Man into Female Wolf Transformation Story | Unwilling | NSFW | 1st PoV

I was walking home from work. The day was as boring as ever and I thought I would soon enjoy a beer in front of my laptop. I had no idea how wrong I was. I heard loud footsteps behind me, but before I managed to see who was following me...

I was hit in the back of my head by some hard blow and I immediately passed out, so I had no clue what happened afterwards. The person or people who attacked me have taken me into some dark car and transported me into a strange, shady building complex.

I came to in a cold room that was more of a prison cell with low standards. Naturally I was afraid, but I saw no way out and I have guessed that screaming was pointless. I started making a plan in my mind to manipulate my captors by submitting to them and doing what they'll tell me to do. I had no idea what they meant to do to us after all.

I stood up and walked up to the door. „Is anyone there? I just want to ask a few questions. I'm sure we could sort things out!” - I said nervously. Then I heard a beep above me. I looked up and gasped as I noticed a camera.

I quickly forced myself to calm down, I had a plan and I needed to follow it to have hopes at survival in this place. Deep inside I hoped it was just a dumb TV show, a sort of prank on me.

I was proven otherwise when I heard the locks in the cell door buckle. A tall man entered the room, I took a step back. He looked up and

asked through his phone whether the cameras were working. I wondered why, but I tried to keep acting cool.

„Uhm- H-hi? Who are you sir? May you please tell me why am I here? I-I must admit I'm getting goosebumps from just the room alone.“ – I stammered. The man didn't answer and took out a syringe from the case he had with himself. I gulped.

„P-please don't tell me it's for me. At least tell me what's in it, damnit! This has to be illegal, I did not consent to this!“ - I started freaking out as the man started walking in my direction. This was either a really high budget pranking show or my worst nightmare for real.

I yelped in pain as I felt the needle pierce my flesh. The warm liquid began to seep into my circulatory system. „Oh God it burns...! N-hah!“ - I exclaimed and fell down onto my knees from the shock. This was all too real. What was going to happen to me?!

The man with the case gave a nod at the camera and left me just like that. I reached out a hand after him. „P-please, don't leave me here...! Tell me what was in that syringe! Ahhh!“ - I exclaimed as my body started to heat up heavily.

I decided to take off my shirt, undress despite the camera obviously watching me. The heat was slowly overwhelming me and I was starting to feel overly fatigued from whatever I was injected with.

I threw my shirt onto the floor and gasped as I realised several strange things. First was the fact that the hair I had on my chest and overall torso started detaching and falling onto the floor below me, which only increased my worries.

I examined myself further and noticed that the hair from my arms also started to loosen and fall out. Did they inject me with some experimental cancer treatment serum?! I struggled to stay silent as I felt more strange sensations all over my body. I soon saw the hair from my scalp fall out as well and leave me completely bald.

I clutched my head, but continued to look down at my chest and stomach as my nipples started to itch strangely. I felt them start to tighten and shift into something inhuman, worse yet I saw many more bumps appear underneath the original ones.

„Oh fuck! I'm developing m-more?! What the fuck is happening to me?!” - I shed off the farse of trying to act submissive towards my captors, I was freaking out and I didn't intent do hide it any second longer.

I touched one of those nipples and bit my lip from the surge of pleasure that surged towards my groin. „Oh no... No-no-no...” - I muttered as I felt the organs inside me start to rearrange and change shapes.

I felt something hollow forming above my groin, connecting itself to it. I closed my eyes as I suddenly felt my testicles clench and force me to humiliatingly wet my underwear and jeans, which was of course thanks to the serum nonetheless.

My face flushed red and I looked up at the camera blinking at me with the red light. I opened my mouth to say something, but I only managed to let out another moan as my scrotum abruptly tightened. My testicles were gradually forced to pull up and deeper into me.

„Oh-Gh-fuuuuuckh...!” - I screamed as my empty balls started turning into ovaries and repositioning inside me. I panted hard and sweated

profoundly as I began to undo my pants in despair. I knew what I felt, but I didn't want to believe that it was true, that my testicles were truly gone.

I lowered my jeans and underwear down to my knees and I bent over to see. My eyes widened as I noticed my stiff manhood, throbbing painfully and leaking remnants of my masculinity. What was more unsettling was the fact that I saw the length decrease with each passing second.

I stared as my rock-hard cock gradually sank deeper into me, until only a nub was left, that soon was forced to pull up into a forming slit. I continued to pant lewdly as I stared at my feminine groin. „F-fuck, I-I have an actual... It can't be real...!“ - I pleaded, but instead my slit continued to stretch.

It certainly looked human at first, but then things got even worse. I saw the sensitive, pliable flesh puff out. The vulva was becoming inhuman in shape, the shape of a canine spade, of a bitch in heat. I was trembling as squeezed my legs together and the needy orifice oozed out feminine juices.

„Fuuuuck-hn... Nh-ahhhh! I have... Oh fuck-fuck-fuck...“ - I freaked out completely as I stared at the decisively canine cunt I now sported. Nothing of my former human self left there. I muttered out incoherent phrases as I stared at my groin. My pubic hair was gone too, replaced by strangely thick grey strands of hair.

I started crawling towards the sink to get up, because I felt too weak to do it normally. As I did my body started creaking painfully and shrinking slightly. My jeans and underwear slipped off me and left me completely naked if not for the brown, black and grey hair which started enveloping my entire form.

„Ghh- So fuckin' itchy... They must have drugged m-me, fucking bastards....” - I groaned in denial as I rested my hands on the wall in front of me. I started climbing it and attempting to stand up, but just as I lifted my upper body I was forced to open my mouth wide by an unbearable pain in my spine.

I arched my back as my vertebrae started popping in a line over my back, becoming more visible and locking me into a more feral position. „Gh-rah! Fuck sake! N-no... I can't get up, can't get up!” - I exclaimed pitifully as I tried to straighten up.

I shuddered as my hips started squeezing inward and becoming narrower, forcing my legs into quadrupedal stance. My shoulders started grinding against my torso as they became narrower and locked my arms into more restricted positions.

I scraped at the wall with my fingers, trying to get up, but that only rewarded me with pain coming from my fingertips. I stopped to look at my hands and my jaw dropped when I saw my fingernails detach as new alternatives began forming underneath. Dark, canine, curved claws started to stretch my flesh as they grew.

I kicked my feet from discomfort as they started lengthening and my toenails started to loosen as well. I hit the wall with both hands and screamed from helplessness. „Fuuck! Why is this happening to me...!? Why am I becoming a God-damn animal!? Nothing more than a simple- A s-simple b-bi-„ - I didn't finish as saying that just made me more self-conscious.

I felt my vulva throb with anticipation as it kept rubbing against my morphing upper legs. I moaned occasionally and a single tear appeared on my shifting face at the realisation that I was becoming a

female canine of sorts.

My head was starting to hurt more and more as my transformation progressed. I tried to clutch it, but I wasn't able to thanks to how much my arms have changed by now. I just flailed my arms madly as my skull started flattening and forcing my brain to alter inside.

I tucked my head between my knees and screamed from the agony as my face started stretching into a carnivorous muzzle. My jaws began to march forward and my flesh was barely able to catch up with the elongating bones.

My human teeth clattered onto the cold floor along with my blood and saliva as new dentition began to writhe out of my gums. I snarled as my sharp and resilient fangs pushed out of my gums and stretched my maw painfully as it had some growing to do yet.

I blinked dumbfounded between ragged breaths as my ribcage abruptly tightened around my lungs. My chest was becoming rounder and my stomach was becoming less defined and more streamlined.

I closed my eyes as they started burning. My irises turned yellow and as I opened my eyes again I realised that the room was even more muted in colours than previously - I lost some colours from my vision to my horror.

My ears were growing longer and more pointed. My nose was already altered highly at the tip of my muzzle. I felt it become moister and I saw it turn completely black just like my lips.

I collapsed onto my side and panted hard as the rest of the changes wrecked my body. I spasmed multiple times as a bump started to form at my tailbone. I felt it grow longer and more defined as it

slowly stretched out into a full-fledged tail.

The mixed grey fur all over my body became denser. My feet slowly became more similar to canine paws than regular feet. I felt my flesh bloat underneath the tiptoes as my paw pads took form. I wasn't even able to bend my hands enough to see my palms change similarly. I just felt numb sensations as the undersides of my hands puffed out into dark protective pads.

I whimpered seeing my thumbs become completely useless and unmovable digits. I was now completely a she-wolf, but I was too exhausted to freak out about this. I just wanted to pass out, but instead I heard the door open again. Then the same man from earlier came in and looked down at me.

"Good. Seems like the serum worked rather fine, but we'll have to examine you in more detail to make sure." - He said coldly as he crouched down in front of me. I've let out a pitiful whine as I attempted to get up and get away from that insane person.

My altered legs got tangled up and I fell over clumsily. The scientist sighed and then whistled sharply. A lanky man entered my cell. I was worried about what they were going to do to me. The two of them lifted me up and placed me on the flat bed.

I felt too weak to escape them as they started examining me. They touched all my paws, forcefully opened my mouth, but the worst was about to come. The scientist poked my abdomen and I instinctively growled at him, albeit quietly, knowing that I wasn't able to afford to be more defiant in my current position.

„Shut up and get onto all fours... NOW!" - He yelled at me and my ears folded back. I slowly and quietly got up, only to feel the man lift

up my tail and look underneath it like a veterinarian. I froze in dread as he started inspecting my throbbing spade.

I was too humiliated to move at this point, I just stood there as the man grabbed my legs to see my cunt better. It felt like an eternity, but in reality the man only took about few seconds to make sure that I was fully transformed there.

The scientist got up and started clapping slowly. The lights on the camera started switching on and off rapidly, before they turned off completely.

"DNA reconfiguration was a complete success - The male subject transformed into a female eurasian wolf without any complications. Derek, inform our dear boss about it." - The scientist said and the lanky man next to him nodded. Then the two of them exited my cell, leaving me trembling on the table.

I've let out a single whimper and curled into a protective ball. Despite the horrors I went through I felt really tired and sleepy. I wanted to fall asleep, I wanted to ignore my dire reality - The fact that I got turned into a simple wolf...
