

Shameless Shemale

A shemale is proud of who she is. More of a woman than a man, she does her best to blend feminine clothing and erotic makeup into making herself the perfect sex symbol. She is always trying to look her best for the men and woman who ultimately want to fuck her, and loves to wear the tightest, most revealing clothing to show off how seductive she truly is.

A shemale doesn't care who knows she used to be a man. All she cares about is looking like a woman in every aspect of her life. Sissies that listen to this recording will find themselves wondering important things, like how much surgeries would cost to give themselves the biggest tits humanly possible, or how to get as many hunky guys off the dance floor into the bathroom to service with her new feminine lips. She might even find her mind drifting off into space as she rubs her shrinking clitty while getting lost in the euphoria of her own feminine bliss.

Become confident in the girl you are inside and embrace everything she stands for. Add this file to your rotation to find yourself loving every second of your journey to your perfect shemale self.
