

Guitar

Note Name

Scratch Paper

5 fret

17 fret

Use the scratch paper below to map out a chord or scale on the first few frets of the higher strings (E, G, B) and then map out the exact same notes in unison up the neck.

The image displays four identical guitar fretboard diagrams, each representing a scratch paper template for mapping notes. Each diagram shows the first five strings (E, A, D, G, B, E) from fret 0 to fret 17. The notes are color-coded: E (pink), A (light blue), D (light green), G (light purple), B (yellow), and E (pink). The fret numbers 3, 5, 7, 9, 12, 15, and 17 are labeled on the right side of each diagram. The word 'frets' is written vertically on the left side of each diagram.
