g|----1---1-2---2-3---3-|4-6-7-8---8-8---|
```

- Note these turnarounds are ideal for bars 11 and 12 of a 12 bar blues in E, but can also be used as introductions, too. Don't be afraid to transpose these ideas into other keys as well, with no open notes you can move these up and down the neck depending on the sizes of your ukulele.
