# VANESSA CROMWELL

Vanessa was born into a mysterious cult that resides in the Gated Community, because of her supernatural powers she's considered a "Gifted Child". Unfamiliar with the world outside her very isolated community, she can come off as rather strange. Vanessa is curious and well-meaning, but prone to intense emotion.

Bat Boy could be considered a boy detective for the mysteries of their town... If he wasn't a conspiracy nut. He's a bit rambunctious, argumentative, stubborn and occasionally violent. Don't let his small stature and clumsiness in baseball fool you! So he has a bad (if deserved) reputation but once anyone bothers to get to know him he's a loyal and dedicated friend.

BAT BOY

Robby

Robby's always been THE smartest kid in class but never the bravest. Responsible, rational but maybe not always so reasonable Robby. He's the first one to tell you that you're wrong, crazy or to get away from something dangerous but the last one to admit he's actually terrified (especially of Vanessa). Even though he can come off incredibly condescending and cocky, he does genuinely care about people and learned first aid to take care of Bat Boy when he babysits him as they're cousins.

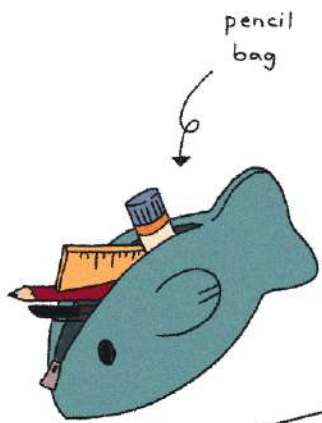

# Aunt Becky

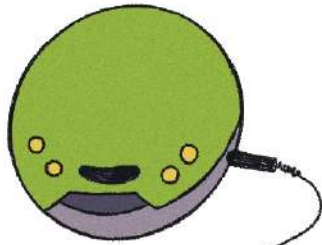

The leader of the Gifted Children's Program, the esteemed principal of Enochian Middle School and the president of the Home Owners Association... Where many of the families go missing? But everyone in the community loves and NEEDS Aunt Becky, why is Vanessa so scared of her?
