[Narrator]

Kerry watched the app download with excitement. She'd never been this excited for an app to download in her whole life, but this one was something else. According to its description, it could completely change your figure in only 2 minutes, and the reviews were shockingly good.

[Kerry] *the app finishes downloading*

Yes, let's do this!

[Narrator]

She opened the app, and the first thing Kerry had to do was accept a terms and conditions thing, which she accepted without reading. Then, she was asked to take a photo of her full body. So, she propped her phone on her desk chair and walked away from the phone to photograph her. After that, the phone buffered for a bit, before proceeding to a screen with her measurements outlined around a silhouette matching her figure. The height read 5'11, which was accurate. Her boobs and butt were also measured accurately, but she was less keen on acknowledging those measurements.

[Kerry]

Now, let's see here...

[Narrator]

Tapping on the measurement for her breasts, a new screen opened with a slider next to it.

[Kerry]

Oh great, let's boost these girls~

[Narrator]

She slid the slider up the scale and watched the silhouette shift, when she reached DD on the slider, she released and was brought back to the main screen. An 'Adjust' button lit up at the bottom of the silhouette. She only hesitated for a moment before she pressed it.

[Kerry]

Well, I guess now I wait... Oh, oh that was quick, what is this feeling? *m* W-Whoa, My breasts *m* are they really growing?

[Narrator]

Kerry watched in amazement as her chest padded out in surges, each one so pleasurable she couldn't help but moan. It took her by surprise at first, but she quickly got used to the repeating surges and began to really enjoy the feeling of them. She enjoyed watching her breasts visibly swelling out much more though, and quickly felt them with her arms, relishing in the sensation of the growing flesh pushing out through her crop top between her fingers. Until, at last, it stopped, with her breasts having reached the set DD cup size.

[Kerry]

Ohh wow, that was awesome~ They really got bigger, I can't believe it~ Oh! I've gotta do my butt too!

[Narrator]

Kerry tapped this time on the measurement for her butt, and dragged the slider up until it read 38, and again tapped "Adjust"

[Kerry]

Oh yes, I can feel it in my butt this time, so tingly~ *m* There it goes, it's *m* growing too~

[Narrator]

Kerry stared at her butt as she could feel it pulsing impossibly larger just as her breasts had done. Her hips broadened out slightly as her butt puffed out more and more behind her, straining her shorts as it expanded. She could them become more constricting, as her butt cheeks softly poured over the top of them and increased the pressure more and more, until the growth stopped once again.

[Kerry]

Whoa, that was awesome! I wonder what else I should try~

[Narrator]

Looking back at the measurements screen, Kerry noticed something odd.

[Kerry]

Huh? Wasn't that right a second ago? I thought it said I was 5'11, but now it says I'm 5'4, that's silly... uh, hold on... wait, did I really get shorter?!

[Narrator]

Looking around, the room did seem a little bigger. The shelves that had been at eye level were now above her head, and the things that had looked low down were now higher in her vision.

[Kerry]

How did that happen? I didn't ask it to shrink me. Wait...

[Narrator]

Kerry experimentally opened the height slider and increased it back to her previous 5'11. When she went back to the silhouette view, she saw her other measurements were reset to her original ones too.

[Kerry]

Ohh... This app just changes your figure, but I guess it can't give me anything I don't have already. It's just moving matter around and not making any more than I had already. Hmm, well I can always make myself tall again later, for now I wanna be crazy curvy!

[Narrator]

Kerry first reset her height back to it's current 5'4, and then upped her breast slider again this time to G cups, and her butt and hips to 46 inches around. This dropped her height again to 4'10, but she was very willing to make that exchange.

[Kerry]

Let's see how this goes, time to have some super curves! Oh, here it comes! *m* wow, they're both growing at once *m* it feels so tingly~

[Narrator]

Once again, Kerry watched as her breast and butt began to expand. She could feel her bust pushing against her crop top, expanding out above and below it now as it really only held in her nipples, the new tit flesh pushing it's way out around the band of fabric. Her shorts were quickly approaching the same position, becoming more of a thong as more butt flesh pushed around the side and strained it even further. Kerry also noticed herself shrinking this time, watching the room scale up around her as her growing assets took her height away, but she was too enraptured with the swelling orbs to care. Soon, when both her tits and ass had reached the new measurements she'd specified, her changes stopped as suddenly as they had started.

[Kerry]

Ohh yes, look at these massive breasts~

[Narrator]

She hugged her arms around them, gathering as much of the flesh up as she could before letting go and watching them jiggle from side to side as they settled.

[Kerry]

And my huge butt, too!

[Narrator]

She felt round to her backside and pushed her hands up against her butt cheeks. Her hands sank into the warm flesh as she did so, and that only helped to convince Kerry that she had to go bigger.

[Kerry]

I've gotta go bigger! I want my breasts to be crazy crazy big!

[Narrator]

She upped her breasts now to P cups, and her butt to a crazy 58 inches around, and her height reading dropped down to 4'2. She was almost certainly going to be wider than she was tall, but that only excited her further as she pushed 'Adapt' and the changes began.

[Kerry]

m Ohh yesss, grow my big girls *m* grow bigger and bigger and *m* bigger!

[Kerry]

[Narrator]

Kerry watched as her enormous tits began to pulse larger, and her butt and hips began to widen and swell out too. She watched the world start to fall away again, but it was worth it for her enormous swelling orbs in front of her. Her shorts had become entirely a thong now, and her top was pretty close to tearing. She could feel how heavy they had become already, and felt them get even heavier as they swelled, though the weight on her front was balanced out by an equal increase on her back as her butt swelled out just as fast and just as huge. At last, her breasts tore through the compressive top that had held them in for so long and they bounced free with newfound momentum. In another couple of spurts, her shorts burst as well leaving her entirely naked, but her clothes breaking was only a symbol of her successes. Soon though, her transformation stopped, leaving her again shorter and much much rounder than before.

[Kerry]

Ohhh wow, my boobs are truly absolutely huge now!

[Narrator]

Once again, Kerry tried to hug her boobs, but this time her hands couldn't meet each other around them, so she instead groped herself and squeezed them together, causing a spike of pleasure to run through her. One of the advantages of being smaller was that, in comparison to her, her breasts and butt felt even larger. She began to feel her soft butt too, and felt her hand sink into her flesh once again, now unrestrained by any clothing at all. It felt too amazing. She knew what she had to do.

[Kerry]

Bigger... I've got to make them bigger...

[Narrator]

Looking back at the app, without even reading the numbers, she simply slid both the breasts and butt sliders to the maximum they would go, and then pressed adapt. She then dropped her phone between her breasts as the final change began.

[Kerry]

m Now this is it, I'm going to give you *m* everything, just don't stop *m* growing!

[Kerry]

[Narrator]

Kerry's final transformation had begun. Everything aside from her breasts and butt seemed to be getting smaller and smaller as her tits and ass kept swelling out bigger. She wasn't even sure how small she would get, and she didn't care, so long as it made her more curvy, more bouncy, more jiggy, that was what she wanted. Her boobs and butt kept swelling. She continued to reach around them, to feel their growing flesh pushing out against her diminishing fingers. It was too incredible even for her to describe how it felt. They also continued to feel heavier and heavier, so much so that she sat down atop her butt which jiggled as she sat. She watched it pulse larger as it swelled out over the sides of the chair until, at last, her final growth stopped.

[Kerry]

Ohh wow... How short did I even get that time?

[Narrator]

Kerry fished between her vast cleavage for her phone, and took a look.

[Kerry]

Whoa... 3ft! I can't believe it~ That's like half my original height...

[Narrator]

She considered a moment just how short she had become, but then she looked down at her enormous assets. She smiled.

[Kerry]

Well, it certainly didn't go to waste~
