

**Frodo beige cloth  
PDF tutorial**

Before we start painting the miniature, we locate the light reflections on the cloth, by taking a picture of it under our desk lamp. I primed it in Chaos black as it has a great shine to it. I have added a guide for how to locate light reflections in the patreon post.

# Paints used :

- Barbarian skin (Vallejo game color)
- Grimey grey (AK)
- Dark brown wash – Vallejo
- Ivory (Vallejo mc)

We start by basecoating the cloth with barbarian skin.

We now shade, the naturally shaded areas (see reference photo on page 2), with Dark brown wash. 2-3 layers is enough.

We now glaze the frame of the light reflections, with a 2: 1/2 mix of barbarian skin & grimey grey. Add 1-2 parts of water.

We now add 1 full part more of grimey grey & glaze the center of the light reflections

We now add a part of ivory to the previous mix & glaze the very center of the light reflections. I then added a bit of dirt, by adding small dots of grim brown from AK. Its now done 😊
