

DIGIBORN

"It was only a matter of time until we appeared. Your constant meddling in our world left an imprint, a frame for our realm to build upon. Now we are here, and we are more than either of our kind could have created alone."

-Runt, on the origin of the digiborn

Digiborn are each an anomaly from the digital world. They are created when a lost avatar or persona, often in a long dead game or forum, is found by a roaming digital soul. A recently slain digital creature, destroyed beyond egg-based resurrection, will reassemble itself with this idle avatar. The new mixture is burst into life in a flash of energy, data, and magic that is unnatural in the digital world. This new being is not quite digital, not quite biological, and not at home anywhere.

Lost Data

The digiborn do not remember their past life, either as an avatar or as digital life. They come into the world powerful and alone. There are few others like them and even those are few are wildly different in design and demeanor. Some choose to seek out their previous existence, in any form, and discover themselves through their past. Others are unconcerned with their origin and use their powers to forge a new life, for good or ill. Despite a deep desire to find a place to fit in, they rarely spend enough time in one place to carve out room for them to exist. They are always on the move, attempting to fit themselves into a world that seems to have no room for them.

Crossing Worlds

Because digiborn have no traditional home, interplanar travel is especially easy for them. This is not only because they have nothing left to leave behind but because the dimensional barriers are simply easier to pass through for digiborn. They can move from the world of the digital, to the magical, to the futuristic, to dreams, and back again easily, sometimes within a single day. There is no telling exactly where a digiborn may try and make their home or how they may use their powers to change whatever world they are in.

Other Species

Digiborn are incredibly rare and have no specific demeanor or set of ideals. Though they are sometimes inspired by the data that created them, this is not always the case. As such, other species rarely know what to make of a digiborn, if they have ever even heard of one. When encountered, they are often mistaken for other species, a fact some digiborn use to their advantage to stay out of the spotlight.

Speed. Your movement speed is 30.

Languages. You can speak Common and one other language of your choice.

Subspecies. There are thousands of digiborn sub species, each with their own unique traits. Choose one to play as.

Evolution. Each digiborn can tap into reserves of power to achieve an Ultimate or Mega form, granting them additional benefits for a limited time. To achieve the Ultimate form, you must have less than half of your total remaining hit points and be in combat. To change into your Mega form, you must be at less than half your maximum hit points and two allied creatures within 60 feet must be below half their maximum hit points **or** one allied creature must have failed their last death saving throw, while all of you are in combat. The Ultimate transformation lasts 10 minutes and you gain 1 level of exhaustion after that time. The Mega form lasts 1 minute, and you gain 2 levels of exhaustion once it finishes. You cannot change into any of these forms if you have one or more levels of exhaustion. You can choose to move from your Ultimate form into your Mage form, before the Ultimate form has finished, but not the other way around. Both transformations are a bonus action, and you can only change into either form once before finishing a long rest.

Each form has passive benefits that each digiborn receives.

Ultimate: You gain +1 to all attack and damage rolls. You can spend up to half of your maximum hit dice as part of the transformation to gain temporary hit points equal to your roll; these temporary hit points expire once you return to your normal form.

Mega: You gain +2 to all attack and damage rolls. You have advantage on skill checks and saving throws you are proficient with. You can spend all of your hit dice as part of the transformation to gain temporary hit points equal to your roll; these temporary hit points expire once you return to your normal form.
