

In the walkthrough, I will describe the best path with the lowest content possible. I will describe how to avoid fetishes and how to get all that you like. Every **bold** row is a selection in the game that you will have to choose to get to the best path. Underlined rows indicate different scenes in the story where the game has different alternative content. **The option** that will control certain fetish will be of this color.

- **"That could be kinda interesting."** - Unlocks the girls with dicks fetish and additional content during the party.

After all the dialogs and conversions you would have to choose first event. (You can only visit 2 out of 3 events during the party)

These event choices are very important. Not only are some sex scenes are unlocked by selecting an event, but also some characters are only available in the future if you had an event with them on the party.
