ORDER	MEMBER		TF IDEA
	CARBYNE	GRAPHENE	
1		Tiberius	Amy from Futurama becoming a wereyeti based on the episode the Tip of the Zoidberg
2		Frankrock927	At the Duloc wedding, Princess Fiona possessed by Mama Bear's spirit, which turn herself into a Step-Mama Bear in her wedding dress. I prefer she shows off her furry breast and round belly to look more thick girl.
3	Anonymoushappyperson		One Pin up of Korsica from Hi-Fi Rush mid transformation into a She-Hulk with her clothes tearing and with partual nudity and another with her fully transformed and fully naked.
4			
5		Spider-Man of Earth-1218	TF idea with AP/TG, Twi'lek TF of Jacen Syndulla from Star Wars Rebels turning into a twin of his Mom Hera Syndulla.
			They are in bed together with a big window behind them with the night sky and the moonlight shining on them.
			Hera is sitting on the bed with Jacen on her lap facing her as he transforms.
			Jacen is in the middle of his transformation as his body is still growing as he rips through his clothing. His skin is turning the same shade of green as his Mom's, two twi'lek lekku are starting to grow out of the back of his head and his ears have changed into the cones twi'lek women have. His body is changing to a woman's shape and he's growing breast with Hera cupping one.
			Hera is kissing Jacen and he is starting to cum. Reference: https://danbooru.donmai.us/posts/6282690?q=jacen_syndulla

6		sam smith	I would like to see a NSFW transformation of Ben10 from the original show into Stinkfly. Ideally this would be a partial tf with his body around 50% tfed. He would be jerking off with a partially transformed cock. His face should be tfed just to the point the eye stalks have grown out but the black goo is still covering his face. His expression should be pleasure. Background could be from the one episode where he first meets Kevin in the arcade. Thanks and let me know if I should provide more detail. 7	Dominik Cała		My idea is that male kitsune was so lonely that he want a mate he transform female Japanese shrine maiden into female kitsune can you make this idea two pages like first page is where he have sex with her, and she is middle of her transformation and second is where she fully transform, and he holds her. She can have one tail and male can look similar he have multiple tail muscular body and red marks on his face without the heart symbol like female. They have white fur. 9		DenissZyth	My main idea is to have an already finished transformation of a monster from Avengers Earth's Mightiest Heroes, specifically the female Werewolf that appears in the episode Gamma World Part 1. The design will be the same as she appears in the series, but with bigger breasts and with her clothes completely ripped off showing her bare breasts and vagina. The background will not be so detailed, just the green mist that transforms people, and with her flying in the air, here is the image I took as a reference. https://prnt.sc/t3M-RqdPp9Po
10		Samuel Kim	A pinup of Sindel being shown in standing up reverse cowgirl position to show off her getting a huge vaginal creampie while her soul is drained by Quan-Chi to becoming his revenant bride. mortalkombat.fandom.com/wiki/Wraith?so=search mortalkombat.fandom.com/wiki/Sindel mortalkombat.fandom.com/wiki/Quan_Chi
11	Bryan Long		Meet the Blacks 2 - Lorena played by Zulay Henao fully transforms into a vampiress.
12	Bryan Long		Dracula 2 Ascension - Elizabeth drains Luke and then goes to Dracula's side where they embrace each other.

17	sd102		My TF idea is that Momiji was turned into a female werewolf like Volf.
			On the first page, she's halfway through her transformation, and her face and ears have taken on distinct wolf features, but she still has hair, her breasts have been exposed, and four arms have appeared and are starting to be covered in hair. The lower half of her body retains some of her tight trousers, and below her knees she takes on the form of wolf paws, and finally, she begins to have a tail behind her. 18			On the second page, the transformation is complete, with her entire body almost naked, and like Volf her body is partially covered with some wolf hair. Reference: https://www.fightersgeneration.com/nx6/char/momiji-purple.jpg
19		Re-Maker	Ryuko and Satsuki from Kill la Kill turned into lamias. The snake half is the same color as their Uniforms, the human half has bigger boobies, 4 arms and is a bit more musculare than the girls originally were. Ryuko is fully transformed, Satsuki is going through the change.
20		Whale227	A scuba diving couple or freediving couple turn into werekiller whales or weresharks and there bodies are ripping through their wetsuits. I would love it to be NSFW

21		C.H.	<p>Boa Hancock Merman TF Inspired by commission piece you did years ago of Nami Tiger Shark TF.: deviantart.com/entropy-zeta/art/Tiger-Shark-Nami-389606326 Fully transformed Hancock into a Merman. Was trying to figure out what kind of fish to TF into. Came up with a Snakehead fish? Body to be a lighter tone/color. More attractable, easier on the eyes, and to match tone of her sisters snake powers. Maybe pink to match her clothing? (Your decision) Jagged teeth and snake fangs sticking out of her mouth. Maybe even a snake tongue? Snake Eyes? Webbed feet/hands. Trying to come up with ideas for you to work with. Do want big breasts. Voluptuous body. Sexy wide hips/big ass. Breasts exposed, but nipples are barely visible. Still wearing some sort of clothing. Legs and hips also exposed. Clothing/body should cover up vaginal region. Gills around neck. Typical cold stare in her eyes. Keeps devil fruit powers.</p>
