Chapter 2 Special Prisoner

"Okay, come on, I'll take a look at your information. Iyo Soko is 24 years old, very young~! It seems that your place of residence is in the beach city next door. Fortunately, you met me in this case today."

The policewoman looked at the information in her hand and said.

"First of all, I have good news for you. We have found your child. We are here now. You will be able to see your child after I have finished interrogating you."

After hearing the news, Iyo Soko covered her face with her hands and shed tears in a bit of guilt.

"Um... Excuse me, Officer, can you start asking? I want to see Minori soon. May I ask if I... committed a crime today?" Iyo Soko said nervously.

"Well, if it was an ordinary person today, it would be considered a crime! But you met me, so I can tell you, fortunately "no"." The policewoman took Iyo Kuangko's ID card from her pocket and handed it back to she.

"Is this your ID card?" the policewoman asked.

"That's right! Why is it on your side?" Iyo Soko asked in surprise.

"Maybe it was dropped when you were concentrating on "doing things". Minori was almost kidnapped by a lewd man because of this ID card. Fortunately, I arrived in time. Don't thank me. Tracking sex criminals is my specialty. , but when you "do things", settle the children first! Really, and ah, you are too high-profile to do this. Starry Night City is a conservative city. You were reported by passers-by, so We just made such a big battle." The policewoman said a little reproachfully.

"Ah, I really made a big mistake. When I was hanging out with the children, my "instinct" actually reacted. Are those five high school girls okay!?" Iyo Soko said.

"They all went back with their parents, and they don't want to sue you at the moment."

The policewoman continued.

"You don't seem to leave Beach City very often. It seems that this is the first time you came to Starry Night City in four years. Fortunately, our "system network" is very clear about your whereabouts and data."

"Your body is a little special, you know that!" the policewoman asked.

Iyo Soko nodded with a blushing face, as if a long-hidden secret had been discovered, but she was a little ashamed.

"You look up first, because you're not the only one in this room."

After speaking, the policewoman unfastened the weapon belt around her waist, took off her leather skirt, and then revealed a stick that was tied to the inner thigh and covered by a leather cover. There are even some granular things, which show shapes from the holster, and it seems that there is a particle distribution on the stick.

"Do you think this is my baton? It's not... Look..." The policewoman pointed to her 50cm baton and instructed Soko to look up along her finger. The policewoman unbuttoned the first button of the leather pants, revealing thick pubic hair, and under the pubic hair, a rod with skin color and blood vessels appeared, and this was the root of the policewoman's "baton".

Iyo Soko seemed to understand something instantly, because in this room, the policewoman in front of her was the same kind of person.

"I think you understand! So you know why I have all your data, and you can rest assured! I know all the behavioral patterns of women with the ability to ejaculate. We can even do things that all men can't, Because we are stronger than all men," the policewoman said, covering her stick with a leather skirt.

"Look at your stats, you're pretty good too! Although your appearance is almost invisible, because you are so beautiful and feminine, and your body muscles are well hidden. Your appearance is an average housewife .But there's a ferocious beast hidden under your skirt!"

Knowing that the policewoman is the same type of person as her, Soko stopped acting at all. The wife took off her skirt, revealing her huge male genitalia, a huge 53cm long penis with dragon tattoos on it, extending all the way to the lower edge of her abdomen.

"WOW! What a big guy, looks like a gentle and kind-hearted wife, but used the planter below to get more than 4000 women pregnant. This sister is really a hardworking planter, I understand ^^ . You are really a competent father , but not a

competent mother." The policewoman said with a smile.

"Officer, I really need help, I've had an average of 3-4 females a day for the past four years, but recently the demand has increased, and 10 a day is not enough. And I'm getting more and more need to ejaculate Younger female uterus, which allows me to ejaculate a larger amount of sperm at a time, which makes it easier to be satisfied. But then less and less time to take care of my baby." Soko spread her hand and said Said a little troubled.

"I know all this, because I've been through it too, so you're going to start getting mentally prepared because you're going to the next stage where your body will evolve into a more mature male creature. But this You also need to prepare your own heart, or you must seriously consider whether your marriage relationship is necessary to exist." The policewoman said.

"I've thought about it all, but for the sake of Minori, I still think it's necessary to maintain this state of marriage with my husband, after all, it's the child I gave birth to for my husband. And my husband didn't make a mistake, in our marriage."

"However, you only gave birth to one child, and you let more women give birth to more children with your genes. According to the current data, there are already more than 5,000 people. However, you do not want Have any marriage relationship with them," the policewoman said.

"There's no way, I can't have romantic relationships with women, but I just want them to be penetrated by my huge cock. Then I make beautiful women have my children, and then I don't need to support their children Responsibility, after all, the number of women who have been pregnant by me is really too many, my penis exists for women in the world to produce powerful sperm, and it is also my mission, you should know this better than me." Soko said.

"Is this really nerve-racking? Because I have no experience of marrying a man or giving birth to a man, so it is difficult for me to help the family here. Let's talk about today's case first! Because You are registered as a "Female Enhanced Male" in the country's medical system. Today, you left your children alone and "forcibly bred" five high school girls in an alley. Basically, as long as you have a registration certificate, "FEM" can breed with women anytime and anywhere in Starry Night City without legal responsibility, and the judgment of underage women is that if the other party

has the ability to become pregnant, it does not constitute a crime. After our investigation, the one you forced to conceive today is All five girls were successfully pregnant, so we will not pursue legal responsibility here. After all, in this era, it is very difficult for a woman to get pregnant, because men are too weak, right! But next time Be careful not to attack girls who are too young, you know?"

"Oh! No, I am very measured in this regard. I will definitely let them conceive my baby." Iyo Soko said confidently.

The policewoman continued. "Okay, the shower is over there, you can see Minori after grooming yourself, but don't make the shower too dirty! You know?!" After the policewoman finished speaking, she opened the door of the interrogation room and instructed Soko headed towards the locker room.

(Another hour passed) (Soko seems to wank her "big fire dragon" in the shower and ejaculate 50 more times)

"Minori~~!!! I'm sorry, Mom was late for errands again. I'm really sorry to make you go through this," Soko said.

Minori seemed to be used to his mother's ditching behavior, and he was quietly led away by Soko without saying a word.

"Wait, I seem to have someone I know who I can introduce to you. Her name is Han Mi-Hui. I'll give you her contact information." The policewoman stopped Soko.

"Also, this is my contact information. If you need any help, you can contact me. After all, there are not many women of our type, so we cherish each other's rare friendship even more." The policewoman handed out her business card .

"Thank you, really thank you for everything you did for me and Minori." Soko took the business card and gave the policewoman a deep bow at the door of the police station.

Soko led Minori to the parking place. She was about to put the business card in her wallet. On the back of the card was written - "Starry Night City Police Station - Special Sexual Crimes Detective Detective - Nanase Takako".
