

SLAVEQUEST

Since the start of the game is mostly world building there aren't as many choices that matter as later in the game.

Stats

Lust increase with story events, scenes and certain gifts. It unlocks more options in repeatable sex scenes, sexier cam scenes (and thus cam revenue) as well as picking naughtier names to call Shar during sex or when she's undercover. **Lust will decrease every night and after training, the higher the lust rank, the more you lose.** So be sure to give the girls lots of attention and gifts to keep them nice and horny ;)

Corruption only increase with story events. It unlocks more scenes (Sex training, Plumber training and night scenes), allows for naughtier clothes and gifts as well as change what you call the girls (and they you) during sex. Who knows if you corrupt them enough they might even send you some naughty pics ^^
