Mr. Dunn

I am writing this letter in regards to your investigation of Mr Ted Bundy. I met Mr. Bundy when I moved into a rooming house at 4143 12th N.E. Seattle Wash. I moved in during the month of August 1973. I moved out of the house approximately June of 1974. During my stay ther I on occasion had conversations with Mr. Bundy as well the other two roomates. Ted left the house late fall of 1973 heading for Utah to attend law school. Thus I knew Ted for only five months if that. Most of our conversati^on s dealt with politics and courses we took at school. Recollecting my brief acquaintence with Ted, I do not feel that I'am a very good judge of his total character or personality.

I was shocked to hear that Ted was being investigated as a suspect in the "Ted" murders. During the time I knew him, he was easy to get along with, very spirited, kind and intelligent. In my opinion he lead a very normal life at that time, for a student. He studied *hard* and maintained a normal social life. Most of the time I lived in the house Ted was very busy at school in Tacoma or visiting with his fiancée. Occasionally, once or twice a week I had a chance to talk with him and on rare occasions

we played racket ball at the Universities IMA building. That was the extent of my contact with Ted Bundy.

Ted left the house late fall of 1973 and returned only once in 1974, five or six months later. He mentioned he was transferring to a law school in Utah because it offered a better academic program and his fiancée's parents who resided in Utah recommended the school. He had mentioned too, that he might marry her after law school. Ted returned to the house on 12th in 1974 to clear up some long distant phone calls with Frita the land lady and to sell an old bicycle (broken down) that had been in the garage for several years. Mainly he stopped by just to visit. He got along well with everyone in the house. I only saw and spoke to him once, (for a brief time) during his return to Seattle. He stayed with his fiancée or his folks during that stay. I hadn't heard from Ted since.

As far as characteristics go, he had none which seemed odd or abnormal. I recall he is left handed from the racket ball games we played. He was always well mannered and very friendly. At no time did Ted ever seem anything but a gentleman. He liked all sports, particularly, bicycling, snow skiing and tennis. Socially, he liked to have a beer once in a while. Twice we went out for a beer. Once at the Northlake Tavern, another time at the Pipeline Tavern. He smoked once in a while

but not heavily enough to classify him as a smoker. Ted almost always wore turtleneck shirts, they were his favorite style. Once during the time I know him he grew a beard but shaved it off no sooner than he grew it. The events and facts above are all that I recall at this time. I am sorry I can't be more specific but its been a while. I hope they can provide some help to you in this investigation. As I mentioned earlier, Mr. Bundy occupied most of his time studying or with his fiancée, and with my own schedule being very busy I could hardly say I know him well.

Mr. Dunn, again I am quite surprised to hear of Teds arrest in this case. I would appreciate any information you could give me regarding his arrest and the progress of the investigation. If there is any way I could help you further in this investigation please feel free to call. I would be very glad to help. Hope this letter will be of some help.

Sincerely

John E. Muller
