# STRAWBERRY FULL MOON LOVE SPELL

LOVE & PASSION

## STRAWBERRY FULL MOON RITUAL

by **Le Lady Moon**

### WHAT YOU NEED:

- **Fresh strawberries**
- **1 pink candle**
- **1 dish**
- **Pen and paper**

Pink candles are used for romantic love. You may use a red candle for a more passionate, intense effect but pink candles are most effective for a long-lasting relationship. Before you begin, make sure you set an intention for this ritual. It could be anything from renewing the love in your relationship, to falling in love with someone new, or simply improving your love life. Harness the energy of a Strawberry Moon with a love spell. Take your relationship to the next level or open your heart to a new love.

Take a bath or shower and relax. You can use sea salt and light a white candle in the bathroom. Light a white candle and do a short meditation if you choose instead. Place the dish on your altar and light a pink candle on it. You can also use a red candle for a more intense, passionate effect. Meditate as you watch the flame. Take a few deep breaths and focus on your intention. When you're ready, write down your intention on the piece of paper. Carefully place it under or near the dish. Place the three strawberries on the dish around the candle while you say: "Blessed Be by the power of three." You can also say other mantras you feel called to, such as "I am filled with love and divine light."

Let the candle burn as an offering to the Goddess of love. You can also make some strawberry tea and drink it as you meditate or have a few strawberries.

When you're done, blow out the candle and leave the offerings until tomorrow. In the morning, throw all remains and offerings away as you say "Thank you". Keep the piece of paper in your Book of Shadows or safely burn it in a fireproof container.
