Tempo: 100 BPM
Video Tutorial: https://www.youtube.com/watch?v=UFXwBeaq3Wk

Strum Pattern: One time over each chord

```
1 & 2 & 3 & 4 &
D   D U   U D U
```

[Chorus]
```
C    Em          G
Oh, Saturday sun
     D
I met someone
C             Em
Out on the west coast
G                   D
I gotta get back, I can't let this go
C    Em          G
Oh, Saturday sun D I met someone
C                  Em
Don't care what it costs
                        C    Em    G    D
No ray of sunlight's ever lost
```

[Verse 1]
```
C               Em
So tired of sleeping alone
G                   D
So tired of eating alone
C
I need to ask her
Em                  G                  D
What's going on, are we going strong?
C         Em
She fell, I rested her head
    G                       D
```

```
My shoulder was the perfect height
          C
We fit so right
    Em                    G                         D
So what's going on? 'Cause I've been undone
C                         Em
The long drive, the coastline
G                D
Looking out at first light
C             Em
Am I still on her mind?
G
I've been undone

[Chorus]

[Bridge]
C         Em
Ba-ba Ba-ba
G       D
Ba-Ba Ba-ba-ba-ba
C         Em
Ba-ba Ba-ba
G       D
Ba-Ba Ba-ba-ba-ba

[Verse 2]
C                     Em
And still the memory's right there
G                         D
She put the breeze in my hair
                    C
No kiss was softer
Em                        G               D
Softer than this, I'm reading her lips
C                   Em
Oh, each night, I read
G               D
She left her books in my bed
      C               Em
And her song, in my head
G
I've been undone

[Chorus x2]
```
