ROD OF SUMMONING OOZE

ITEM 5

MAGIC CONJURATION ACID

STAFF

Usage held in 1 hand; **Bulk** L

This magical rod is crafted from metal, specially treated with a unique alchemical preparation made from the potent spittle of a black dragon. This process renders the metal extraordinarily resistant to the corrosive power of acid, making it both durable and resilient. At its base, an enchanted yellow diamond gleams adding a touch of enchantment to its already impressive design.

The head of the rod is fashioned from shattered fragments of black dragon bones, it partially encases an enchanting, fluid-filled sphere of potent acid. This liquid dances within the confines of the bone, moving with an almost lifelike grace.

During your daily preparations, you can prepare a staff to add charges to it for free. When you do so, that staff gains a number of charges equal to the level of your highest-level spell slot.

◆◆ **Summon Ooze.** You can expend one or more of the rod's charges to summon an Amoeba Swarm for each charge spent. The summoned Ooze appears in an unoccupied space within 60 feet of you.

ROD OF SUMMONING OOZE

ITEM 5

The summoned creature attacks your enemies to the best of its ability. If you can communicate with it, you can attempt to command it, but the GM determines the degree to which it follows your commands.

The creatures vanish in a smoke of acid after 1 minute, you dismiss them, or they are destroyed.

Curse of Corrosion. Should you expend the rod's final charge, roll a d20. On a result of 1, the rod starts to corrode rapidly, dripping with acid, until it disintegrates, leaving nothing but the stench behind.
