

Wearing this sexy lingerie makes me so horny baby! Still probably not half as horny as you are, haha! Okay, why don't you get on your knees and crawl over to me? Be careful not to fall over with your hands cuffed behind your back! I want you to get your head between my legs, move that thong aside with your teeth and then give me a good fucking!

I leave the choice to you: do you want to try my velvety-soft pussy or my tight asshole? Most men decide to fuck my ass, I think that's because their wives never allow them to use the backdoor. You're really lucky since I allow you to use every hole you want!

I just can't wait to have you ravaging me with that big fat strap-on I chose for you to wear. I know you would die to feel my tight wet pussy sucking in your cock and make you cum in seconds, but I just love the feeling of your limp dick in its chastity device slapping against my clit!
