

Commission: The Bra - Write up

Written in first person (I did X), John is a 18 year old still living at home, he has a huge boob fetish, so much so that he would love his own. His mum is incredibly busty, often John has caught himself wishing he could have boobs as big as her. He doesn't know her size but one day after getting particularly worked up he sneaks into her room to check her bra's to see what size she is. Raiding her drawers he finds her bras and a massive dildo tucked away at the back. He reads the label. PP cup. He shudders, his already semi hard dick becomes fully erect. He puts the bra on, he wants to visualise the size. He starts to feel funny, a tightness in his chest. He looks down and is shocked but incredibly turned on to see his once flat chest is growing. Within 30 seconds he starts to fill the bra cups. Stroking his dick wildly as the expansion takes hold. He notices his mums pink lipstick and a box of cigarettes, quickly applying the bright pink lipstick to himself and putting a cigarette in he looks in the mirror. "As big as mum..." he smells... smoke. He looks at the cigarette in his mouth, its not lit. *Shit its mum!*

He turns quickly to leave but his huge boobs crash into a soft pillowy expanse, his mums own massive tits. He falls backwards and looks up at his towering mum, a lit cigarette draped in her lips.

"What have you done."

She chastises her son about smoking HER cigarettes and asks him to explain himself, he does and then asks why she is so possessive over her cigarettes.

She loves smoking and she loves the looks she gets because she smokes, the lustful look of a cigarette dangling causes onlookers to stare at her plump lips and big tits. She loves the attention. She has noticed his gaze on her multiple times when she has a cigarette in her mouth and she loves how he looks at her too

She then shows him how to deal with huge boobs and how to get around with them, she books in a doctors appointment and starts him on hormones to make him more feminine. Mum has a small amount of magic about her that helps accelerate the hormones which make John look extremely feminine for a trans girl. Joanne as they now go by keeps their dick and is now a she.

Joanne is incredibly turned on all of the time, the focus of her desire are huge boobs, the constant stimulation causes her to start to lactate. She meets up with an old friend that knew John, they have a fun night together with some big toys.

Pink lipstick, pink nails, Brown Curly hair for both mum and son
