

the GENDER WAVE

First reaction 

Characters:

-Journalist (serious news anchor male voice, from TV)

-Nicolas/Nicole (main character, female cute voice)

-Emma (cool male voice, used to be girlfriend, muffled behind the door)

Story summary

The story is about the **gender wave**: a massive wall of light that **changes the gender** of **everyone** it touches. It sweeps around the surface (from Northpole to Southpole) changing the genders of everyone.

Nicolas has just been changed into a girl in her apartment and is now exploring her new body in the bathroom. She strips all her clothes and inspects her new breasts.

Later Nicolas' girlfriend Emma (now a man) is knocking, asking to be let in.

Dialogue

Journalists can be heard in the living room from the TV:

Right now we're following the breaking news in North City as the Gender Wave has now swept over halfway across the nation's surface, switching the genders of everyone. You heard that right, changing the sex of everyone, men will be transformed into women and women into men. It will be approximately 8 hours before the Wave has made its complete turn around the planets changing everyone into the opposite sex.

We are currently in the dark about what caused this phenomenon. Many consider this an alien attack or a government accident. Some even say it may be the act of god teaching us a divine lesson.

Nicolas as she is in the bathroom mumbling to herself after being changed into a girl
Nicolas in awe: Oh my god... is that m-me?!

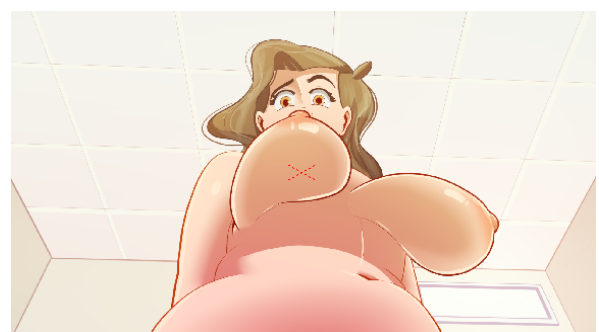

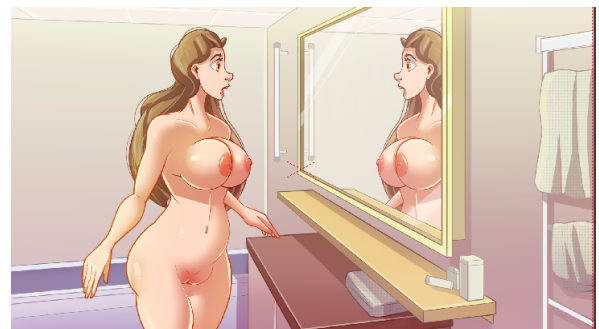

Nicolas: I thought I had more time to have some time to jerk off as man... just one last time.

Nicolas: But...

Nicolas: I have to say goodbye to my life with a dick and hello to a life of t-tits and pussies...

Nicolas: My god, they are huge... I didn't know female members of my family were THIS busty!

Nicolas: I will DEFINITELY need a bra to support these puppies.

Hard knock on the door!

Nicolas is shocked: WHAA!

Emma: Nicolas, are you in there?

Nicolas is embarrassed: Emma? Your voice, you're a-

Emma: A guy now yeah... Shall I come in? I want to explore our new bodies together Hun!

Nicolas is a bit shocked and then embarrassed: DON'T GO IN! I'm n-naked...

Emma now talking in a smirked way: Oh, you've already started? Haha Great! Let me grab a condom real quick so we can get started "*Nicole*".

Nicolas mumbles to herself shocked but also cute: Nicole? What the fuck? What's weirder? That I'm about to have sex with my girl- now boyfriend? Or that I am getting turned on by it at all?
