The audio starts with sounds fading in, room ambience and low humming from Deku is heard. Slight shifting, a creak of ropes as the listener squirms a bit.

Ah~ I was wondering when you'd wake up. Good morning little hero~ how are you feeling hm? Comfortable I hope. I made sure to knock you out as gently as I could. Not like it took too much work with how tired you were. **(chuckles)** Kacchan was working you late again, wasn't he?

Tsk tsk tsk.. He's always been the same.. **(Darkly)** Hasn't he?

(amused) A word of advice though, you really shouldn't head home using the side exits. That shoddy street light makes it easy for any old villain to swoop in on some poor tired sidekick and spirit them into the night~

(a pause)

(pleased hum) Now that...is an adorable face darling. Hard to place really...**(he starts to circle them)** angry, scared...**(he speaks in their ear)** Aroused maybe?

(A shift in the chair and he laughs brightly, slightly unhinged) Hahaha! Oh you still have some fight in you!! I'm glad to see it. Otherwise this interrogation would be no fun.

(Footsteps as he walks to their front)

I could have just gotten the information I want from hacking into the main servers of Kacchan's Agency but....you caught my attention.

(A flick of a blade, slight creaking from leather gloves as he holds it. His voice is low and curious.) Kacchan never works with anyone...let alone taking a sidekick without the Commission twisting his arm and even then, they don't last more than a few days...but you've been with him almost a whole month.

(a shift as he moves in, his voice sounding angry, jealous) So what makes *you* so special huh? I want to know why someone as strong as Kacchan chose *you* out of all people...

(A pause, calmly) Ah ah..don't squirm darling, I just sharpened this knife. Wriggle too much and you might accidentally cut your own throat...then I'll have to deliver a corpse to Kacchan's doorstep.

(Amused chuckle) .. Although.. Imagining the look on his face.. Oh it gives me chills.

(IPensive hum) Wondering about your quirk are you? I can see that look in your eyes. **(amused)** I dosed you with quirk canceller of course, I'm not stupid. I also...may have added something else to it, something to make you a bit more sensitive. A bit more...pliable.

Hmmn..~ You look a little uncomfortable~ Could it be because your costume is a bit...messy between the legs? **(amused)** The aphrodisiac I gave you when I knocked you out is my own creation, I made it to be very effective~ It's one of my favorite interrogation tools. Pain is always fun, but...pleasure is much better for getting the most honest information I've found.

Now that you're awake, I'll just cut this pesky costume open so the method is a bit more...effective~

So hold still darling, I have your legs tied open to the chair but, if you squirm around I can't promise that you won't get cut.

(the sound of fabric being cut, a low pleased hum from him) There we are, how lovely~ **(He closes the knife and steps back)** The look on your face...mm...makes me glad that I'm recording all this, it would be a shame to miss those cute expressions~

I'm sure you've noticed it, by now. The chair you're sitting on isn't quite what you're used to..I wonder if a sweet thing like you knows what a sybian is hm? **(a pause, and a maniacal little giggle)** well...you're about to find out~

(remote click, vibration kicks on) Ohh, look at you *squirm*...how cute. Maybe this is why Kacchan keeps you around? You are quite the endearing little thing, aren't you?

(chuckles) It does have higher settings you know, the more you fight, the higher I take it~ **(another click, vibration goes up a setting sound continues throughout, maniacal giggle)** Now *that* was an exquisite sound. I wonder how long it's been since you've had something like this?? Kacchan keeps you working around the clock doesn't he? You probably don't have any time at all for pleasures like this.. Do you?

(shuffle of papers) Let's see here...According to the schedule, you've been working every day these last two weeks..with...**(A pause, incredulous)** Nine days working overtime? **(Disappointed sigh)** Oh Kacchan...you have to play nice with your things, or you'll break them! He never learns...he was like that when we were children you know? Always playing much too roughly with our toys and ruining things. **(little huff)**

(small chuckle) Oh it looks like you're trying to hold back. You don't have to darling..**(footsteps as he gets closer)** You can cum as much as you like..you don't have to restrain yourself. Besides...wouldn't it be nice to let all that tension out?

Haha, aren't you a strong little hero? Kacchan'd be so proud if he could see you right now. Well...we have all night..the Hero Commission trains its pets to withstand painful interrogation, but they don't prepare you for mind breaking *pleasure*. Hmn~ You'll break eventually~ **(low hum of delight)** And I can't wait to watch..

(giggle) Ah look at your thighs shaking...so cute. Arching your back like that...it's like you want me to play with your chest. Is that it? I could just...touch you like this. Ever so gently. **(a slight shift of fabric)** Haha sensitive isn't it? Like I said, my drug is very effective on the erogenous zones, no matter the gender.

Your nipples, your neck....**(lowly)** Your ears...**(a soft kiss there)** Haha..and of course the most obvious one. Especially if I just...grab your hips and push *down*. Hahaha! **(amused)** You're squirming so much! You must be close already. There's no getting

away from it, just let it wash over you. That's it. **(Soft little hum of admiration)** Wow..~ How was that? Did it feel good? Your body's still shaking from the aftershocks~ Haha.. you made quite a mess~

Such a good little hero...now, how about you tell me what I want to know and I'll turn it down a bit? I know you must be so sensitive and overstimulated, and *oh* those little whines you're making~ Absolutely precious.

Now... Be good for me and tell me Kacchan's new address. I finally pinpointed his last one only to find out he moved.. **(Scoff)** That naughty hero keeps moving around.. Hmn. Probably to avoid punishment for.. Well, that's something you'll find out in time. Blood Riot and I have *plans* for him you see~

Oh is that so..?~ You've heard Kacchan talking about trying to take Blood Riot down? Well.. **(Chuckle)** I'd like to see him try.

But...you didn't answer my question darling, so~ **(vibration turns up a notch)** Care to try again? This isn't even *close* to the highest setting.. **(Darkly, almost serious)** We can do this all night.

(A pause, the sound of the listener squirming)

You can tell me, or I can sit here and watch you cum over and over again..until you black out and then we'll start all over~ It's up to you darling. It might be in your best interest to tell me because.. Hah. Well.. You've only cum once and you're an absolute *mess*...

I might have given you too large a dose of the aphrodisiac.. **(he clicks his tongue)**...ah well, it'll work out of your system eventually. In the meantime, I'm content to watch you unravel for me. And believe me, sweetheart... You will. Bit. By. Bit.~

I'd offer you a drink but I only offer tea to polite guests. Once you start behaving.. I may share some with you. **(the sound of liquid being poured into a cup, he sips it)**

Hm...Your thighs are trembling again~ On the second one already are we? Well...it wouldn't be fair for me to deny you~ **(click, vibration cranks up again)** My my, what a beautiful moan~ **(sips his tea)**

Is it.. That you like being watched, perhaps? What if.. Hmn. What if I sent this video to Kacchan~? What would he think of seeing his pet sidekick squirming and moaning like a whore hm?

(little giggle) I could just....broadcast this right to a news network you know...a bit of typing would be all it would take and the whole city would see you~ Still in your hero costume, all messy and flustered. **(sip, sigh)** Oh come now, you're no fun~

(chuckles) Turn it down? Oh now we're adding "please" to our begging~ How sweet you're learning your manners! I suppose you *can* be trained darling...good news for Kacchan I suppose.

But you know the deal....**(serious)** The. Address. Give it to me now.. Or my switchblade will find its home in your throat. **(Unhinged chuckle)**

Ohhh come on. It was only a joke... I won't hurt you. At least.. Not yet. I'll only consider more.. Drastic measures.. If you don't speak up.~

There is something I forgot to tell you~ **(sip)** Mn. The more riled up you become, the more effective the drug is. As you get more aroused, your blood vessels dilate, allowing it to seep deeper into your system and make you even more sensitive.

So tick-tock darling, you're on a bit of a time limit here...especially since I dosed you with a bit too much~

(sip) You look like you want to say something~ Come on now, use your words. I know it's hard but what is that nonsense that the commission is always trying to cram into your head? 'Plus Ultra'? Hahaha! Oh what a determined face, even with those tears down your cheeks.

(a pause)

Oh?~ Finally giving it up are you? Hmmm... Now that certainly sounds like *an* address...let me see here~ **(he puts his cup down, footsteps)** What? You thought I would take you at your word? Hahaha! I'm a villain, not a moron darling. **(typing on a keyboard)** Hm...tsk tsk tsk...good try little hero, but this isn't a home address.

(amused) You know, lying isn't very heroic~ **(click, vibration kicks up a notch, more squirming against the bonds)** It's actually quite a *villainous* thing to do. **(chuckle)**

You know, I thought this would get boring rather quickly, but you've surprised me. Your expressions, how you *squirm*....it's all rather delightful~ I could watch this for hours....

I can see why Kacchan keeps you around now. He probably wants to see you like this...flustered and needy. **(chuckles, footsteps as he grows closer)** But it seems like I've beaten him to the punch haven't I?

Hm? Now that's something, you're moving your hips all on your own~ How adorable. It's maddening isn't it? To feel so much pleasure to the point of pain and you can't escape it. You're sore aren't you? Awww... I can make it stop you know~

All you need to do is just be good for me.. **(Leans in, his voice dropping to become dark and serious)** And tell me. Where Kacchan's home is. I won't be so forgiving this time if you give me another false lead.

(a pause)

(chuckles) Goodness you said that one so quickly I barely heard it. One more time darling, don't stutter~ Alright, let's see if you're telling the truth.

(footsteps, typing noises) Hm, now this looks more like it~ It's certainly a home address in the area...I'll have to investigate it when I'm done playing with you. **(cooed)** What a good little hero, I knew that you'd see things my way. All it took was a bit of.. Coaxing.

Since you were so good.. I'll give you a small break. **(click, vibration turns off)** Oh? **(amused)** I thought you'd had enough? You look frustrated~ Were you going to come again, darling?

Well... Since you obeyed me. I suppose I can give you that last push you need... Something to nudge you over the edge.~ **(footsteps as he walks over)**

Look at you, such a mess, your hips are trembling.. You're grinding all on your own, even without the vibration. You look as though all it would take would be a touch to make you come undone. **(his voice low and husky)** How cute...here then. Since you were so good for me..I'll let you use my hand how about that hm?

Haha looks like you enjoy the feeling of my gloves against your body..you're arching up into my hands. Well I'll leave them on just for you...a reward for my good little hero~

(slick noise as he touches them gently, rhythmic sounds as he strokes against them for a bit, noises throughout dialogue)

There you go, is that what you needed? Just that bit of warm friction...maybe a kiss right...here on your neck. **(kiss)** Maybe even a bite on your ear? **(nip)**

(closed mouth chuckle) Ahh that was it. Look at *you*~ you cum hard, I'm impressed.

Now I hope for your sake that the address you gave me was the right one~ If not...well...we can repeat this little meeting as many times as needed until I get what I want.

(pleased hum) So messy~ How adorable. **(footsteps as he moves away, the sound of liquid being poured into a cup. Footsteps as he returns)**

Here we are, tea as I promised. Sip it slowly now darling. It's just the perfect temperature so it won't burn your mouth.

(soft sips from the listener) That's it. Look at you so sweet and obedient now~ Ah, it's a shame I can't keep you for myself. **(sighs)** We could have such fun together...**(muses)** If you reacted this way to just myself and a camera, I wonder what you would have been like in front of a whole *club* full of people~

(chuckles) Hmm that little hitch in your breathing tells me everything I need to know. Who knows it might come to that one day~ **(he sets the cup aside)** Now we wait~

(a pause)

For what? Oh! For the sleeping drug to kick in of course~

(giggles) Oh the look on your face! I'm *kidding*....

(unhinged and amused) it's actually an amnestic~

(coos) You're going to wake up clean and tidy on the front step of Dynamight's agency with no clue of how you got there and no memory of tonight but...I'll remember~

(his voice grows softer, the listener fading fast) And don't fret, I'll make sure your costume is fixed before I leave you there. You have to be presentable, no need to spark any unwarranted concern after all~

I'll keep the recording as a souvenir, and don't worry...despite what I said before, I'm a bit greedy. There are certain things that I don't like to share...Kacchan being one of them but...I can make an exception for you little hero~

Now sleep tight darling and thank you for your cooperation~ **(unhinged laugh that fades out)**
