I don't know why I'm surprised. All that's going on, and you go and make your boobs bigger, of course!

While Sapphire admires her new rack, Brynne nearly smacks her own forehead in wonder. She feels like she should have expected this, as soon as Saffy mentioned bikinis.

Next to Saffy, the obscenely voluptuous Pixie admires the upgrades, while fondling her own ripe figure. She wonders if the medicine works on androids.

Mmmm!
Those are
really nice, Saffy.
You're almost as
big as I
am.

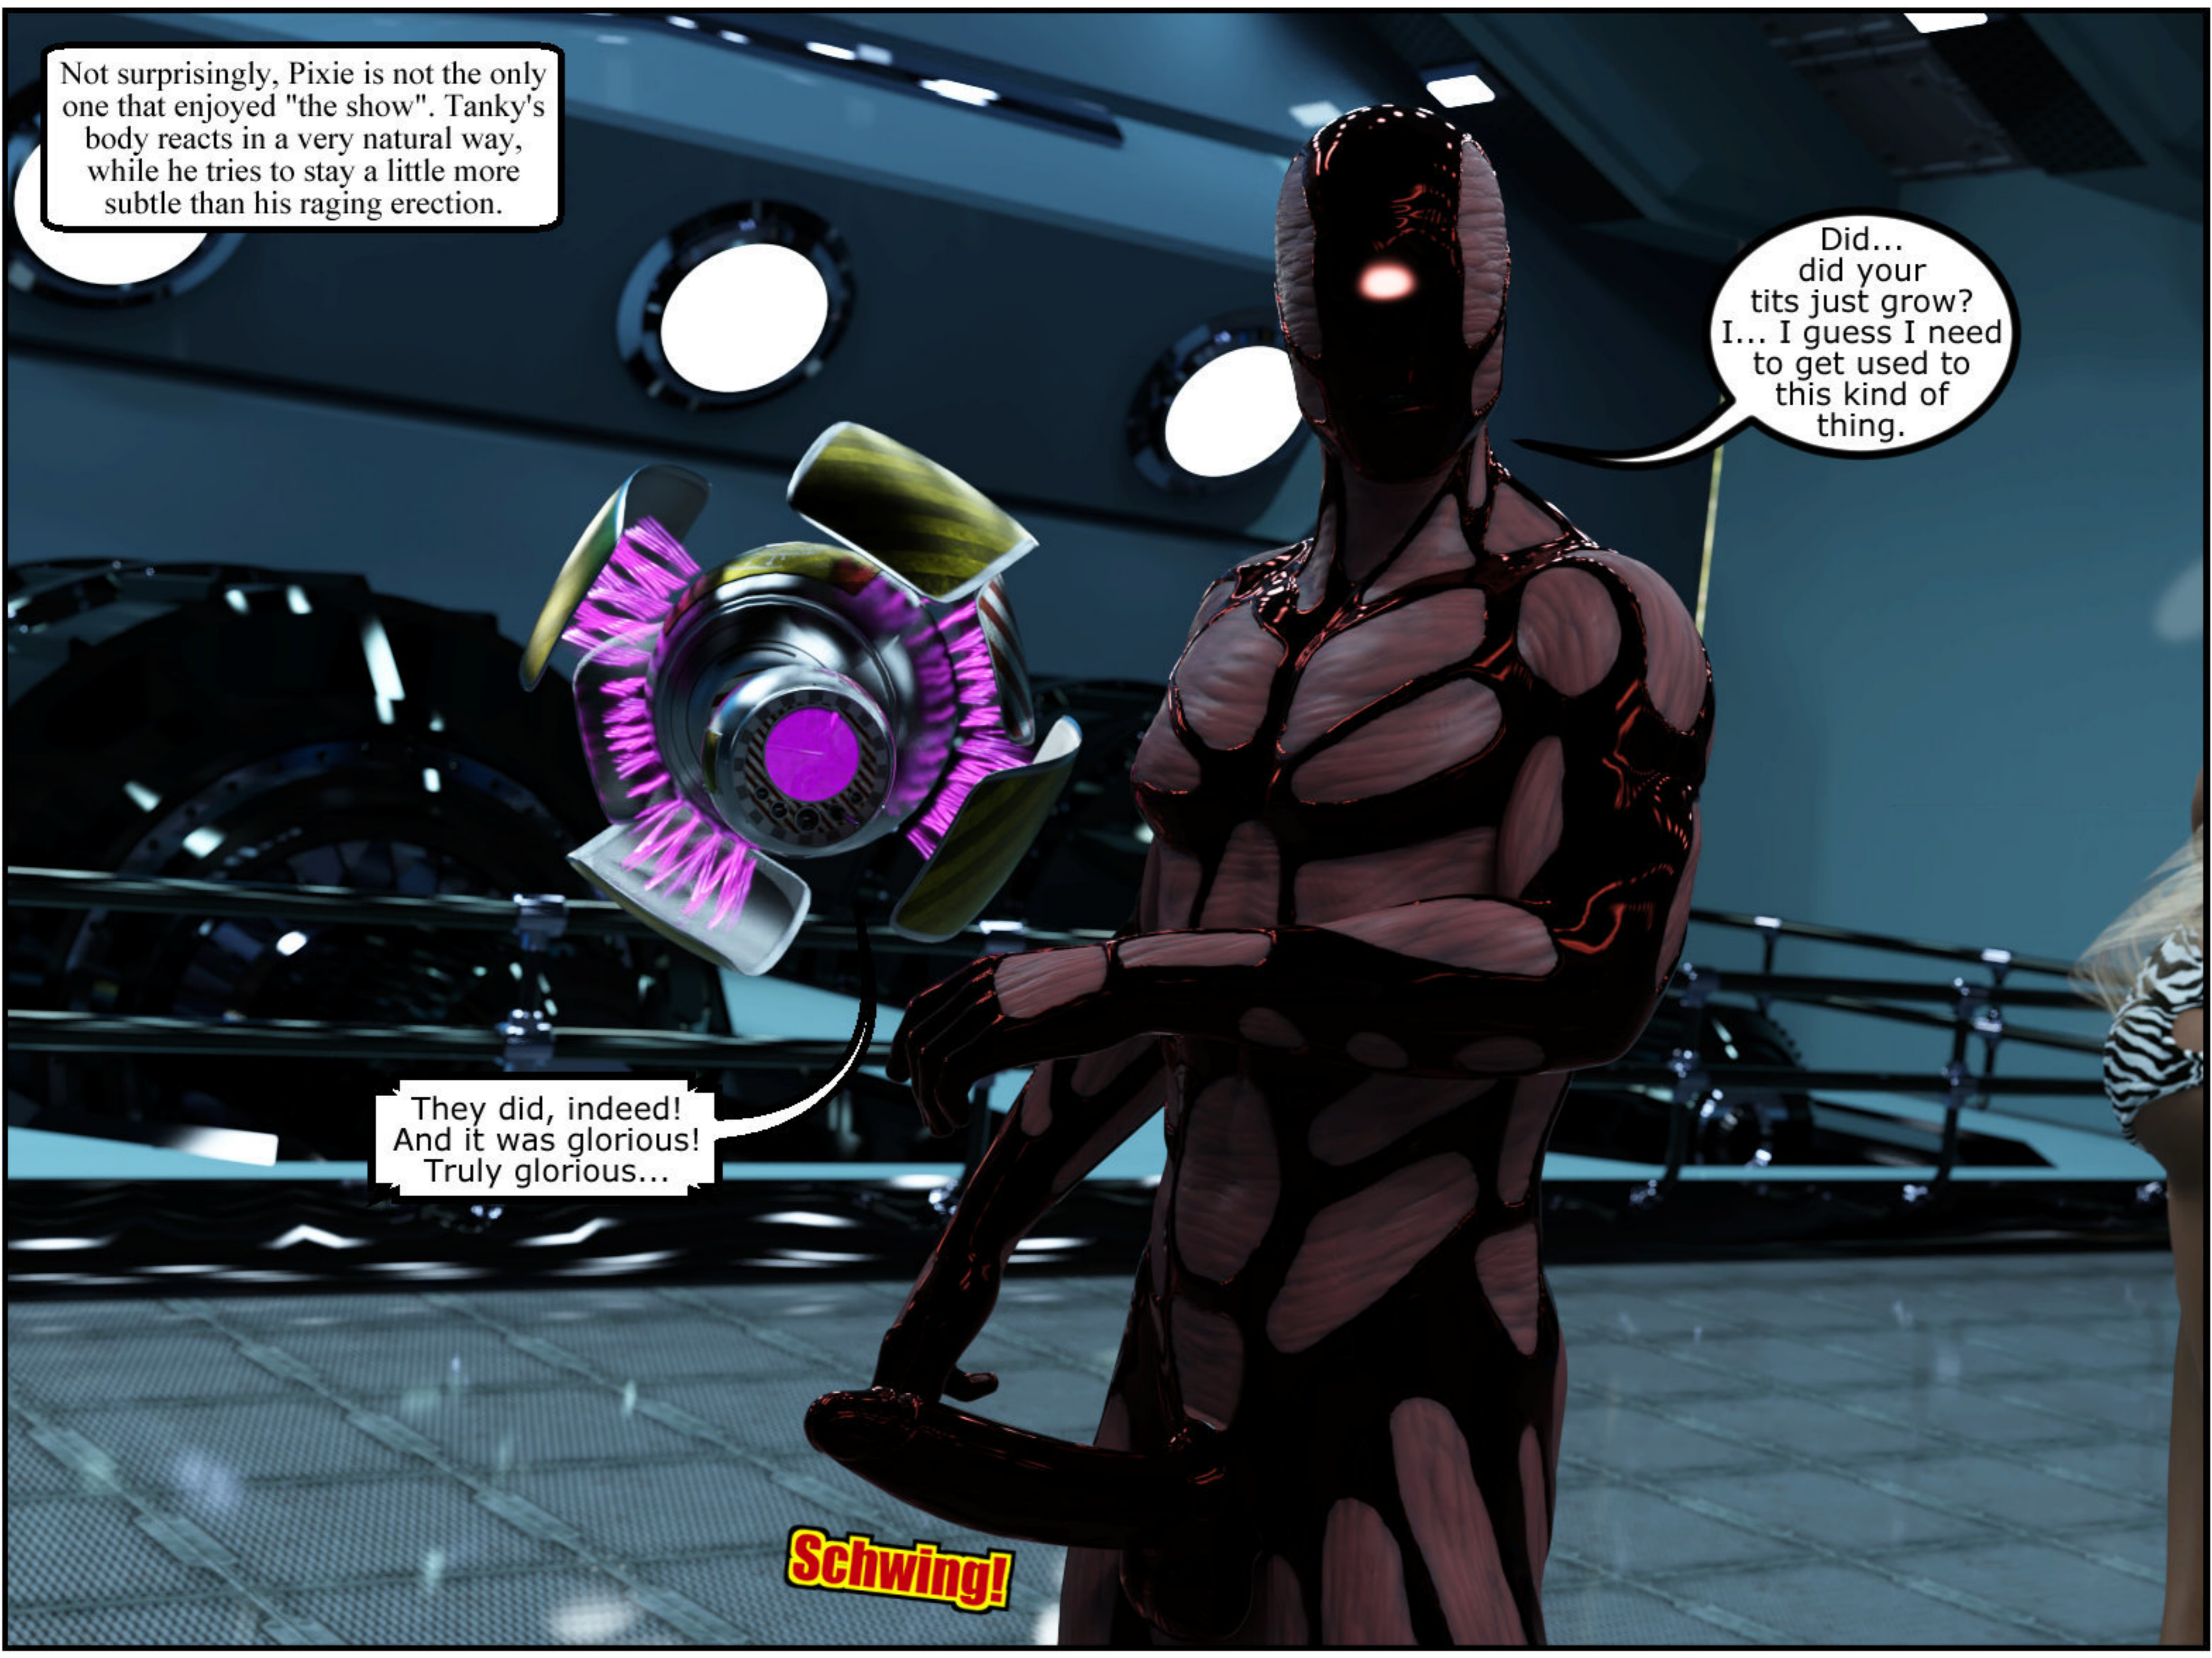

Not surprisingly, Pixie is not the only one that enjoyed "the show". Tanky's body reacts in a very natural way, while he tries to stay a little more subtle than his raging erection.

Did... did your tits just grow? I... I guess I need to get used to this kind of thing.

They did, indeed! And it was glorious! Truly glorious...

Schwing!

Are you fucking kidding me, right now? You had doses of "boob juice" all this time!?

But one person is not particularly impressed by Sapphire's sudden growth. Lana practically explodes in anger, as she glares at Saffy's inflated jumbo jugs.

Hmmm?

Rub!

Rub!

Sapphire isn't paying attention, however. She is totally engrossed in the two basketball-boobs jutting lewdly from her chest and stretching her bikini to its limits.

We are all desperately trying to find a way to help me, and you could have just injected me?

Poke!

Hey!

Lana gets her attention, though, when she walks up and starts poking Sapphire right in one of her fat titties. She is quite upset that Saffy had a cure this entire time.

Poor Saffy is yanked out of her admiration of her big, bulging boobies. She attempts to answer Lana's question, but she isn't given much of a chance.

That kinda hurts, you know? I guess I could have injected you, but--

Yes,
you could
have! You **should**
have injected me and
given me big, fat, round,
perfect tits just...
like... this...
one!

Poke!

Poke!

Lana cuts her off in her agitation,
and continues to poke her sharp nail
into Saffy's big breast. But what was
Saffy trying to say? It seemed kind
of important to me.

Easy there, Lana. I know you are frustrated, but don't take it out on your friends. We're here to help.

Before more can be said, however, Pixie interrupts and tries to remind Lana that nobody here is trying to hurt or cheat her. They are all just trying to find a way to help her.

Yeah!
Just relax,
Lana. She can
still inject you,
if you
want. It's just
boobs.
There is no
need
to get so
upset.

But Pixie isn't the only one. Brynne chimes in too, but she just doesn't get why Lana is so upset. If Lana wants to be injected with some weird fluid, then just ask Saffy to do it.

Sure, she could, but I don't need to hear that from you, Brynne.

Brynne has clearly missed the point, however, as Lana rounds on her next. Lana knows she is being a little unreasonable, but she just can't seem to hold herself back.

Especially not from someone who makes a **big** deal of "hating" **big** boobs, but clearly loves them, since you always manage to find a way to grow bigger.

Her frustration with her situation has been slowly building up for a while now, and it seems that it has chosen this moment to boil over into a pretty nasty outburst of vitriol.

Wait...
what? No!
I don't hate them.
I don't love
them either.

Uh-huh.
Suuurreee...

Lana is particularly annoyed with Brynne, and her constant quips about how the rest of them feel about being sexy, curvy bimbos. Usually, she doesn't care and brushes them off.

But not this time. Plus, it's also a perfect opportunity to drop another suggestion to Brynne and let it seep into her unconscious. Even through her irrational anger, Lana slips one in.

Or do I? Is that why I always seem to be stumbling into things that make them grow?

Do I secretly love them and want to be as big as Pixie and Saffy?

Enough is enough, though, and Tanky decides to step in and try to act as a peacemaker between this group of friends. He does his best to speak calmly and help her see reason.

Lana, please calm down. You are obviously upset, but this is getting us nowhere fast.

Their priority right now should be restoring the air ship, going on their quest, finding this thing from the Sperminator database, and helping Lana out with a permanent solution.

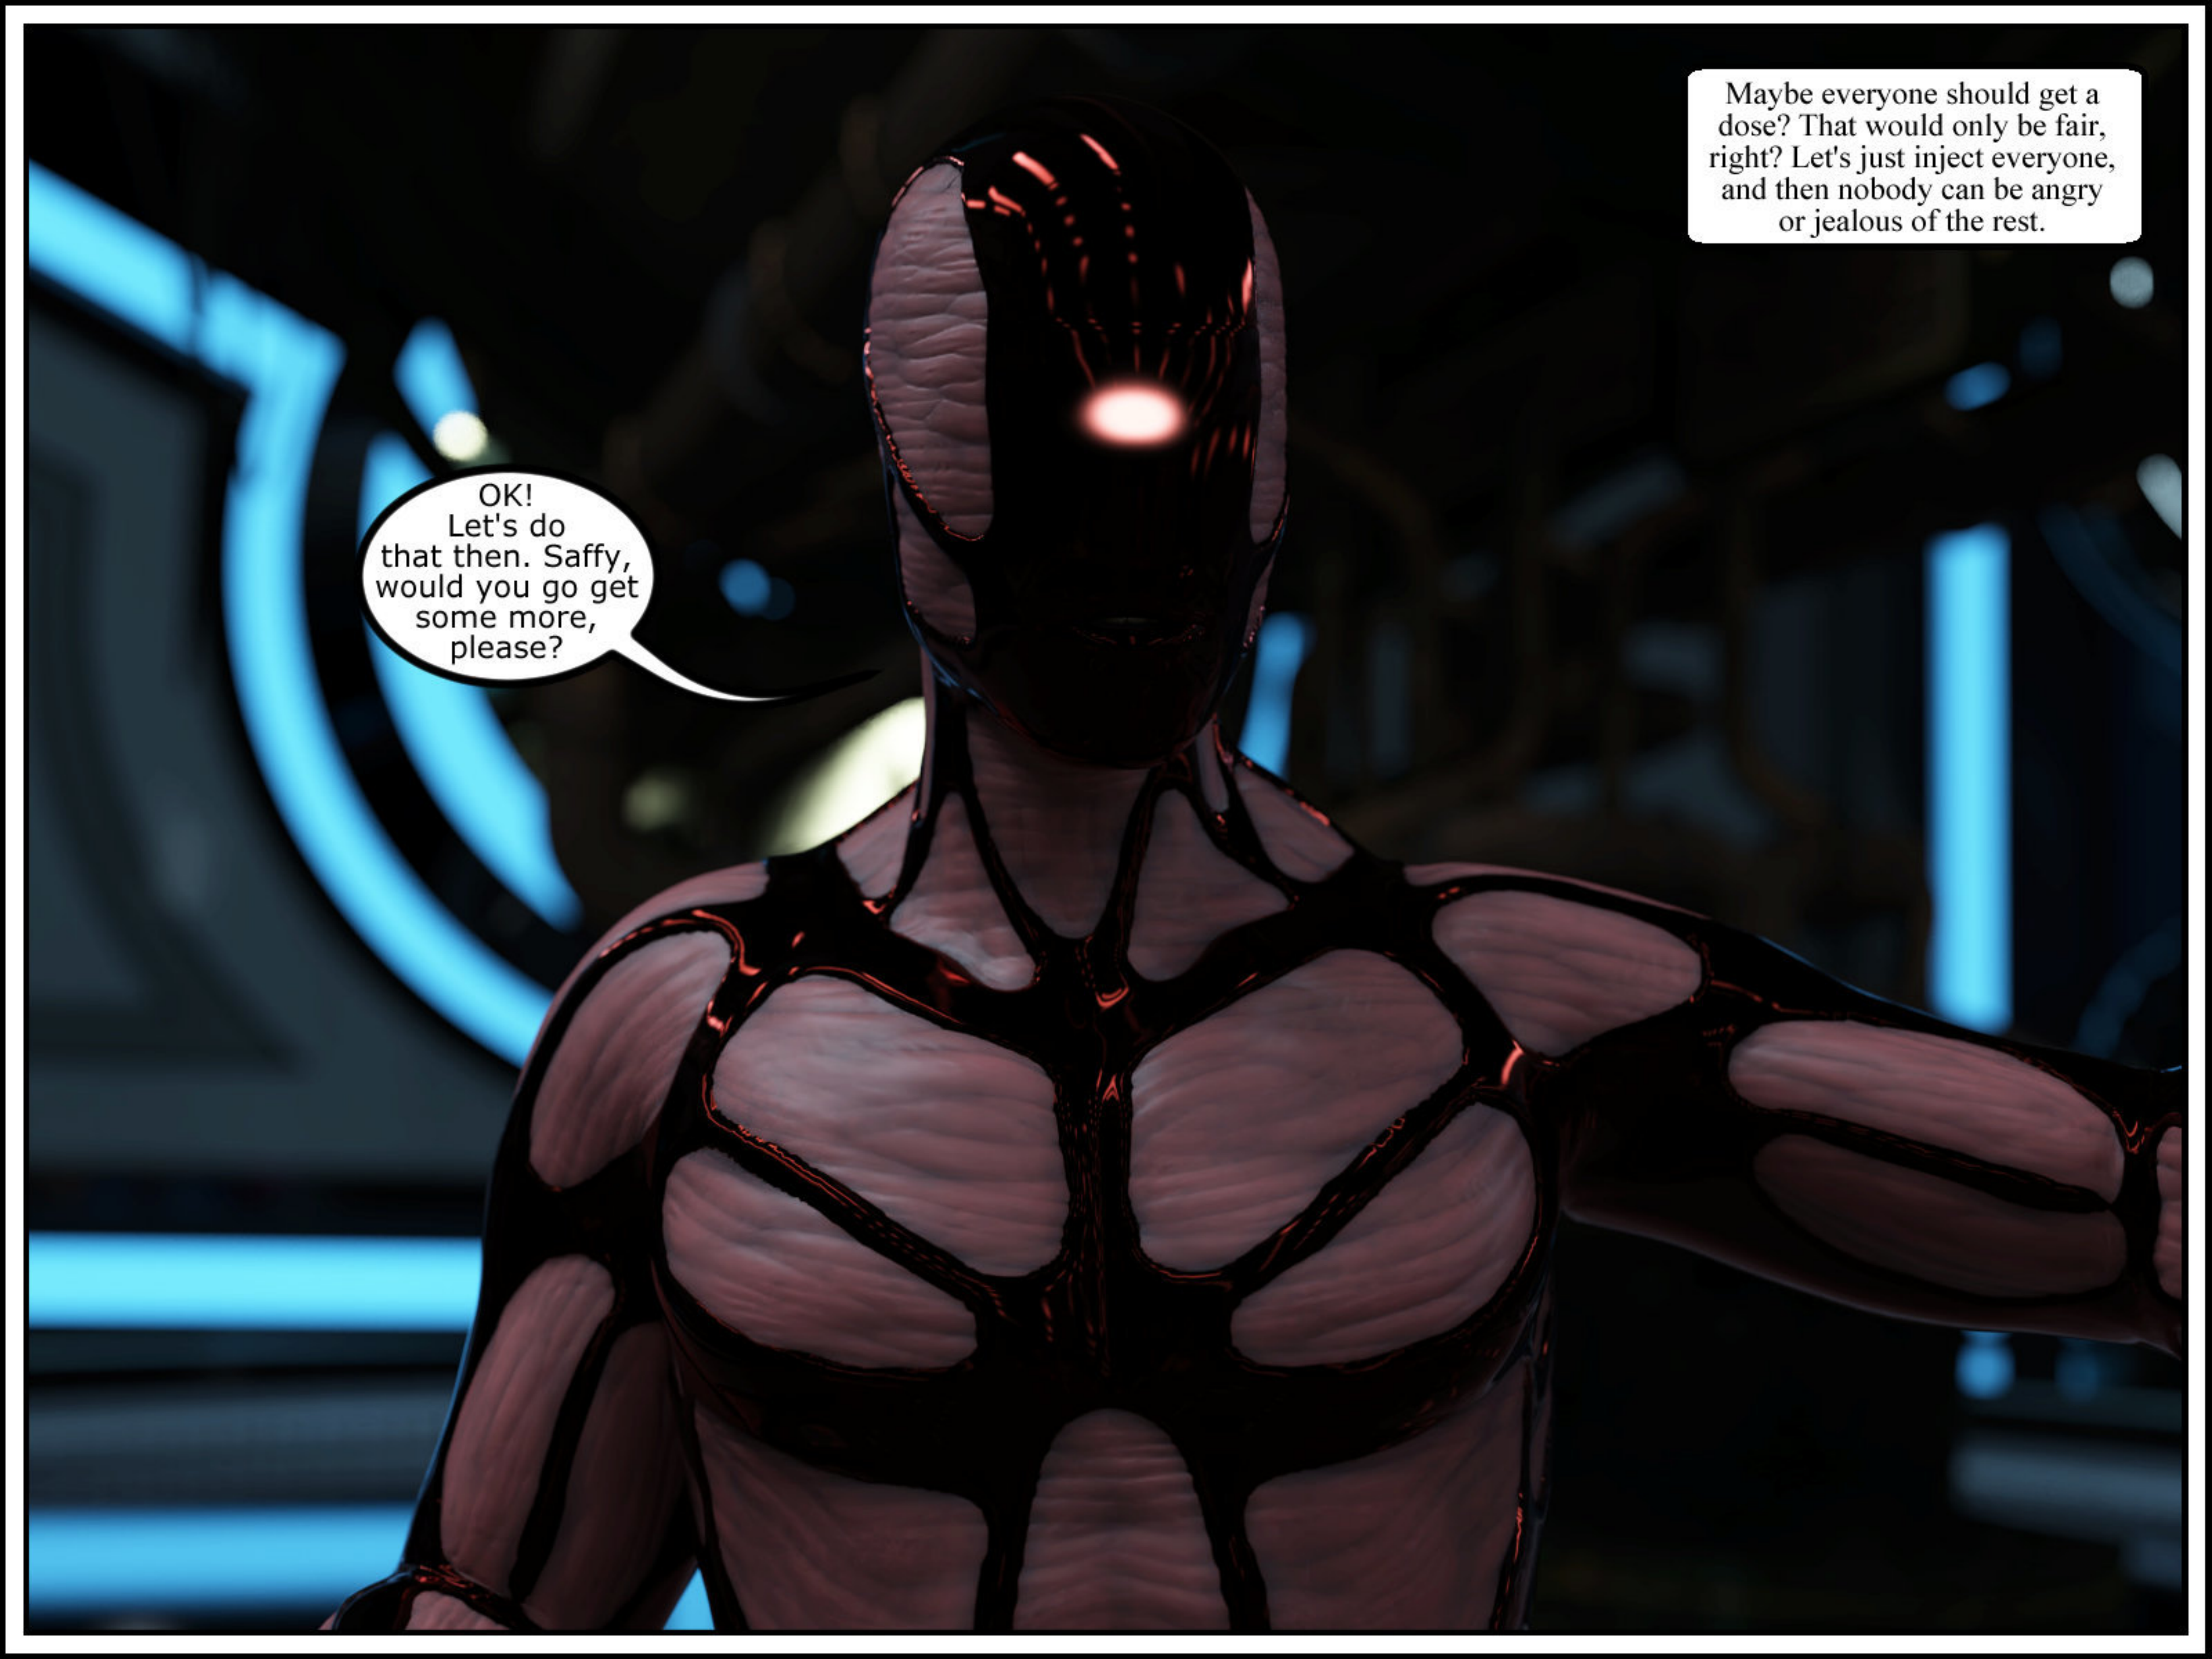

We should be out there finding you a real cure. Saffy, is there more "boob juice" available? Can you inject Lana with some?

Probably?
If not, then I
can make more,
but that won't
hel--

But if injecting Lana with some
of this pink fluid will get her to
clam down, then it might be best
to do whatever they can just to
get her to chill out.

A character with a dark, muscular, and somewhat reptilian or alien appearance. The character's body is dark with lighter, textured sections, possibly skin or armor. A single, bright red eye is visible on the character's face. The character is standing in a dark environment with blue and yellow light sources in the background, creating a futuristic or industrial atmosphere. The character's right arm is extended to the right side of the frame.

Maybe everyone should get a dose? That would only be fair, right? Let's just inject everyone, and then nobody can be angry or jealous of the rest.

OK!
Let's do that then. Saffy, would you go get some more, please?

Can we put a rush on that order of "boob juice"? This is one impatient customer.

Then again, maybe we should skip Tanky and the other robots. I'd hate them to feel left out, but I think I would hate to see them with boobs even more.

It might also be a little ridiculous to give Pixie a shot. Do we really want to see her any bigger than she already is? Plus, would this "boob juice" even work on a sex-bot?

All joking aside, it would be nice if you could give Lana a shot and grow her the boobs she wants.

These are questions that can be pondered while Saffy goes back to the Medical Bay for more "boob juice". Someone will also need to grab the soapy water and sponges too.

And while you are doing that, I will go retrieve the cleaning supplies.

A futuristic scene featuring a woman with voluminous, curly hair and large breasts. She is wearing a black top and a leopard-print bikini bottom. She has glowing pink wristbands and a glowing pink headband. To her left is a small, spherical droid with a metallic body and a glowing pink brush-like structure. The background is a dark, industrial-looking environment with blue lighting.

Oh!
I think
I will come
with you, Helpy,
if that is all
right with
you?

It would be a true
pleasure and blessing
to have your giant
tits... I mean **you**... to
accompany me.

It looks like Pixie and Helpy can
handle that. I'm sure the little droid
will not be distracted by her
outlandish figure at all. Don't forget
the buckets and chamois!

Fine, fine. I'll go, but it's a waste of time.

I'll come with you, Saffy, and keep you company.

Sapphire shrugs helplessly. She has been trying to tell them all something, but nobody wants to listen. Brynne heads off with her to get away from grumpy Lana.

Sorry,
I guess I
got a little carried
away there.
Thanks!

It's
fine, Lana.
We've all been
under a great deal
of stress, but I don't
think I am the
one you should
apologize
to.

As the group separates to go run various errands, Lana finally calms down a bit and realizes that she was being pretty nasty. She feels rather embarrassed by her outburst.

I am so sorry, Sapphire. I was way out of line. Can you forgive me for losing my temper?

Sure, consider yourself forgiven. No real harm done.

Lana paces while the rest of the group is out of the room. She feels really bad about how she just acted. Brynne and Saffy are the first to return with two full injectors.

Here you go! I would suggest just trying one to begin with. Just put it up to your boob and pull the trigger.

Thank you!

Sapphire does not seem to have any hard feelings about how Lana just treated her friends. She seems quick to forgive Lana for the outburst, as she hands over an injector.

I should have just asked you if I could get an injection of this stuff.

Yep! You sure should have.

The two ladies commiserate while Lana hefts the full injector in her hand. She can feel the weight of it, and also the importance of what this could do for her.

Well then, I guess there is no need to wait. Does it hurt much?

It shouldn't, just a slight pinch.

Tanky, meanwhile, smiles as he watches them make up. It also seems that they are getting used to his raging hard-on, as his penis is still at full mast.

A woman with long, wavy blonde hair is shown from the chest up. She is wearing a black and white zebra-print bikini top. She is holding a silver medical injector with a pink handle against her right breast. The background is a dark, futuristic-looking environment with blue neon lights and circular lights.

I can't wait to have my huge hooters back. They are going to look so good in this bikini.

Lana can't contain her anticipation any longer, and places the cold metal of the injector against the skin of her right breast. She barely feels the bite of the needle.

A close-up photograph of a woman with blonde hair, wearing a black and white zebra-print bikini, lying down. A hand is holding a silver, cylindrical handheld massager with a textured roller head, which is being applied to her chest. The background is dark with some out-of-focus lights.

SssSsshHhhHh-tikt!!

Her excitement builds as she presses the trigger and feels the chilly, pink fluid pump its way into her small boob. Hopefully it will not be so paltry for much longer.

A woman with long, wavy blonde hair and dark lipstick is shown from the chest up. She is wearing a black and white zebra-print bikini top. She is holding a futuristic, chrome, handheld device in her right hand. The device has a cylindrical body and a flared top. The background is a dark, industrial-looking environment with blue neon lights and a ceiling with recessed lights. A speech bubble is positioned to the left of her head, and a text box is in the top right corner.

I can feel it! There's a warmth spreading through my chest.

Lana's gaze is riveted to her right breast, as she feels the "boob juice" go to work. She does not want to miss a single second of watching her tit grow larger.

A blonde woman with long, wavy hair is shown from the chest up. She is wearing a black and white zebra-print bikini top. She has a serious expression and is looking slightly to her left. The background is a dark, futuristic environment with blue lighting and glowing elements. In the background, there are large, glowing blue letters that appear to be "GLOBAL" and "UNAI".

I can't wait to see how big they get. I hope they are even bigger... than... nothing seems to be happening?

She can practically see it in her mind's eye. A big, fat, round boob stretching her tiny bikini top nice and tight around its huge, ripe, bulging mass.

But after a few minutes of staring and waiting, Lana's breast is not growing any bigger. She begins to poke it frustratingly with the injector to get it to start swelling.

What is wrong with you? Grow dammit! Come on you stupid fucking titty!

Poke!

Poke!

Shit!
Did you
bring the right
stuff? What did I do
wrong, Saffy?
Why isn't it
working?

However, it just doesn't happen.
The injector is clearly empty. She
obviously injected herself, but her
breast is not getting any bigger
and Lana does not know why.

But Sapphire knows exactly why the "boob juice" isn't working for Lana. She tried to tell her multiple times, but eventually gave up and just went to get it so she could see for herself.

Well I tried to warn you. This medicine requires you to have a certain amount of boob flesh for it to work with. Your tiny tities just aren't enough for it.

Stay tuned!
