

Andy smiled as he saw the monster girl, Noma, sit down at her desk. The wolfman held a cup of coffee in one hand and was wearing nothing else. His black hair, toned, wiry body and grey skin was a stark contrast to Noma's blue hair, blue skin, horns, and voluptuous body. In the Other, things like nudity and other human "shames" were not overly shared, with clothing being strictly optional and more decorative than necessary. Still, he'd had a thing for Noma for a while and was planning on making his move.

At a party a couple of months ago, he'd heard her say that's she liked things a little rough but could never find anyone man enough, strong enough, or tall enough to make it really wild. She had, admittedly, been drunk at the time on faerie wine. Still, the wolf had been working out for a while and had bulked up a bit. He'd even heard Noma comment to Victoria, the ushimimi, that she thought he looked pretty ripped. Still, Andy was only a couple of inches taller than Noma. He'd need to find an excuse to get her in private. Hence the coffee.

He'd done his research on Noma and her type of monster kith. There wasn't much to go on, but they could go into a state of heightened arousal if exposed to Juju berries. He'd been bringing her coffee each day this month, progressively adding more and more ground dried up Juju berries into her coffee so that she wouldn't notice the difference.

As the weeks had gone on, he'd seen its effects. Yesterday, he'd noted the smell of her sex after Noma left the bathroom. He'd also noticed her subtly increasing breast size. The blue-skinned monster's breasts, earlier in the month, had been almost as big as her head but were now nearing the size of soccer balls.

As he approached her, his cock was hanging freely, bobbing along with each step. He peered over the wall of her desk, coffee cup in hand. "Hey, Noma," he said with a wolfish grin, "brought you your coffee."

Noma smiled up at Andy and took the cup. "You're a life saver. I was up all night and barely slept because," and she paused, her cheek turning purple as she blushed. "Never mind." She sipped at the coffee. Pausing to look at the cup, she looked up at Andy with a confused expression. "New brew?"

Andy had figured she'd ask the question, given he'd tripled the amount of Juju berry powder he'd put in the coffee. "Well, you've been tired the last couple of days. I ordered it extra strong," he said, sipping his own coffee. "Just wanted to make sure you get taken care of, Noma."

Sipping more of the coffee, Noma arched an eyebrow at Andy. "This from the office big, bad wolf?" Her eyes drifted down to his crotch as she took another sip. "Well, at least the big part is right."

"You're not tiny either, Noma, but that's what I like about you," Andy replied, leaning closer as Noma finished the coffee. He could smell her arousal and swore her breasts were getting bigger with each breath she took. "I think you might be tough enough prey for this big, bad, hungry wolf," he whispered in Noma's ear.

Noma's eyes widened. She trembled a bit at the thought, of all that corded muscle pressing against her. "Well, that's... nice..." Noma whispered, slowly pushing herself to her feet. "I, um, need to get something from the supply room." *Namely the huge dildo I hid behind the paper supplies.*

Andy let Noma get up and start to walk away, savoring the sight of her bubble butt before stalking after her. It didn't take long to find her searching the supply room. "Where is it?" Noma whimpered, still searching for the dildo while Andy locked the door behind him.

"You mean the monster dildo that you kept hidden?" Andy asked, closing the distance, his tail swaying back and forth, his cock rigid and at attention. Noma licked her lips before shaking her head. "Oh, don't deny it, Noma. I've caught your scent each time you used it. It wasn't hard to find... or to remove. Besides, I'm certain I have a better option for you."

Noma blinked and smiled. "You have to properly catch me first, wolf," she said, backing into a corner. Faster than should blink, Andy was across the room, pinning her against the wall, his shaft pressing against his core. Noma moaned at all that hard muscle pressing against her soft, supple curves. Andy's hands had both of her wrists above her head. He was strong enough to pull them together and hold them with one hand, a fact that Noma enjoyed. She was normally stronger than everyone here and the fact that the wolf could so easily overpower her was intoxicating.

"Mine," Andy growled as he slid his cock between her slick pussy lips. He moaned at how tight she was, even as she spread her legs to give him better access.

Feeling his shaft fill her, larger than the dildo she had come searching for, Noma moaned, rolling her hips. "Looks like you caught me, wolf," she said, pressing her swelling bosom against his rock-hard chest, "but you didn't need to use Juju berries to get me here."

Andy blinked, the momentary shock allowing Noma to free her hands. He half-expected her to push him away, but her hands went around him, her nails dragging down his back. He let out his own moan as he began to thrust harder, faster, his desire for this woman heightened even more. "Naughty minx. You wanted me this entire time."

"Once you were strong enough to take me," Noma said as she grabbed onto his shoulders. "Give it to me, wolf. Fuck me! Fuck me harder. Give it to me."

Andy's pace quickened, the force of his thrusts causing the walls to shake a bit as Noma's huge ass slammed against the wall. As she begged for more, he gave it his all, until, at long last, they found mutual release, Andy's cock filling Noma with his seed. Panting, he leaned against her, an uncharacteristic purr coming from Noma's lips. He felt a dampness against his chest.

"Oopsie," Noma said with a grin, "looks like I forgot to milk myself this morning. Silly Juju berries." Her hands stroked down Andy's chest. "You know, I better there's a free stall in the ushimimi stations. Care to join me?"

Smiling, Andy knew he'd been played. Damn, he loved this woman. Pulling out of her, he stepped aside. "Lead the way."
