

After Dr. Frankenstein's untimely death... his carriage hit by a wagon full of woman prostitutes... I have been able to recreate him with his own SCIENCE!

Ladies and gentlemen,
I present to you...Frankenstein
THE Monster! He has been
reassembled after his death...
UM...mostly...and with some...
a lot...of prostitute parts!

Following his own journal, I will reanimate him so that he may answer for his crimes against the natural order. Tonights storm will jolt him back to life in moments!

AHH. Why am I
at the University...
where are all my sexy
assistants!

AH haha ha, Its alive!
I have created life from death!
Now, to get to the bottom of
his mysteries and why he
unleashed his monster upon
the villagel!

ARRRGGH!

Holy Hell...what the fuck...The wagons crashed... they stuck me back together with my assistants parts...who the fuck screwed this up.

OH hell, I've been put back together by the village idiot...and my journal specifically says that is a aphrodesiac and sexual stimulant!

In this syringe is a drug of the doctors own creation... of unknown power! Let us see what he planned on unleashing upon the town with his next experiment...

Fuck, don't do it all.
Thats enough for a dozen
women for an entire month.
He really screwed me up i can
only groan and moan!

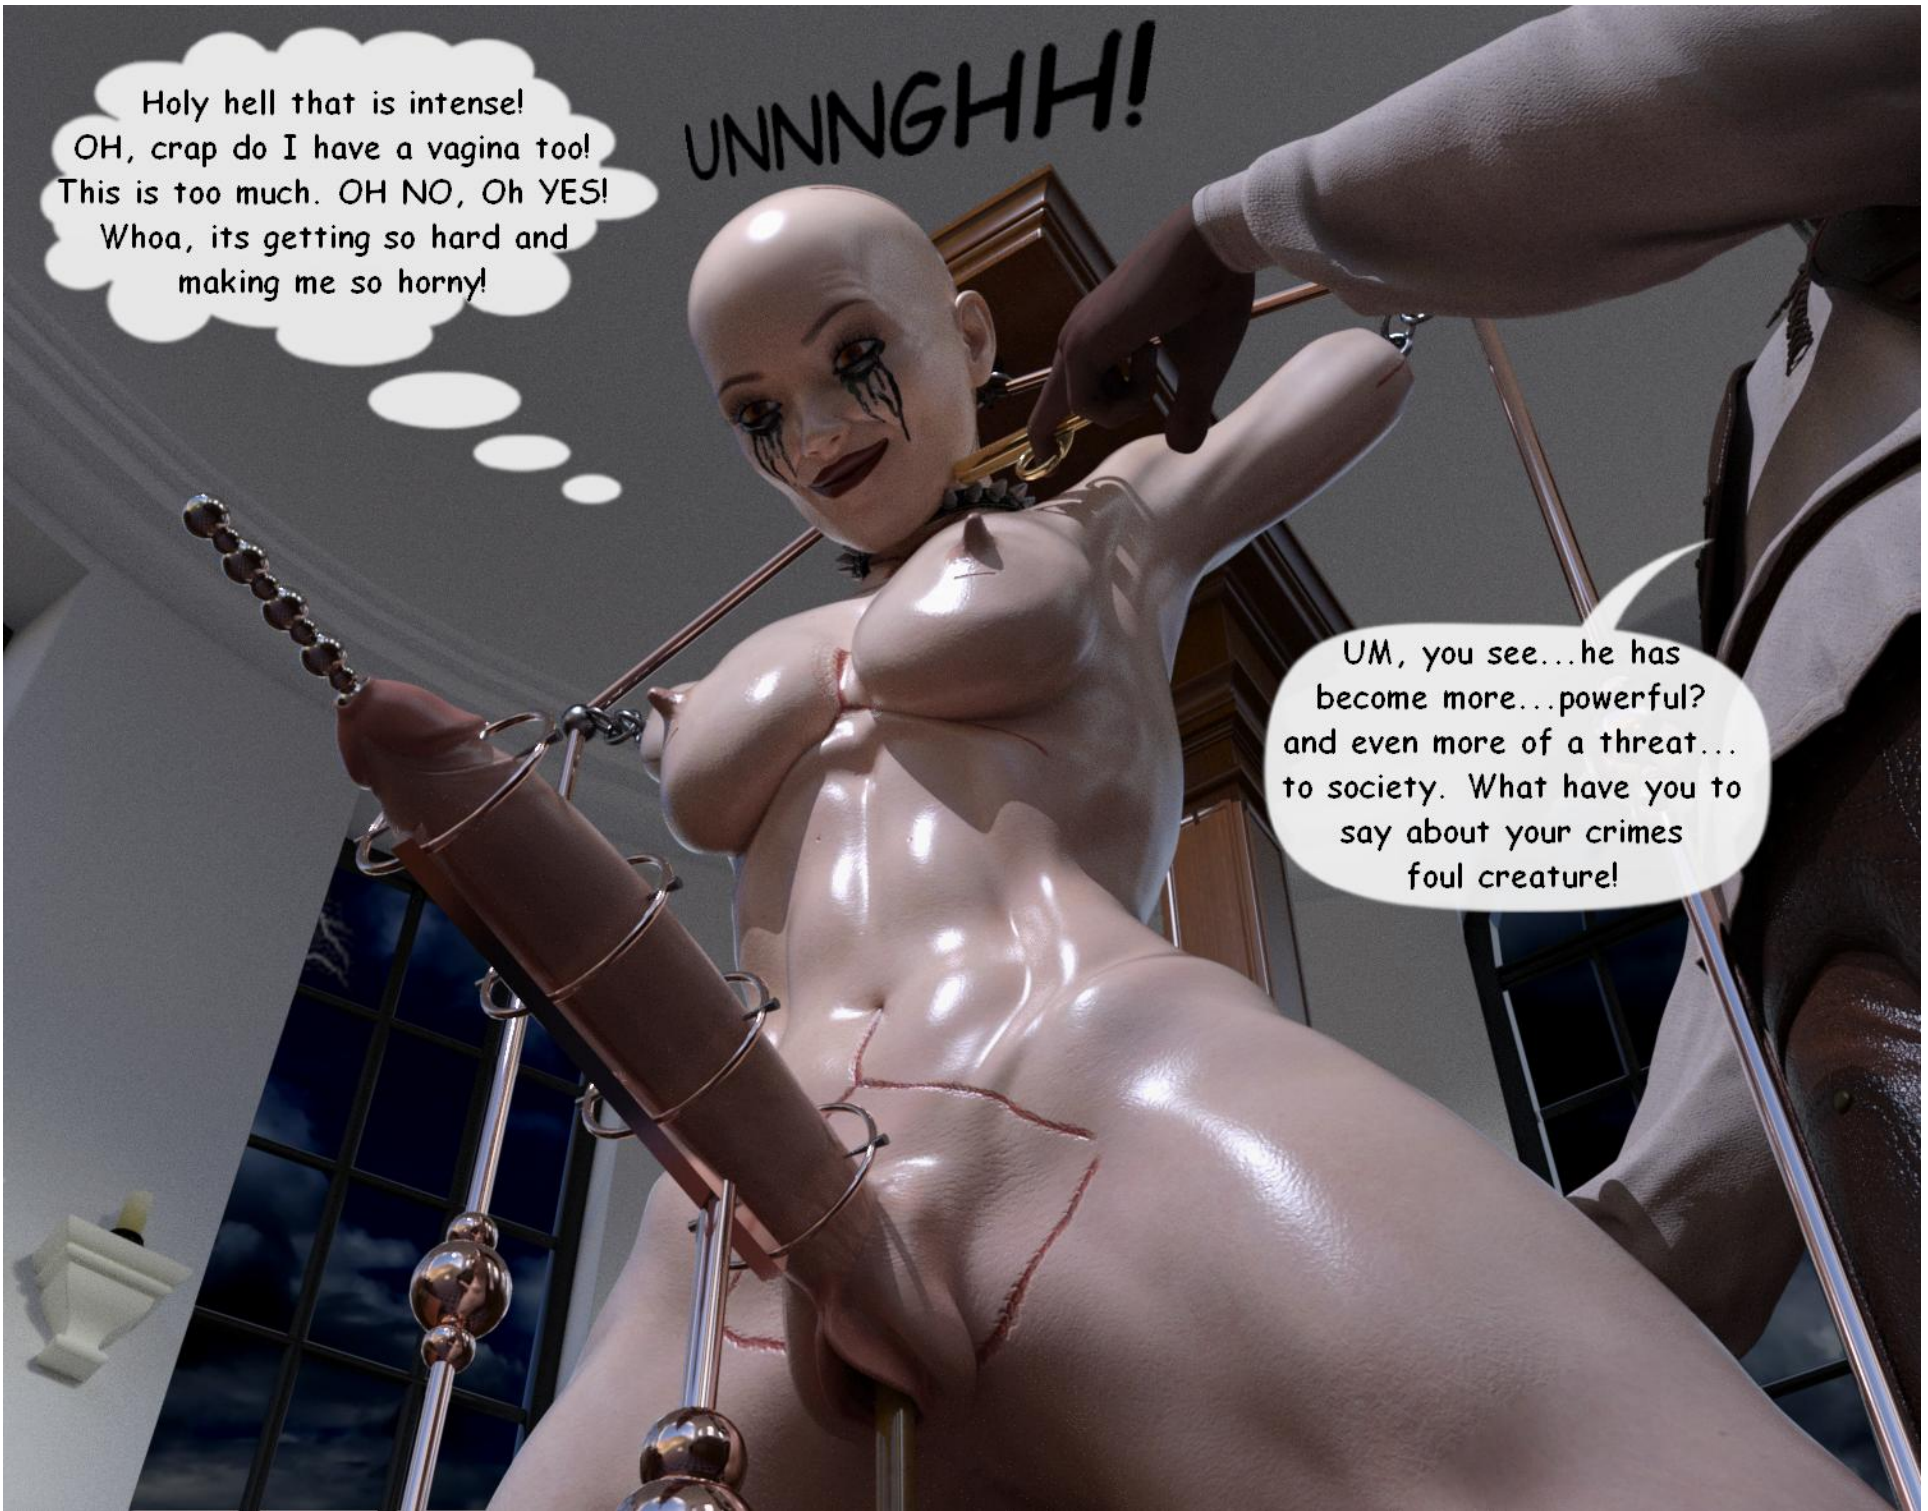

ARRRGH!

There, the entire syringe
has been consumed. Let us
wait and see what EVIL he
wanted to impart upon our
quiet little village

Holy hell that is intense!
OH, crap do I have a vagina too!
This is too much. OH NO, Oh YES!
Whoa, its getting so hard and
making me so horny!

UNNNGHH!

UM, you see...he has
become more...powerful?
and even more of a threat...
to society. What have you to
say about your crimes
foul creature!

A woman with a shaved head and black eye makeup is restrained in a complex metal bondage machine. Her mouth is open in a scream. A large, realistic-looking penis is inserted into a cylindrical chamber of the machine. A hand is visible on the right, holding a tool near her back. The scene is set in a room with a window and a wall-mounted light fixture.

UNNGH yes! Why does he have my cock in this machine the sick bastard. Ouch, it hurts so bad but its turning me on so much more!

UNNGHH!
ARRRRGH!

It appears that the Doctor is no more, just a mute moaning monster of discarded parts...and a red hot libido...apparently.

A woman with large breasts and multiple piercings is suspended in a metal cage. She is being electrocuted, with bright blue lightning bolts striking her body. She has a pained expression with her mouth open and eyes closed. A man with short dark hair, wearing a dark vest over a light shirt, stands to the left, looking at her. The background is a dark wood-paneled wall with a sign that says "RAWR!".

AH, the electroshock and
eurethra penetration...its so
much sexual stimulation...and my
breasts completely filled with
milk...nipple peircings too!

It appears his own
sciences have turned against
him. Transforming him into a
brainless sex starved deviant
only capable of sexual
thought!

AHHH! this thing is digging into my shaft as my dick gets bigger and bigger. Its extraordinary, to be so helpless and perverse.

The apparatus that he is secured to has ruined his orgasm. Good, a monster like him is undeserving of pleasure and release...but you can still edge closer to it!

Frankenstein looks like he has fallen completely into his sexual desires... he has yet to speak a single intelligent word just guttural moans of sexual origin!

3000 pounds

He is auctioning me off! GOD, whoever wins had better fuck me because we all konw thats why they are bidding!

Such a disappointment, Now to start the bidding for this lewd science project. Who will give me 10 pounds...40 pounds ...100 pounds...1000 pounds! My god, its worth a fortune!

2000 Pounds

5000 Pounds!

4000 pounds

WAAAGHHH!
RAWRI!

ARRRGH!
