Eternal dream

Chapter 4

By Ron512 and Kami1

This is because it is often the case that low hormone levels are a familial trait.

Yes. It is often a genetic trait.

Does she also have irregular periods like you do?

Really?
I didn't know.

I have an idea.

I'm not sure, but I think my niece may be suffering from it as well.

I don't know that, unfortunately. You know it's quite a sensitive subject and I'm sure she's embarrassed to talk about it.

Well... My niece has been living with me for a while and I have noticed she doesn't look like girls her age should look.

There's just one problem.

I understand, but by what then do you say that she may have low hormone levels?

I see. In that case, she should come in for testing, then we can determine if hormones are to blame.

What's the problem?

I'm afraid that's what would happen.

She is very sensitive about her femininity every time someone tells her she is not feminine enough or worse calls her a boy she is angry.

That's why I'm sure she may react badly to the suggestion of a hormone test.

And can't we do these tests without her knowledge?

No medical examination should be done on anyone without their knowledge.

But on the other hand, this is about her health.

Then we wouldn't have done anything without her knowledge because she would have agreed to the blood tests.

What if you told her that these are normal blood tests, and only then that she has low hormone levels?

Okay. Come with her to me, and I'll take a blood sample for testing.

Yes, I just need to talk to my brother about it first and give him time to think about everything.

So I could only come to you in two or three weeks, I want him to have plenty of time to think about it?

All right. Actually, I have them at home.

Of course, this is not a problem. Just don't forget to send me her documents, especially her pesel number

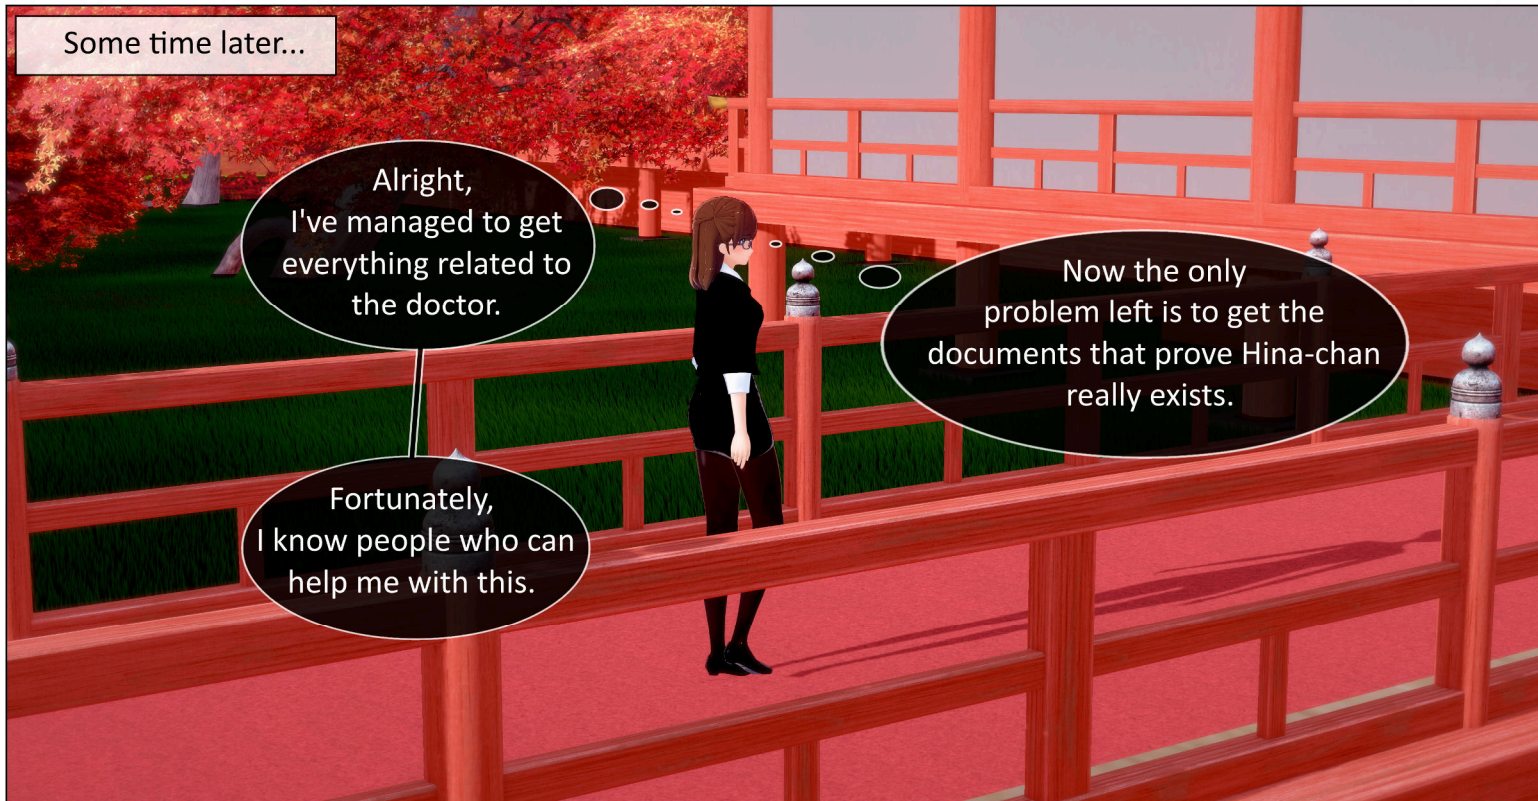

Great. because we can't do anything without them.

Some time later...

Alright,
I've managed to get
everything related to
the doctor.

Fortunately,
I know people who can
help me with this.

Now the only
problem left is to get the
documents that prove Hina-chan
really exists.

Excuse me. Has she arrived yet?

Okay, then lead the way.

Yes, Sora-san, Ms. Mayumi-san already has arrived yesterday.

But she is currently talking to her daughter. That's why she told me to take you to the guest room and ask you to wait for her for a while.

Of course, please follow me.

Some time later at the back of the house....

Sorry to keep you waiting, Sora, but I had to have a serious talk with my daughter.

So what is this thing you wanted to ask me?

Finally, I owe you something for enrolling my daughter and niece in your school, even though they both intentionally failed the tests.

Nothing happened.

It's really no big deal in the end they both turned out to be quite talented.

Yes, but you still broke some rules for me so I'm sure you expect the same from me now.

A little more precise.

You mean that pervert who got kicked out of school on the first day.

Yes, I want you to help me with something.

Have you heard about my nephew?

Yes, it's him.

I think everyone in the neighborhood has heard of him. But what does he have to do with it?

My condolences. How did you punish him for what he did?

Let me guess you told him to dress up as a girl and be a student at your school.

I would, myself, punish him like that.

You see, my nephew lives with me.

I decided to show him what it looks like from the other side.

How did you know?

But here's something that puzzles me, how did you manage to enroll him in your school if as a girl he doesn't have any documents?

You know, it's not that simple. He would have to have a birth certificate, a peso number, and a lot of other documents, plus everything has to be in the system.

It will take at least a week. Is that okay?

That's what I wanted to ask you.

Of course, thanks a lot.

You're welcome.
I finally owed you something.

Besides, I can't stand perverts myself, so I'm all for you punishing him for what he did.

Nothing important, just a mother-daughter conversation. Why do you ask?

I knew you would understand. By the way, what did you talk about with Yuki-chan if I may ask?

Just out of curiosity.

Later on the way home...

embarrassed

I said it was an accident.

Besides, can you stop calling me Hina-chan, it's embarrassing?

How was your day, Hina-chan?

I hope you didn't swim in your clothes in the pool again today.

What's so embarrassing about that, after all that's your name?

Auntie!

After all, we've already discussed the fact that until your punishment passes you are Hina-chan.

Yes, but...

No buts, I have two messages for you good and bad, which do you prefer first?

Maybe the good one.

Your clothes are back from the laundry.

Really?

That's great
I'll finally be able to
wear my regular
men's clothes.

Wait, I can wear
men's clothes, I mean
that's not part of my
punishment right?

No, thanks,
so I can?

Yeah, that's
just...

If you want
it can be.

Yes, you can, there
is just a small problem...

What, why?

Shocked

You threw
away my clothes?
What am I going to
wear now?

All your
clothes are in the
wastebasket.

After washing, it
turned out that most of
your clothes are not fit for
anything so I had to throw
them out.

No worries, I bought
you some new clothes,
although I don't know
if you deserved it.

embarrassed

No.

Yes, auntie
and thanks.

Maybe Aunt Sora
is right, maybe I should
actually pay more attention
to what I wear?

But I had no other
choice after all I couldn't let
you walk around wearing
something like that.

Say, weren't you
ashamed to take such
clothes with you at
all.

Hina-chan, just
because you're a guy doesn't
mean you have to look like
a homeless person.

I see you understand,
that's good. You'll soon see what
nice clothes I bought for you,
I'm sure you'll like them.

After returning home...

Auntie, where did you leave those clothes you were talking about?

You can't be serious, they're girls' clothes.

Of course, I'm not a girl.

In your room on the table.

Is that a problem?

In the living room...

But, Auntie.

No, I don't want to. I'll be right down.

If you're not a girl, stop complaining and get dressed for dinner in a moment.

Hurry up, dinner's coming up.

Unless you want me to extend your punishment.

A little while later...

Done, it doesn't
look as bad as
I thought it would.

Who am
I kidding I look terrible,
fortunately no one I know
lives in this area.

Hina-chan,
dinner's ready!

I think
I would die of shame
if someone recognized
me now.

I would be ashamed if
someone realized that I pretend
to be a girl, especially if it
was someone I know.

But there's
no way I'm going to meet
someone I know here.

I'm coming!

That pill
again?

Yeah, what
about you?

No
thanks, I prefer the
regular ones.

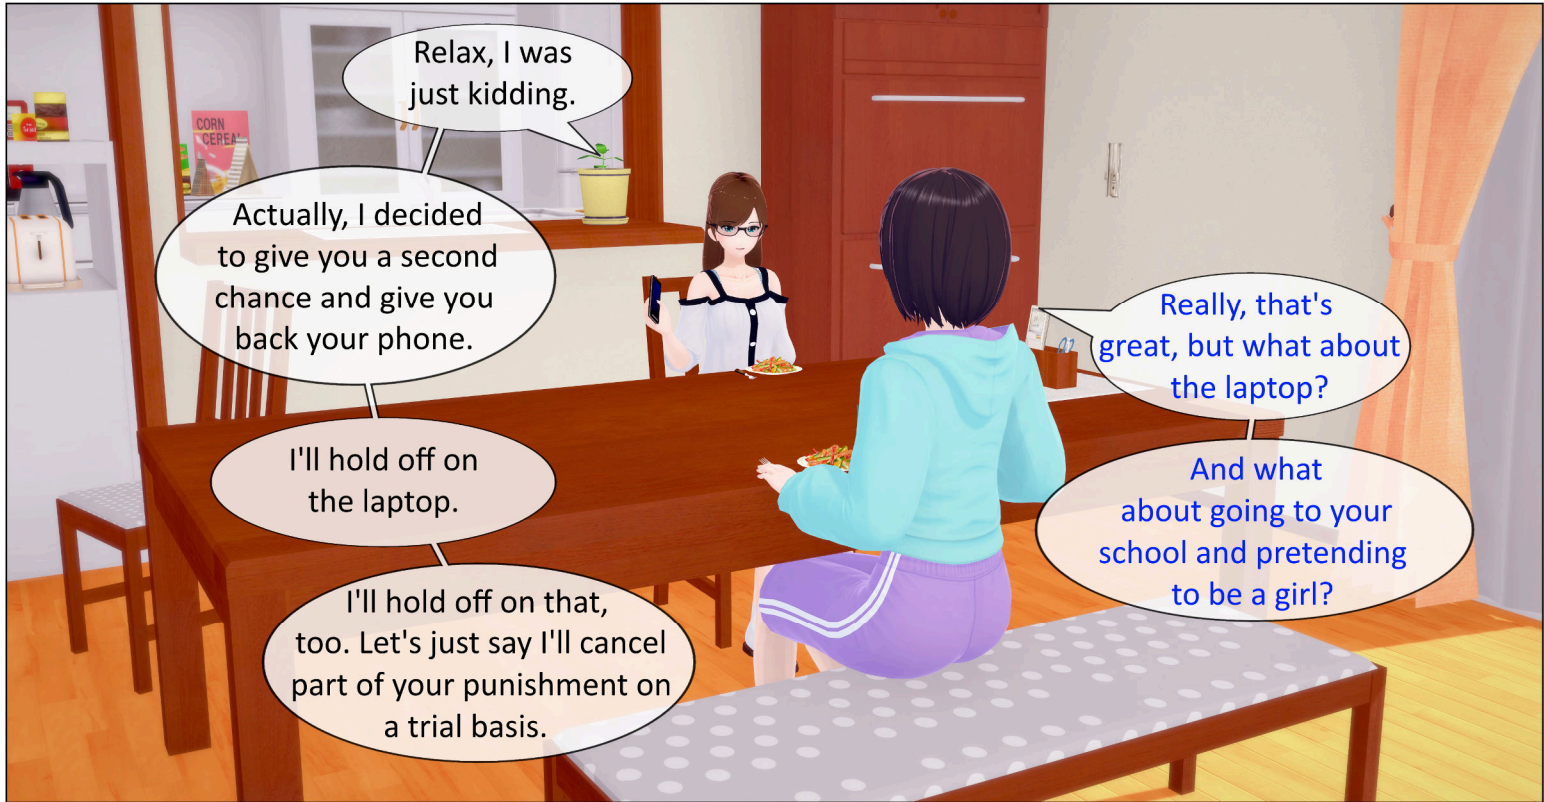

I told you you
had to take them
every day.

I take daily
vitamins too, but mine are
more for women, do you
want to try it?

The last thing I'd
put in my mouth is a women's
pill, I heard they have female
hormones in them.

Relax, I was just kidding.

Actually, I decided to give you a second chance and give you back your phone.

I'll hold off on the laptop.

I'll hold off on that, too. Let's just say I'll cancel part of your punishment on a trial basis.

Really, that's great, but what about the laptop?

And what about going to your school and pretending to be a girl?

Just because I decided to give you a second chance doesn't mean I've forgotten what you did.

If you do something stupid like that again or I see that your grades have gotten worse, I'll really pawn your phone.

Good to hear.

Don't worry, I won't do anything like that again.

Don't worry, I was one of the best in school.

Later in Hiro's room...

happy

Yay, I finally got my phone back.

It was probably due to my brilliant plan.

I'm sure that if this goes on, Aunt Sora will also give up the other punishments.

I was sure that Aunt Sora wouldn't give it back to me for at least a month, but apparently I was wrong.

It paid off to do everything Aunt Sora told me to do.

I just don't know how to explain to Saki-chan that I'm a guy.

Maybe it won't be so bad, after all, I wasn't doing it to fool her.

Right now I should be more concerned about my grades.

After all, she said she abhors that kind of person.

She's smart, I'm sure if I explain everything to her, she'll understand.

After all, if my grades aren't up to par, all my efforts will be in vain.

And that's something I'd rather avoid.

Especially since walking around in women's pants is humiliating.

Fortunately, this is only temporary and everything looks like the end of this nightmare soon.

After all, I intend to get this over with as soon as possible.

But I had no choice but to agree.

And it's good, because every day I get more and more scared that someone will recognize me.

Therefore, I will take
a quick bath and sit
down to study.

After all,
tomorrow is the
math test.

I have to
get the best grade and
show Aunt Sora how I
really am.

Some time later...

Well according to this formula C is 32.

No, I have to get the best grade on this test.

I can't believe it's late, maybe I should go to bed?

Otherwise, Aunt Sora won't shorten my punishment.

At some point Hiro completely lost track of time until...

The next morning...

I thoroughly repeated everything that can be on this test.

But for now, it's time to go to bed.

I finally finished.

Now I will definitely get a good grade.

Hina-chan, wake up, time for school!

I'm coming!

Apparently I studied
all night, well...

Then there's no
more time to sleep.

I have to put on
makeup, eat breakfast
and go to school.

I hate putting
on make-up, but I guess that
without it girls would immediately
notice that I'm a man.
