DISCLAIMER

This is the first pass at a timeline for Captain Kelly's tenure in the Space Cadets.

Names of comic sets can potentially change if a better title comes into consideration, as well as the outcomes of those comics.

More comics can be added in between existing ones on the timeline. Kelly's Round-up will most certainly have the most added when interesting ideas of escaped prisoners come into consideration.

This is a general outline in order to connect previously completed comics with ones yet to be completed.
