

Hhmmmmm!

Oh fuck!
I'm a dildo.

Janet's
using me.

YESSSSS!!!

Oh god.
I think she's
about to...

AAAAHHH

SLURP

A first-person perspective from a character in a wheelchair. The character's hand, holding a handgun, is visible at the bottom center. The wheelchair is on a dark, patterned carpet. A woman's hands and feet are visible in the foreground. She has dark blue nail polish. A thought bubble above her feet contains the text "Thank god. I can move again."

Thank god. I
can move again.

This thing's mighty dangerous.

Wait a
sec...

Holy fuck!
I'm a woman.

Guess I should be glad I'm even human.

That's something else.

Poor Janet.
I should help her get
some rest, and investigate
this thing further.

Some time later

Not touching this
while I'm alone.

Maybe
someone who knows
electronics?

Hi Kari.
This is Greg.

Hey. What's up
with your voice?

Long story. Part
why I'm calling. Can I
talk to you?

A close-up, 3D-rendered image of a woman with vibrant blue hair styled in a high ponytail. She has dramatic eye makeup with blue and purple eyeshadow and bright purple lipstick. She is holding a black smartphone to her ear with her right hand. The background shows a wooden headboard, a white pillow, and a beige cushion. Two speech bubbles are overlaid on the image, indicating a conversation.

Sure. I'll be in the sauna in 10 minutes. See you there?

Erm, can't I meet you before?

A close-up, 3D-rendered image of a woman with vibrant blue hair, purple eye makeup, and purple lips. She is holding a black smartphone to her ear with her right hand, which has dark blue nail polish. She is sitting on a light-colored sofa with a white cushion. The background is a plain, light-colored wall.

Sorry, Greg. I'm
already booked and
heading there. So it's either
the sauna or tomorrow in
my shop. See ya.

Sauna.
Yikes.

At least
that's kinda
private.

Later, at the sauna.

Hey Kari.

Excuse me?
Do I know you?

I normally recall faces well.

Have we met?

We did.

Although, that was before I found this thing.

I'm Greg.

Is this
some form of
prank?

No.

And I can prove it.

BOOP

Holy swimsuit figurine.

Okay, start talking.

An explanation later.

Wow.
That is really
something. I wouldn't
have thought this
possible.

But why
come to me?

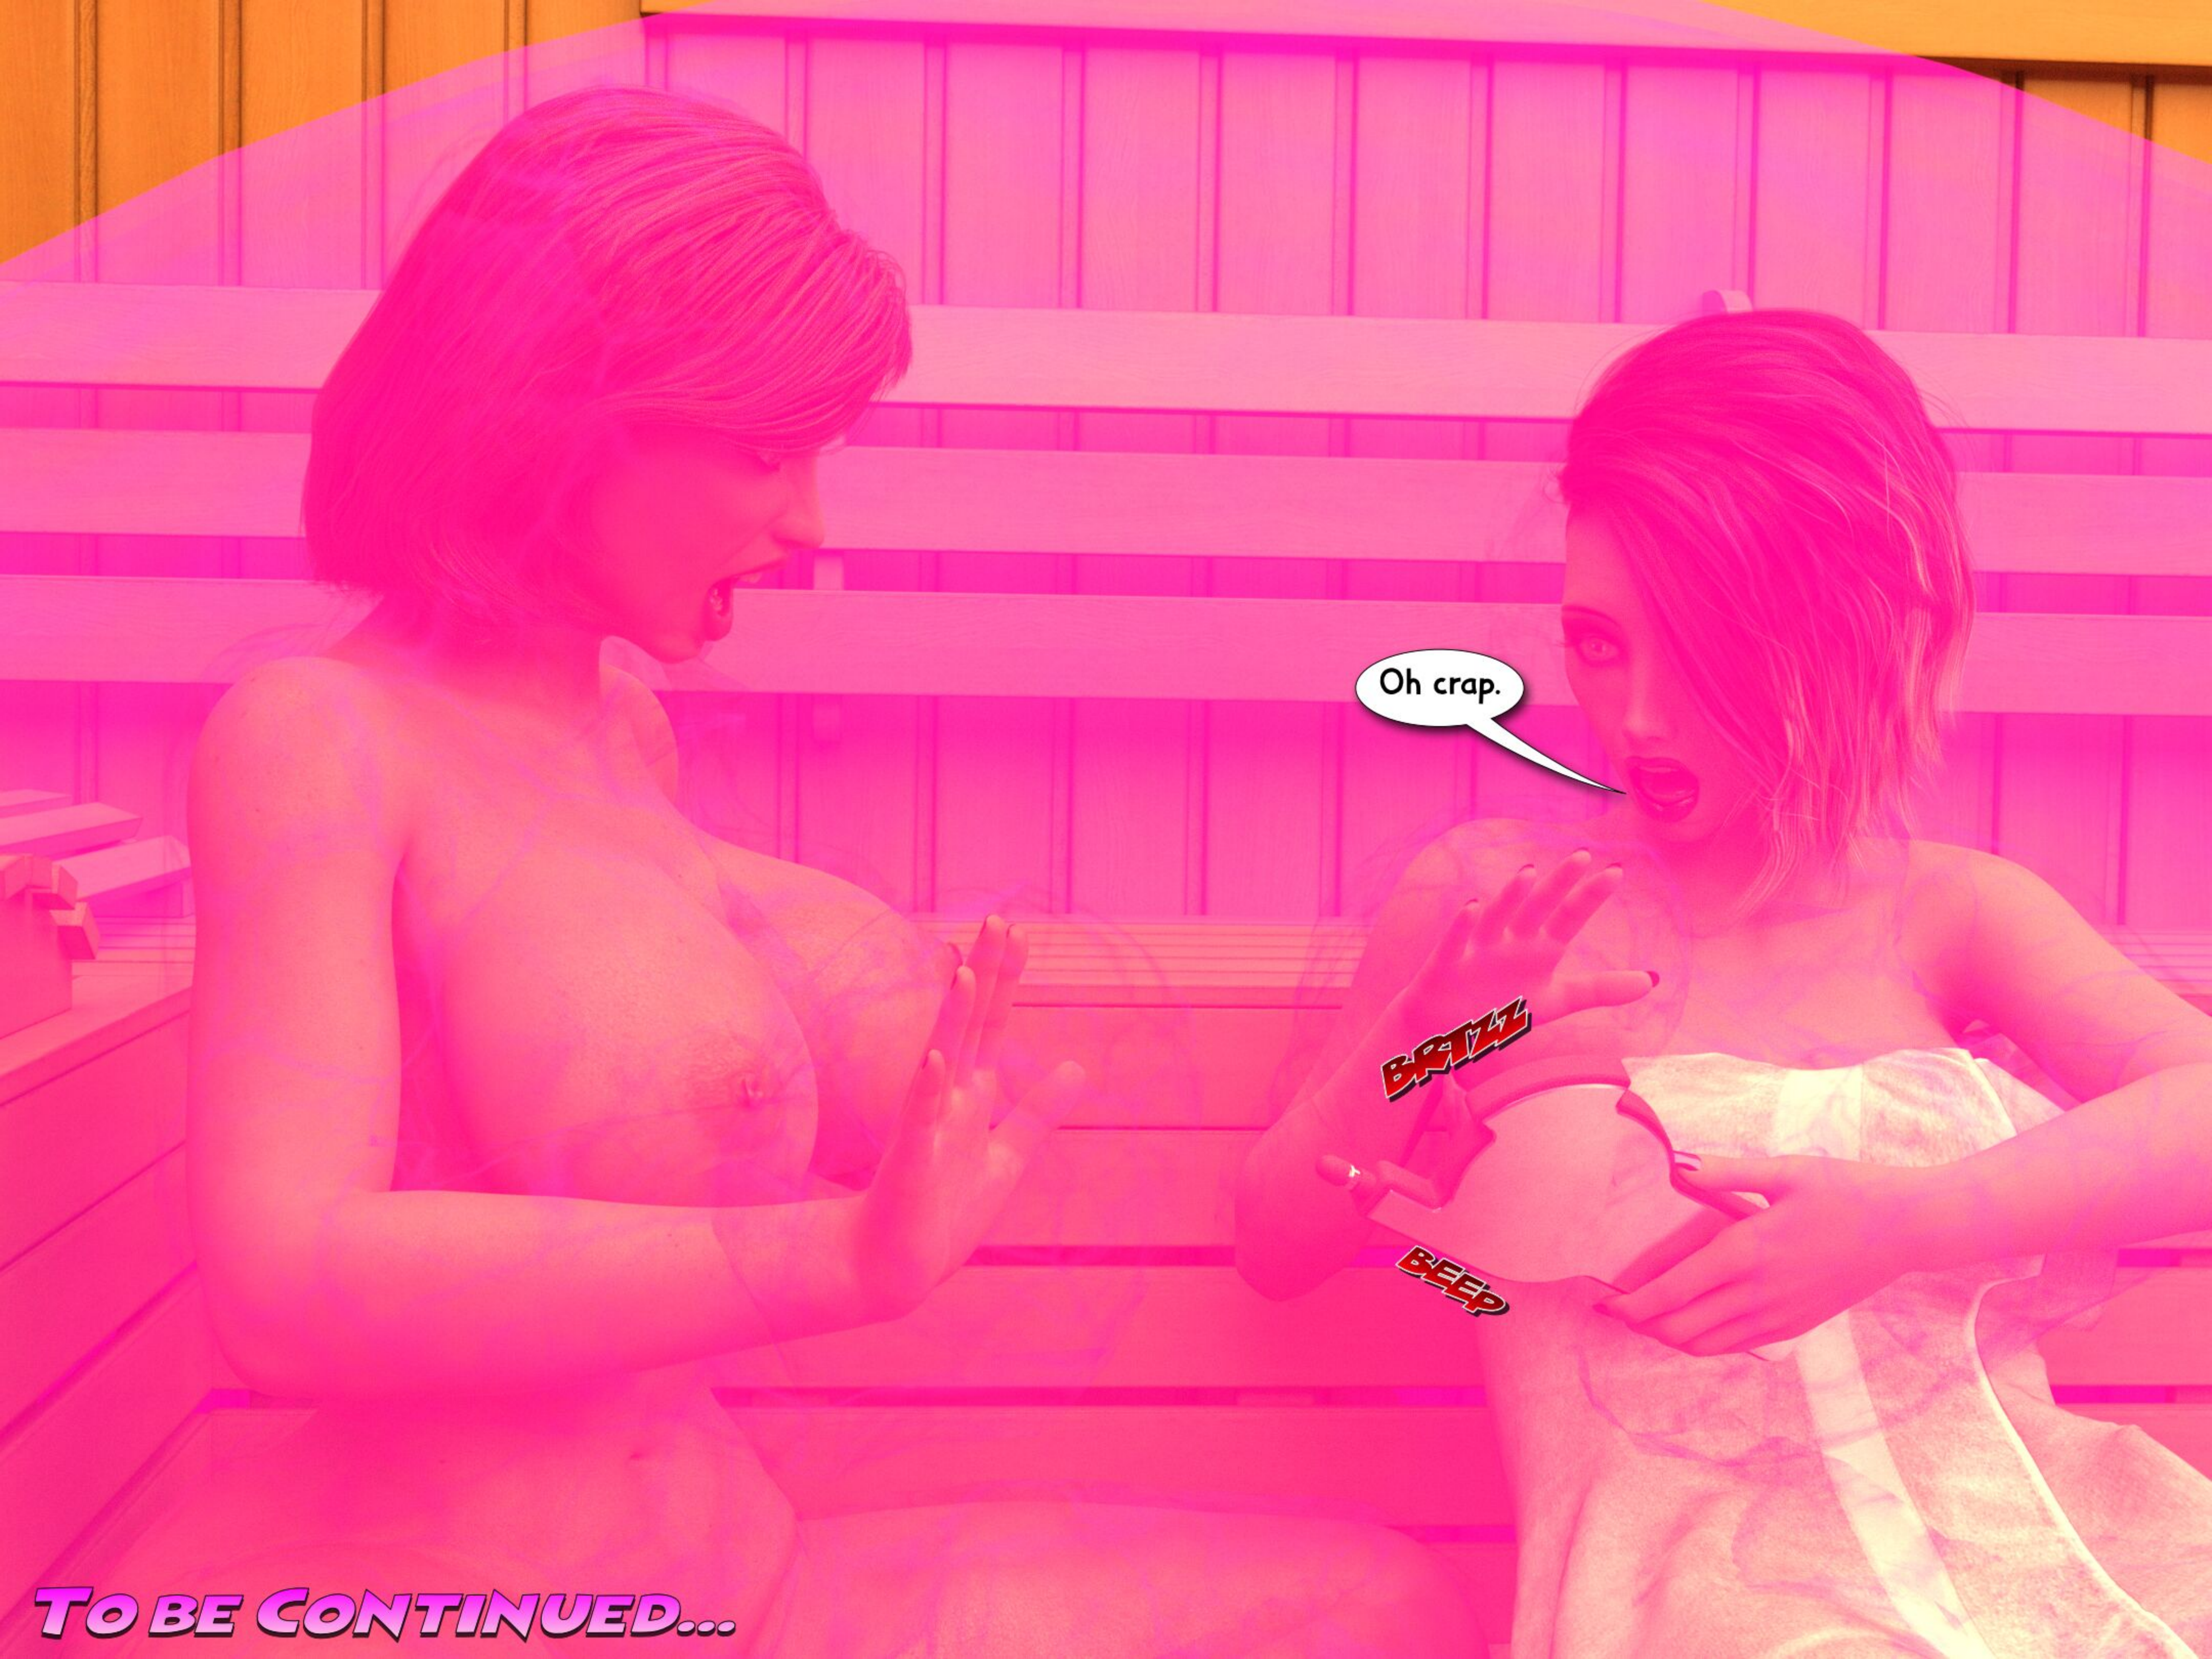

Well, I thought since you're an electronics engineer...

Hang on. That thing is electronic?

You brought a potential unisolated electronic device into a moisture rich environment that could short circuit it any time?

Oh crap.
