friends... They are
all afraid of me...

Oh...because of
your "poison"?

Why don't we fix that?

What do you mean?

Some skinship treatment.

Intern-kun, I'm going to get angry if you continue.

An anime-style illustration of a medical examination. A young girl with short, wavy pink hair and blue eyes is shown from the waist up, unclothed. She has a neutral, slightly nervous expression. Her hair is styled in two small pigtails with blue ties. A pair of hands, presumably belonging to a doctor, is visible. One hand is on her left shoulder, and the other is on her right hip. The background is a plain, light-colored wall. The scene is framed by black L-shaped corner markers in the top-left, top-right, bottom-left, and bottom-right corners. Text is overlaid on the image in white with black outlines.

● **Rec**

Alright, when you wake up, you'll only remember this as a standard examination okay?

Yes... normal...

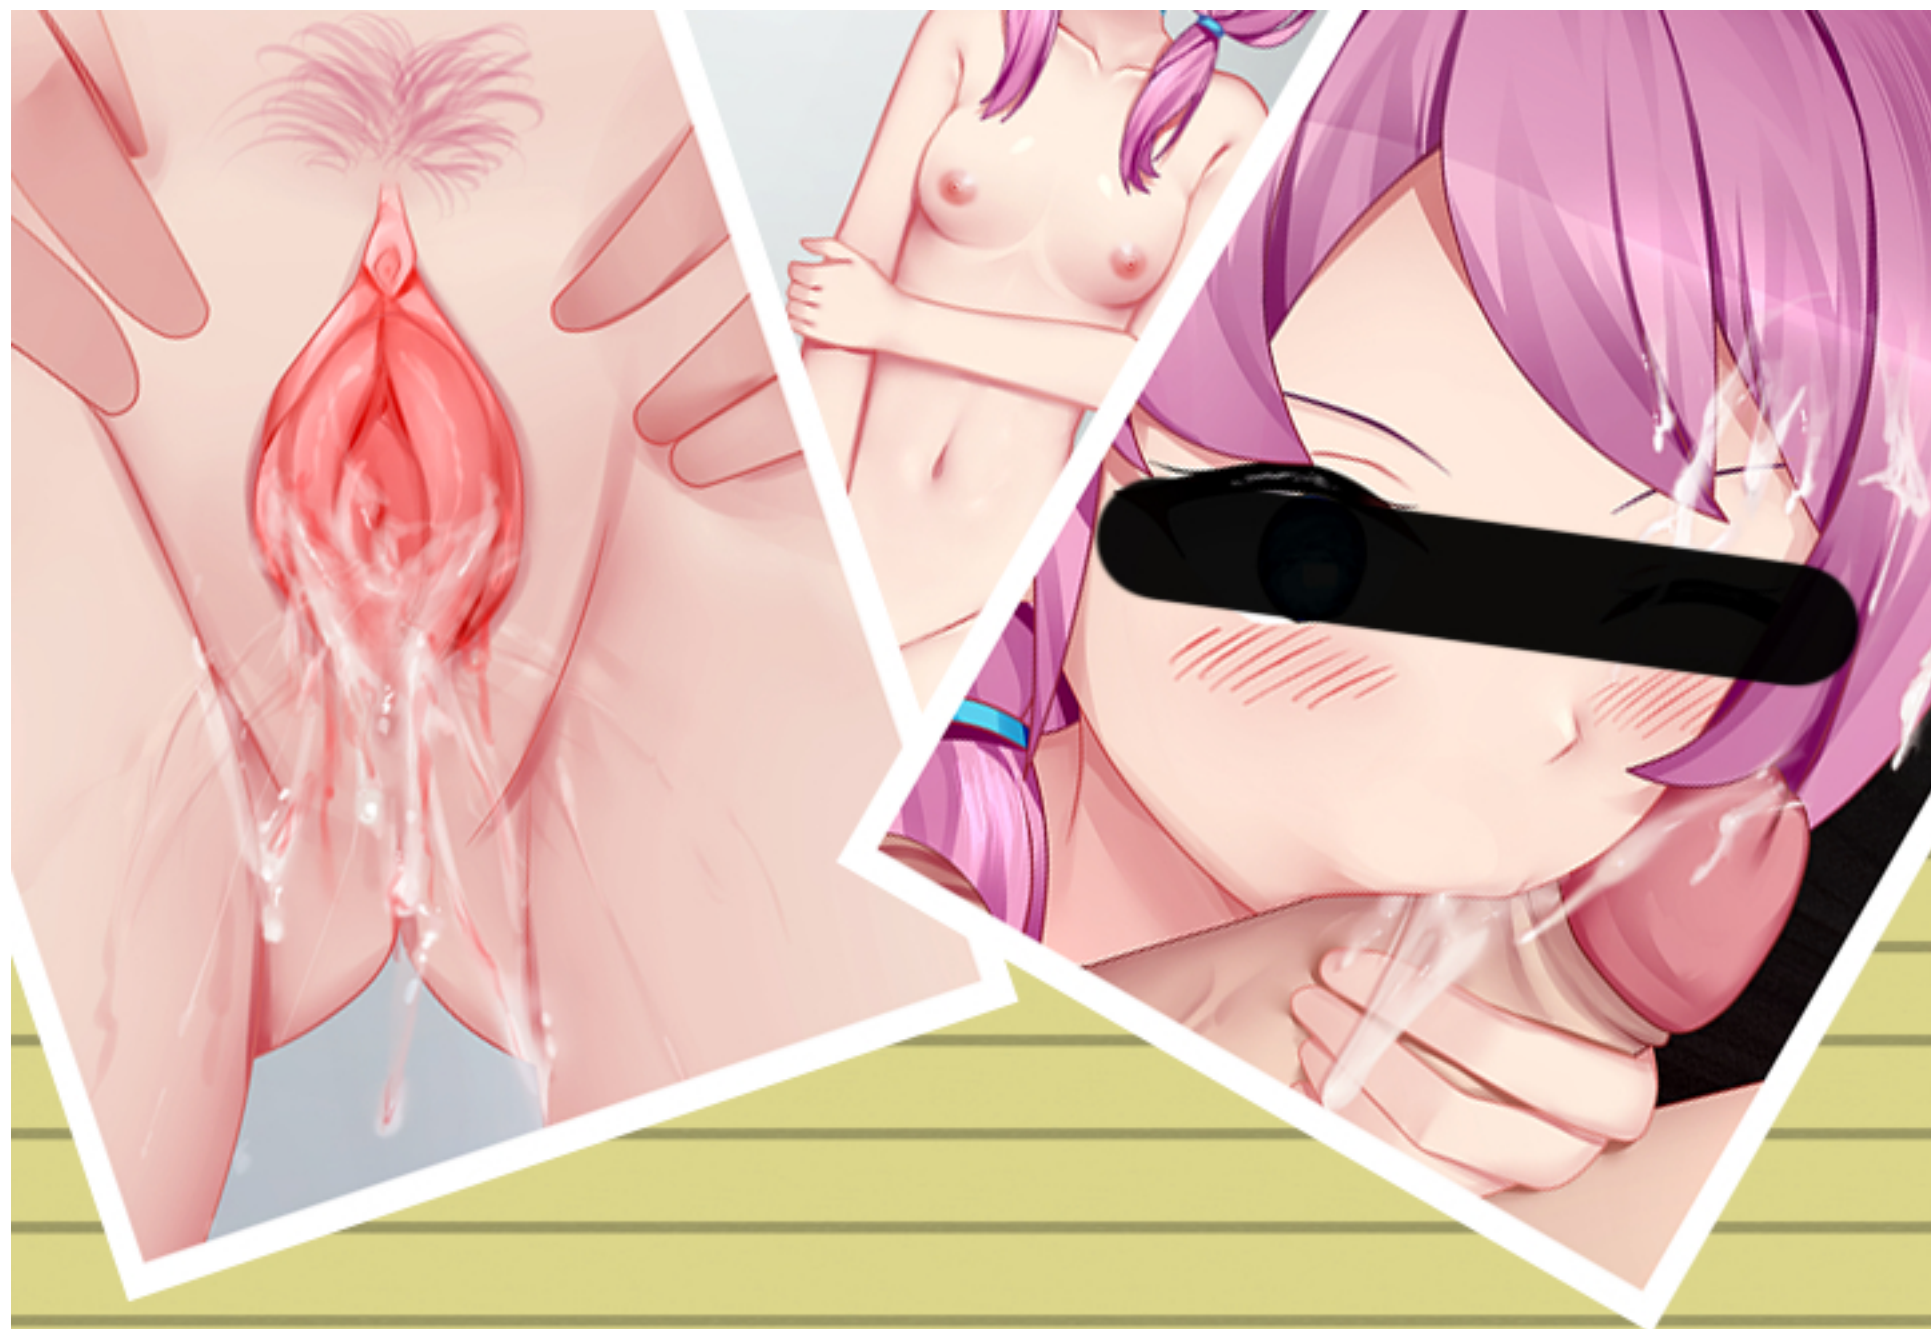

Alright, clean up and get some rest in your room.

Yes intern-kun...

That didn't go as expected,
but I could feel my control
over this art getting better.

Has the illness spread...? Or
something else?

In anycase, after the session
with her, I'll need to rest.
Lots and lots of rest...

Operator name: **Blue Poison**

Breast size: Small

Technique: [Scary]

Pussy: Tight

● Pubic hair: Thin

She followed most of the commands without resisting... are my arts getting stronger? Or is it because of her low resistance...? In any case, I'll have to be careful that she doesn't trap me again...

Afterword:
