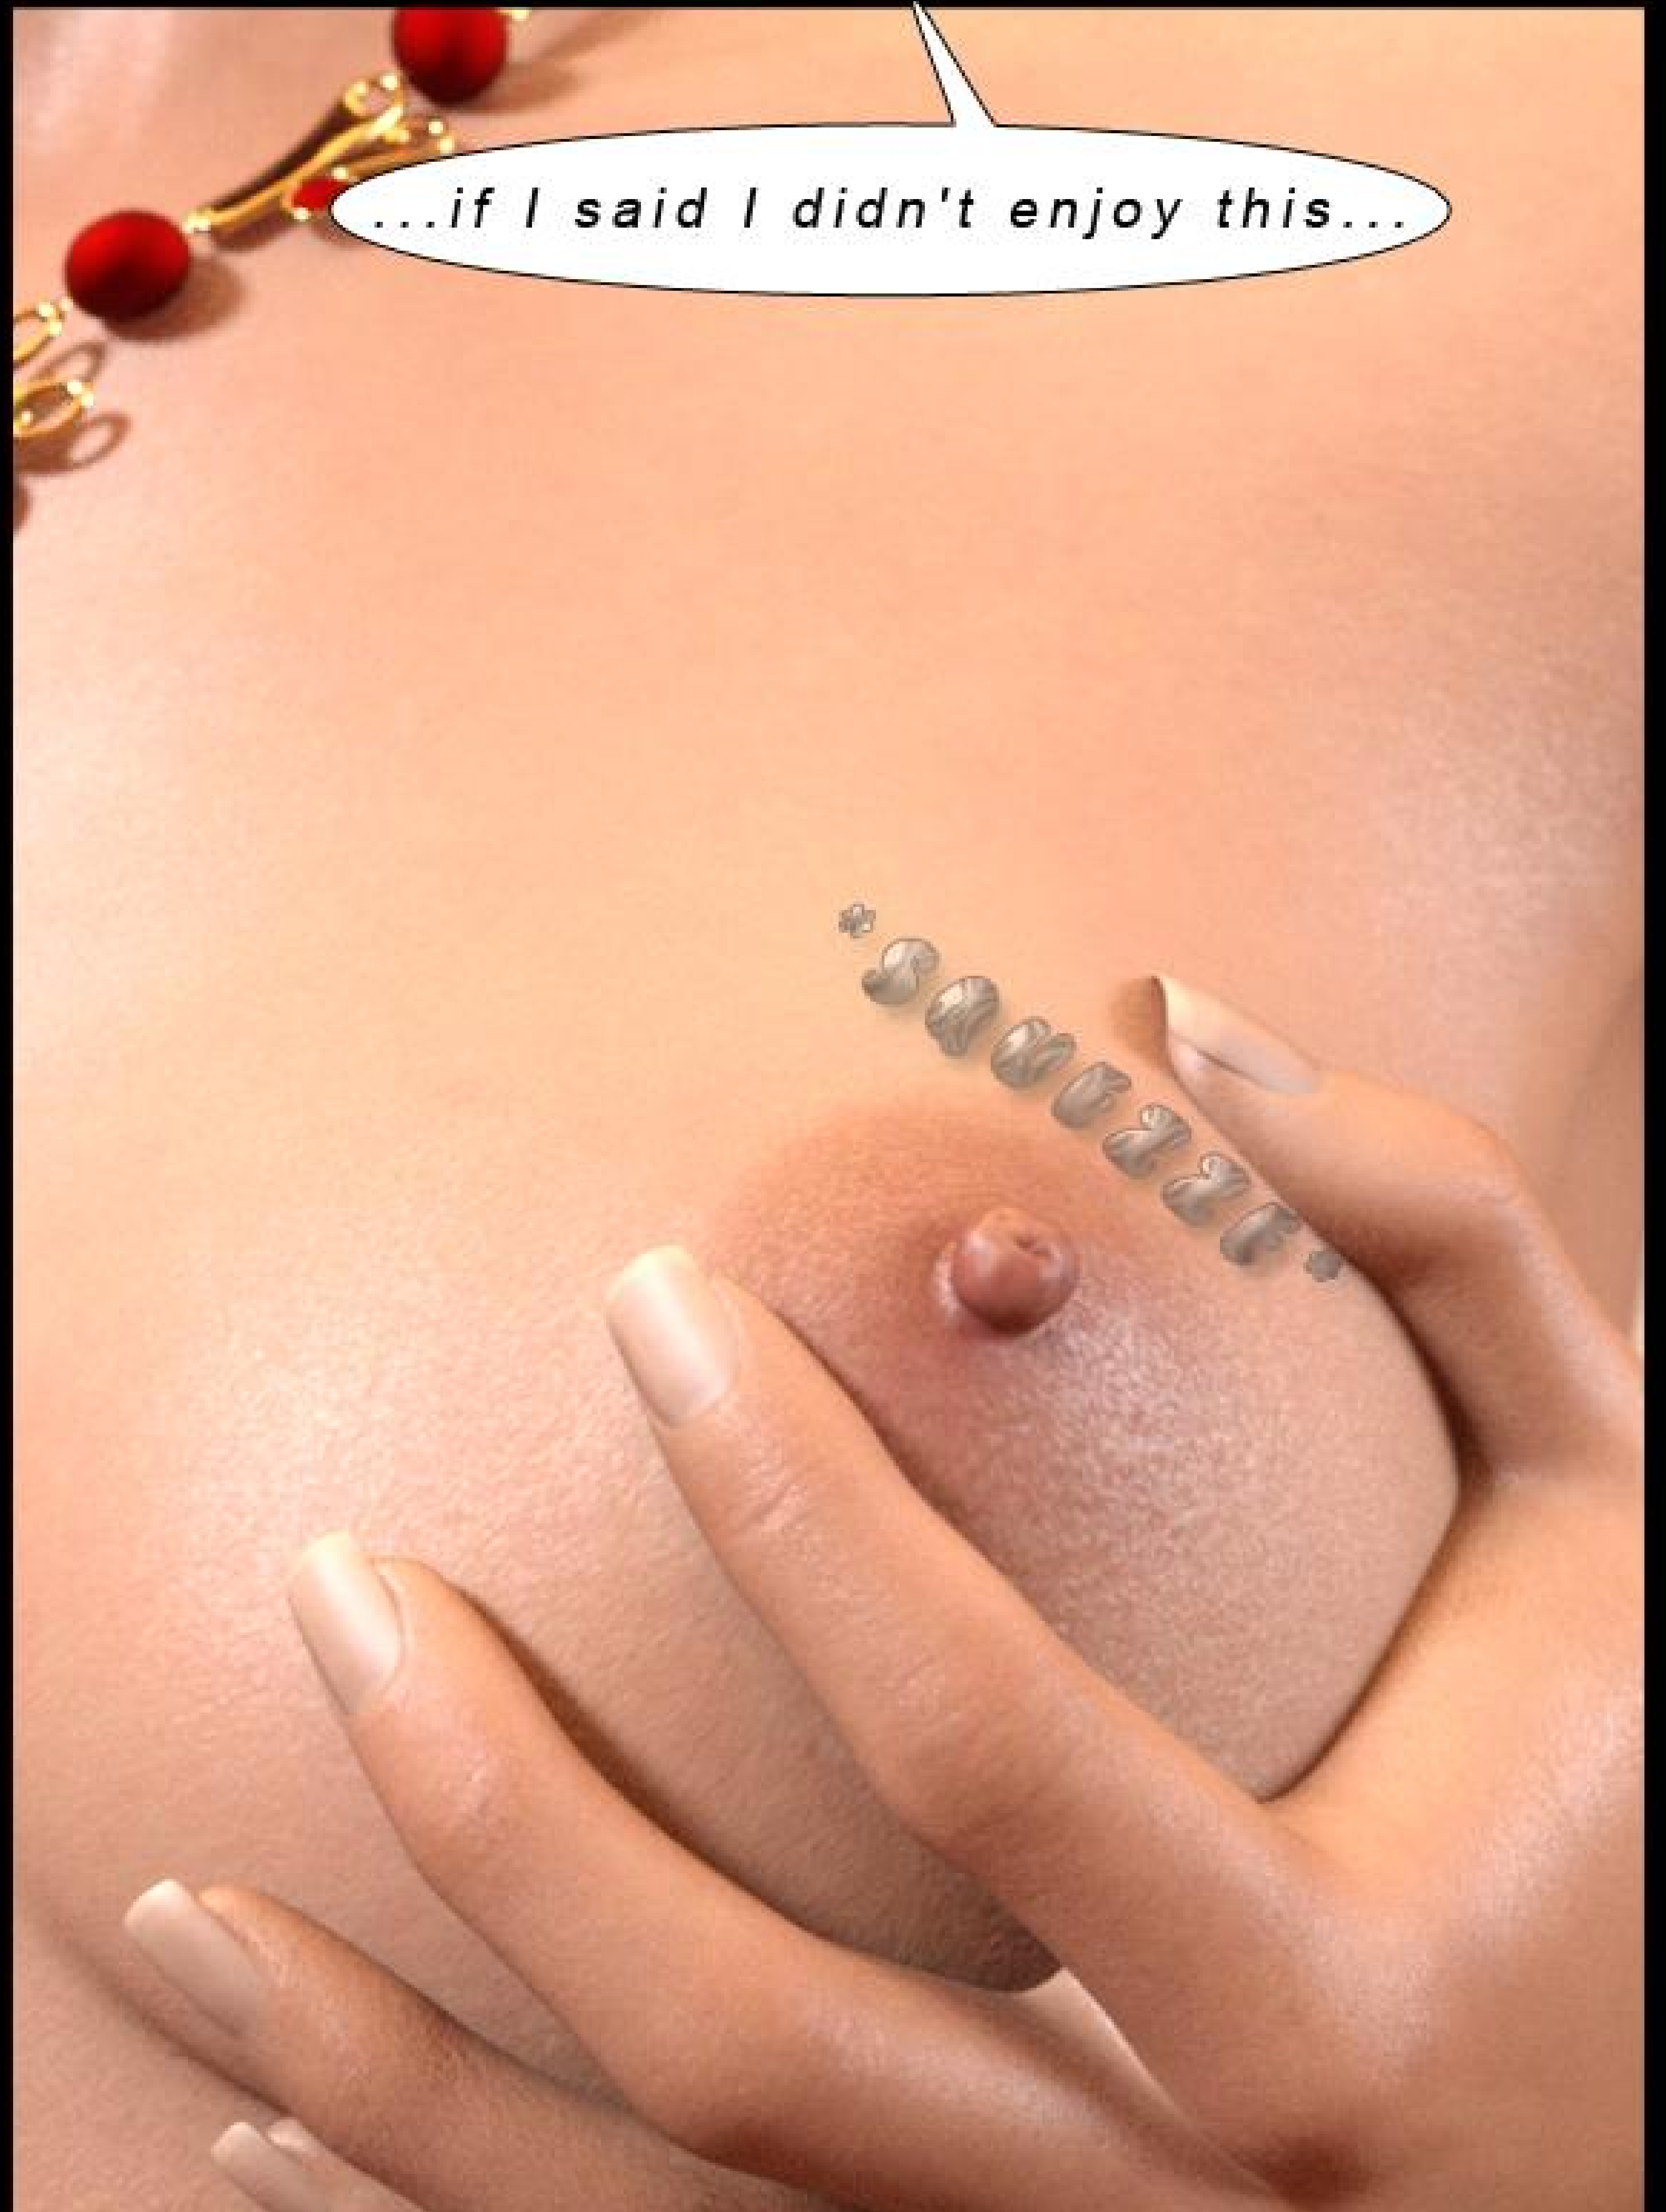

How many times
have I fantasized about
being a woman?

And now...for
whatever reason...that
dream is coming true.

This is a
new stage in
my life!

And I'd have to lie...

...if I said I didn't enjoy this...

Oh my God...
these feelings... my chest
has never felt so...
sensitive.

Imagine how
it would be to be fucked
really hard by a man....

Many hours and orgasms later....

I'm completely spent.

Time to call it a night and go to bed.

As John sleeps, his body undergoes another change. He was so busy shopping and masturbating that he forgot to pick up the prescribed hormone blockers. And so, the next morning...

Oh my gosh...
if I didn't know this was me,
I'd think I was a stunning hottie
and flirt with me.

Damn... but my
old buddy has shrunk
drastically!

And so, John goes on another little shopping spree. On the way back home...

Damn...
what a babe.

giggle
Thank you,
hot stuff...

Wanna
have some fun,
cutie?

What the...

I'll
show you the best
time of your life.

Come with
me, honey.

I'm Joh...er...
Jane...and I'm horny...
like, really horny.
giggle

Uhhh...
okay. Why
no- unhhh...

Sooo...big...
and strong... I like that.
giggle

Ohhh...
yes...suck my nips,
hot stuff.

Mmmhhh...

I hope you
don't mind that I'm not
quite a woman yet...

giggle

Normally
that's not my type, but
I'll make an exception for
a smoking hot babe
like you.

Mmmhhh...
now it's my turn,
big boy!

Neither person knows that John's, or should I say Jane's body is now producing massive amounts of sexual pheromones, making it almost impossible for a man to resist.

Jane's arousal and increased hormone activity that accompanies it has an immediate effect. Her breasts continue to expand...

Cum all over my face, hot stuff! Wow, there's so much! You're like a fire-hose!

giggle

Ohh my...

The features of Jane's face also shift and become more feminine. And her hair grows lighter and lighter... taking on a blonde tint.

Ready for another round, stallion?

Many hours... and lots of spunk later.

Gee whiz...
that was, like, totally amazing
an' stuff...

giggle

giggle

I feel,
like, totally different...
but I can't put my
finger on why.

Tee-hee!
I feel like I'm
forgetting something, but
it can't be that important. The
main thing is that I feel, like,
sooooo good right now!

What I really need is a hot bubble bath so I can relax.

It was soooo amazing to give head an' stuff... but lots of things about becoming a woman are super-stressful.

giggle

EXPAND

Whoopsie!
It's slippery. I need to be...
Tee-hee!

What was
I thinking about a
second ago?

Whatever it was,
it couldn't have been
super-important. I, like, never
forget the important
stuff in my life.

giggle

Ahhh...
like, so relaxing!

Am I a girl now? Like totally absooolutely?

I'm pretty sure my outie definitely just became an innie!

Huh?

SHRINK

Like, what's happening now?

Am I, like, totally getting smaller? How uncool. I don't wanna...

Everything seems, like, soooo huge now. I gotta find a mirror!

*OH! EM! GEE!
is that, like, really
me?*

*I was, like,
soooo much taller
before.*

*Pooh...
I, like, hope I'm done
changing. I don't wanna
get any shorter!*

*I like what's happened
to me... for the most part.*

*I'd like to go
out and find more cocks
to suck... but I'm kinda
tired.*

*Maybe I'll just snuggle up
in bed and watch some TV.*

giggle

That evening... 8pm.

Dang! These guys on this show are, like, so hot an' stuff!

"Naked in the Woods" is, like, the totally best TV show ever! And the guys aren't just hot, they're smart too!

giggle

Kevin

Laura, my steely muscles **flex** and phenomenal body are everything you want in a man...I can see it in your eyes.

Laura

Kevin, stop thinking with your dick. I broke a fingernail and my high heels lost their shine in the mud...and no shoe stores are close...this is the end of the world...I want to get out of here!

Later that night... 10pm.

Roxy News Speaker

Good evening and welcome to the 10 o'clock news. Is this the beginning of a new pandemic? Scientists around the world are investigating the recently discovered bacterial infection that transforms males into sexually-obsessed females in a very short time.

The origin of the bacteria is widely disputed. Rumors on social media claim that it came from another planet. Whatever the case, it's highly mutagenic and thus far resistant to all attempts to contain it.

Politicians first considered a lockdown and the restriction of infected groups to special camps. On the conservative side, the very existence of the contagion has been denied and all protective measures rejected.

Conspiracy theorists predicted that this is all part of the framework to impose a New World Order and that it has been initiated by the richest ten people in the world... the WHO. Meanwhile, any coherent response to the pandemic has been sorely lacking.

The changes for Jane, formerly John, continue through the night. Her dreams are filled with lusty dreams of uninhibited sex.

Her transformation is proving to be an extreme case.

The massive growth continued until the morning.

The next morning, Jane awakens feeling quite invigorated.

Mmmm... that was,
like, totally sooo...
yawn

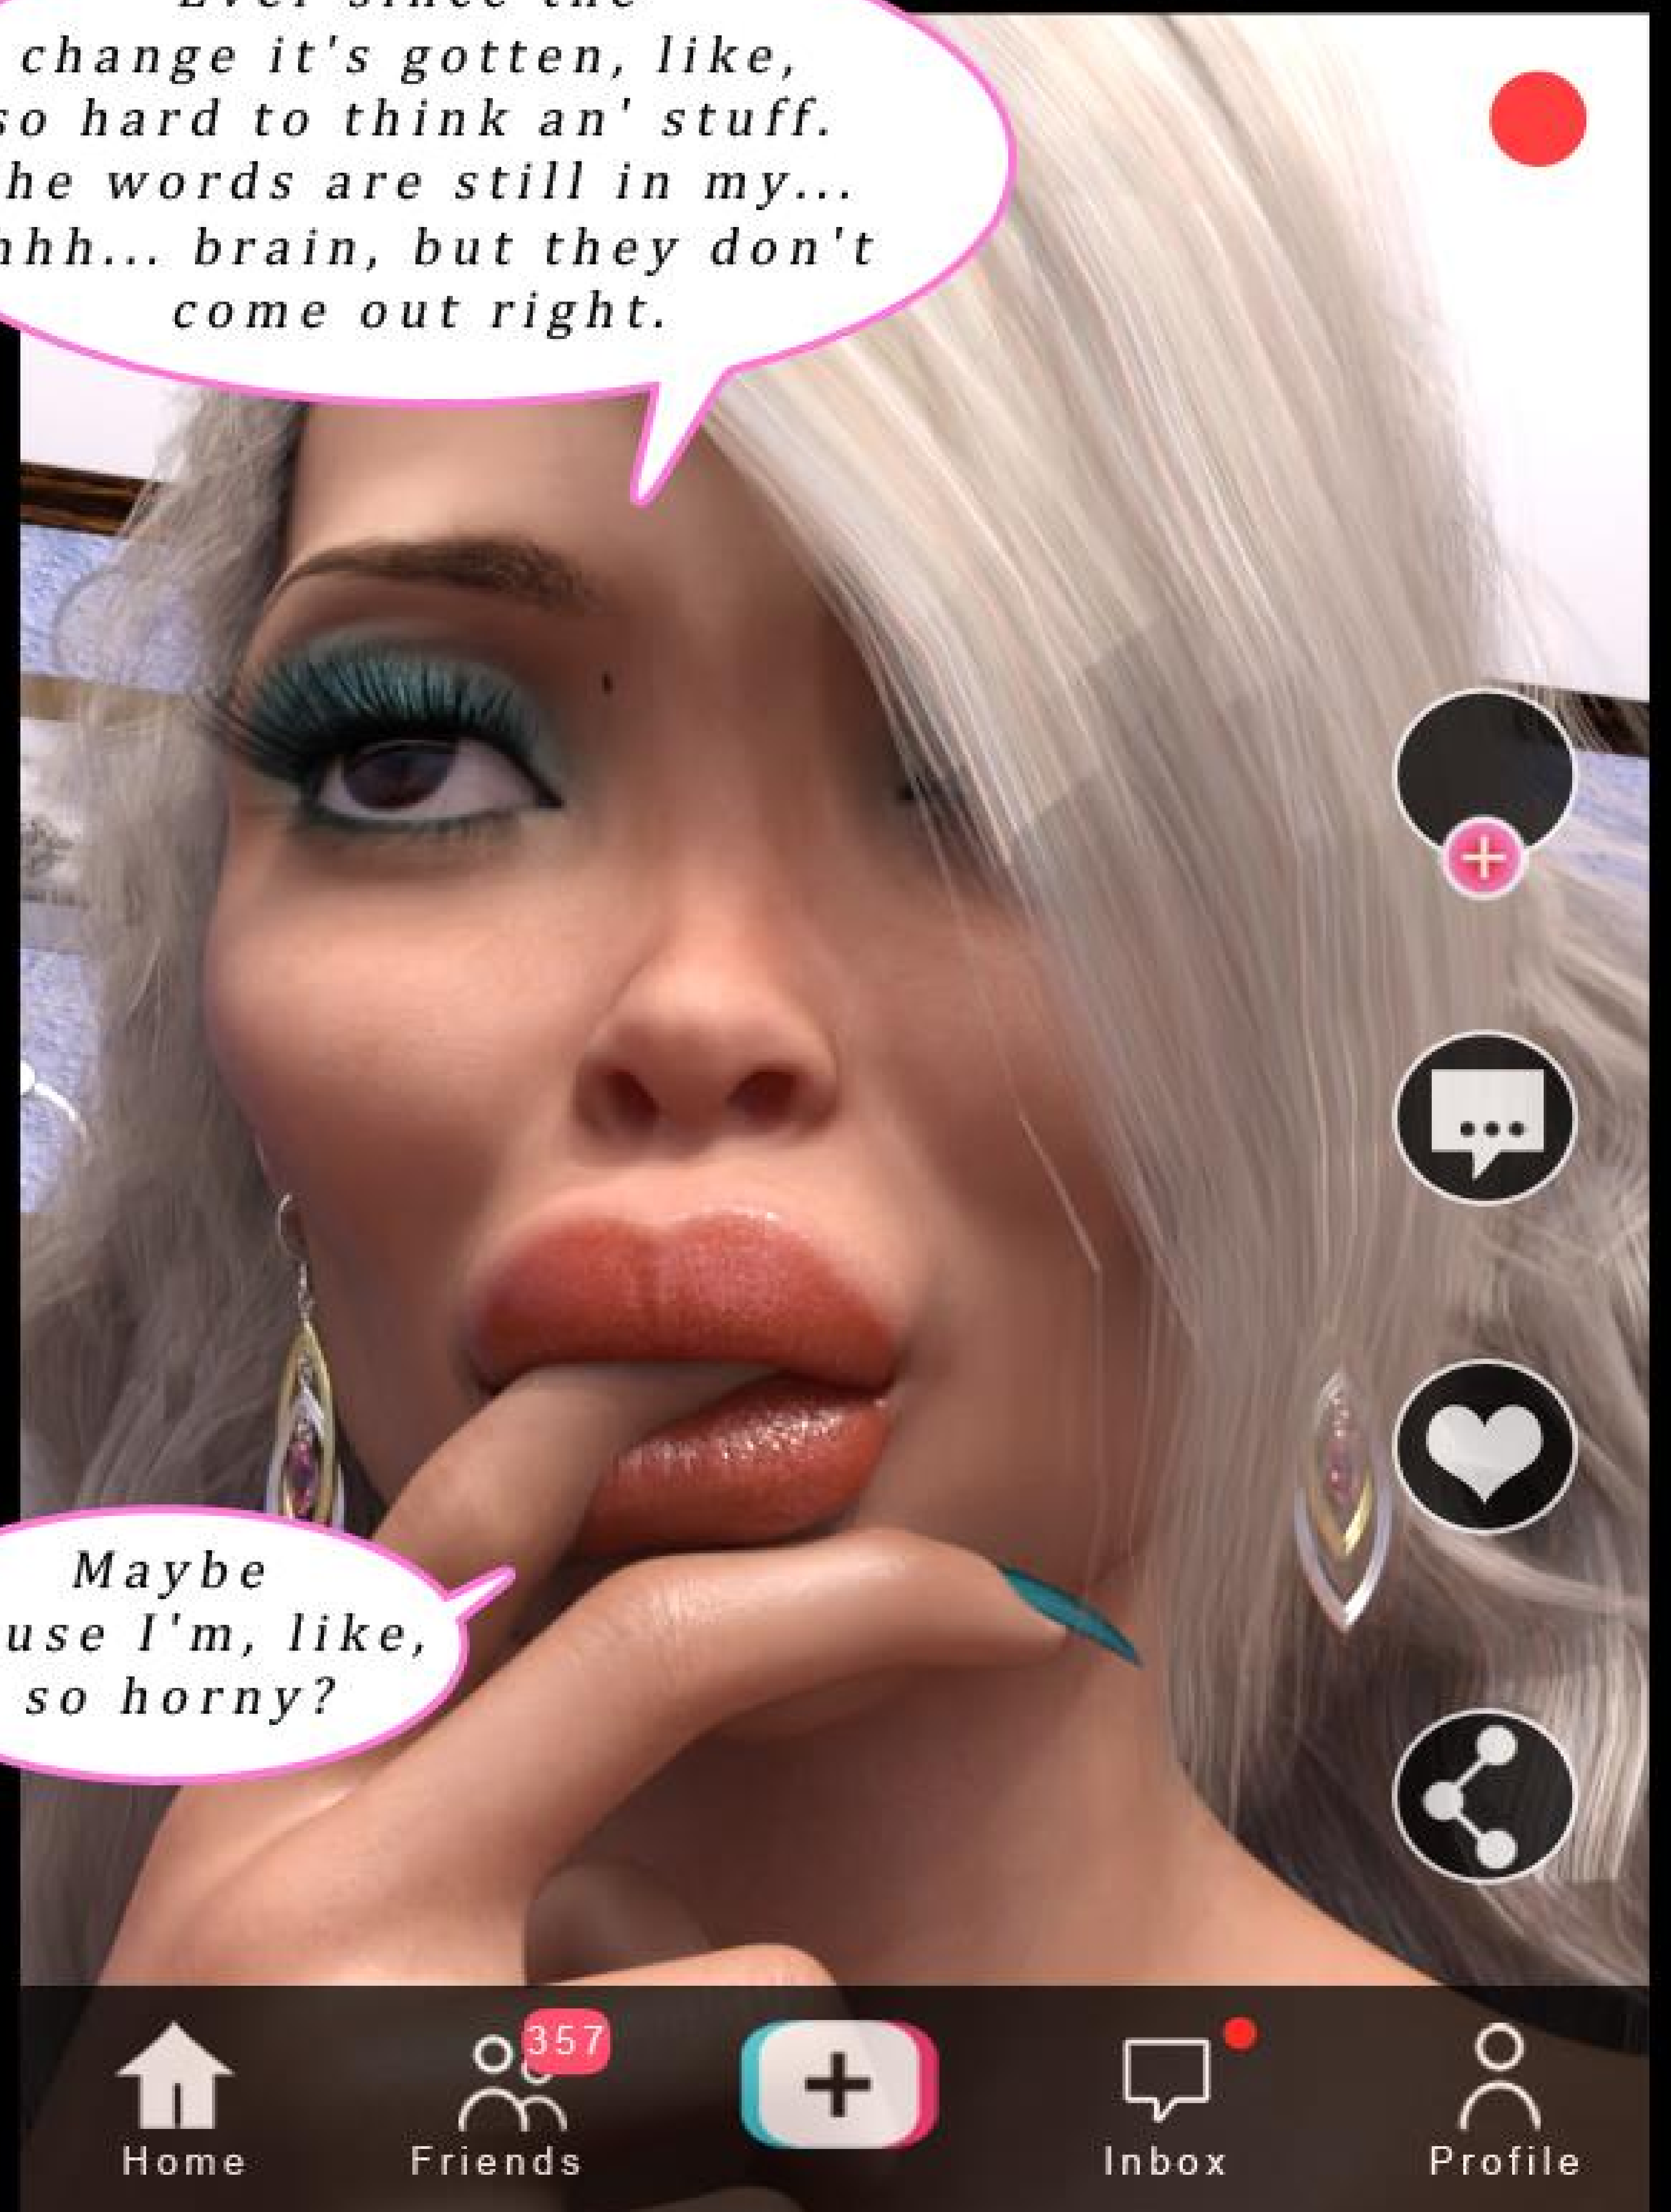

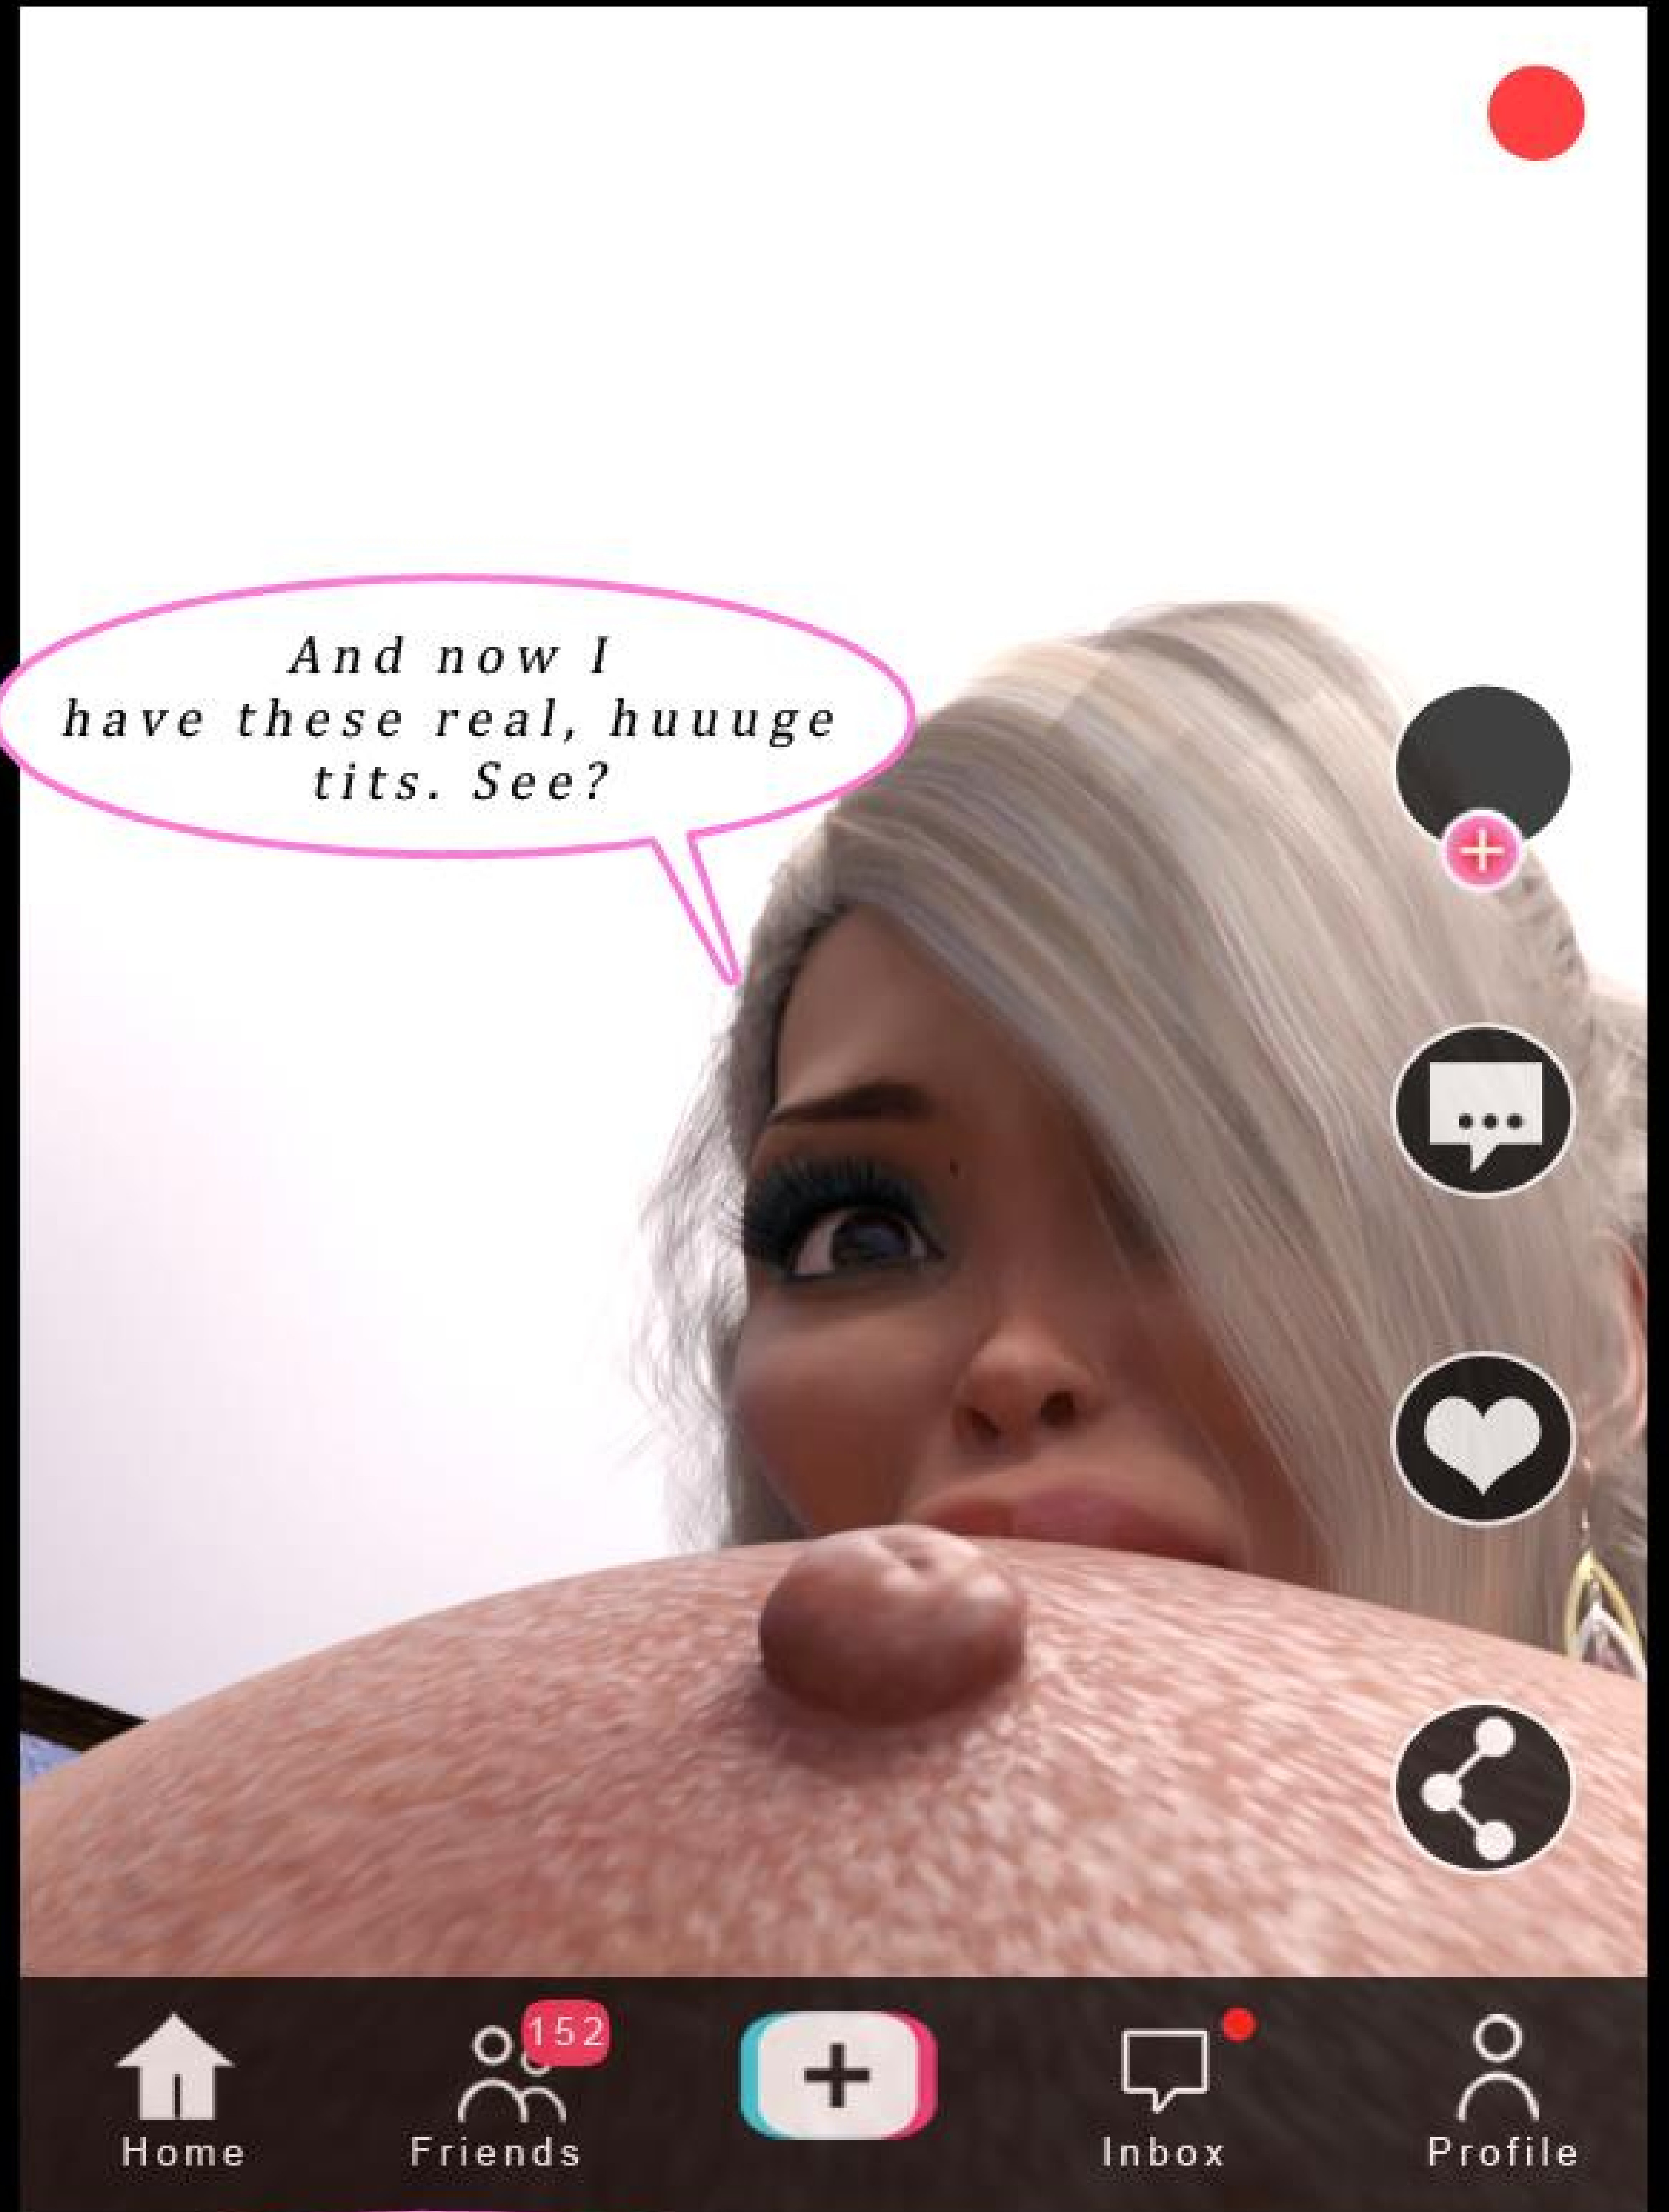

I feel, like,
soooo great. I, like,
totally could...

Heh heh.
Why not? Now where'd
I put my phone?

Hey there, cuties..
I'm, like, Jane... and I'm, like,
soooo horny!

giggle

It's, like, totally cool
to see you all. I know you,
like, totally want to see more of my
tittes and stuff, but there's something
I have to tell you first...

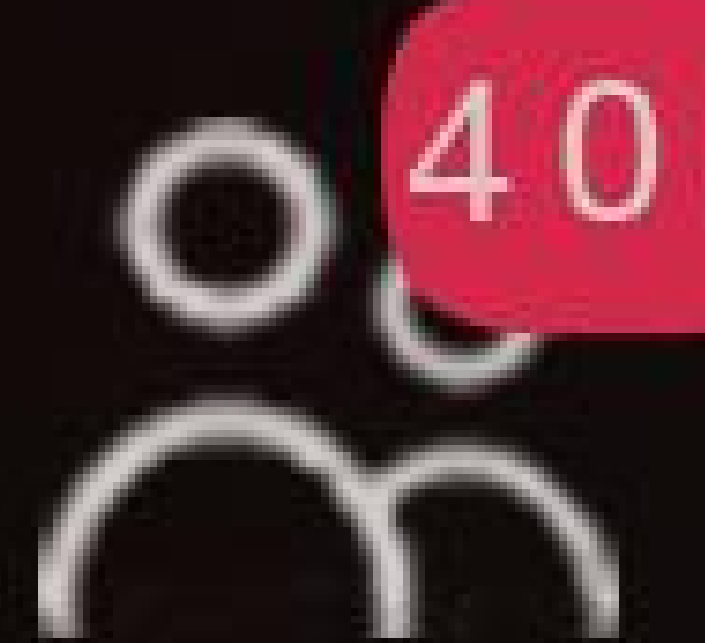

*I really need
to put this phone down so I can,
like, use both hands.*

*Becoming a girl was, like,
tots not so easy in the beginning, but...
giggle I'm thinkin' maybe some of
you know this too?*

The next morning, after the devilishly brilliant sex with Jane, the delivery guy wakes up at home next to his girlfriend whom he cheated on... but something seems to be different... his nipples itch like crazy.

What the hell was I thinking yesterday?

I am happy with Ariana...why did I fuck this strange woman...for hours?

But I couldn't resist... and, damn! The sex was awesome! But... this itch sucks...

Meanwhile, inside his body....

Commander, the operation was a complete success.

We were able to transfer our comrades to another host....
