

**Battlesister
red armour
Step-by-step**

Paints required:

Red armour

- Mephiston red
- Abaddon black
- Vermillion (Vallejo mc)
- Ivory (Vallejo mc)
- White

**Basecoat the armour
with a 1:1 mix of
mephiston red &
abaddon black.**

**Now glaze in the frame of the light
reflections with pure mephiston red –
add 3-4 parts of water – we will add this
amount of water to all the glazes in
this tutorial. I have added a video
reference for how i glaze & locate light
reflections in the post description.**

We now glaze more towards the middle of the light reflections with a 1:1 mix of mephiston red & vermilion.

We now glaze the middle of the light reflections with pure vermilion.

**We now glaze the very middle
a couple of dots of a 3:1 mix of
vermilion & ivory.**

**We now shade all the recesses
on the armour with thinned
down abaddon black – add 3-4
parts of water.**

We now edge highlight the armour with a 2:1 mix of vermilion & ivory. Add 1-2 parts of water.

We now add the final touch to the light reflections - this time just add a single dot of a 1:1 mix of vermilion & white in the very middle of the light reflections & on all the sharpest edges on the armour. Done!
