TWINVOLT DAGGERS

Dagger, rare (requires attunement)

This pair of magic daggers look like two small clockwork sticks when deactivated. As a bonus action, you can press the button on the handle of the daggers to release a small pulse of electricity magically contained in the size and shape of the blade. You have a +2 bonus to attack and damage rolls made with any of these daggers, and they cause lightning damage instead of regular piercing damage.

When you hit the same creature with both these daggers in the same turn, the creature takes an extra 2d6 electric damage and can't take reactions until the end of your next turn.
