

D20 SHADOWFELL TRINKETS

Scroll of Revelation #093

IN THE SHADOWFELL YOU FIND...

1. **{Blanket}** Lost by a child who hid under their bed from the monster in their closet and got pulled into the Shadowfell.
2. **{Candle}** Its wack is a greenish pale color and sweats a cold, salty oil. Even when not lit, rancid smoke rises from its wick.
3. **{Note}** Tattered and delicate. Written in crusty blood across both sides is someone's hopes and dreams.
4. **{Raven}** Dead and missing most of its feathers. Stuffed into the back of its throat is a ticking pocket watch.
5. **{Incense}** d6 colorful incense sticks with bland smells. Anything their smoke touches loses its color.
6. **{Jar}** Full of pale, shriveled worms that squirm miserably through a mixture of dirt and human excrement.

7. **{Component Pouch}** Mixed inside this slightly damp pouch are various fingernails, dandruff flakes, and teeth.
8. **{Comb}** Expertly carved from wood to resemble a vampire count with flakes of scalp flesh stuck in its teeth.
9. **{Shield}** A rusty shield shaped like an ogre's face. Etched across its back are the names of everyone it's failed to protect.
10. **{Scarf}** Made from carefully cut lengths of dwarven flesh and stitched together with thread woven out of dwarf beard hair.
11. **{Box}** A tiny box made from ghostly pale wood and sealed with beeswax. Trapped inside is someone's final breath.

12. **{Rosary}** If you look closely, each of its beads are stolen from the rosary beads of murdered priests of different faiths.
13. **{Flint and Steel}** The fires it sparks up always burn black and reek of burning flesh and hair.

14. **{Ring}** Made of polished bronze with 3 shrieking orc heads made from green gemstones set across it.
15. **{Arcane Focus}** A fragile wand made from 5 different finger bones held together with a single length of barbed wire.
16. **{Vial}** A shrunken gnome head with corks in its eyes, nose, mouth, a gnome that can be used as a potion bottle.
17. **{Satchel}** Tall and narrow with the intended purpose of carrying maps, or scrolls. Inside are 3 human femur bones.
18. **{Amulet}** Hanging from a thin chain is a clay figure of a featureless, expressionless, colorless humanoid.
19. **{Shovel}** Unremarkable in its design, but its blade is covered in scratch marks from the person it was used to bury alive.
20. **{Ram Skull}** The flesh has been picked clean, but its eyeballs are unharmed and manically look around within the sockets.
