It's not like I don't like you but...

But WHAT?!

She's taken DORK!

Now leave! Else I rid you of your filthy member!

EH!!

She's cute when she's angry~

*Not only are you pregnant, but you're also a doll! If anyone discovered that you came to life, they would take you away from me!*

*I... I know b-but I'm sure if we do it one more time!*

*Ah... So that's why you came. Fine, but let's make it quick. Go on, bend over.*

*I know you've been transforming more and more into a real girl, but we don't know when it will happen completely, so we need to be careful.*

And with that...

**Alice** eventually became a real girl, her memories of the past gradually blurring, except for one steadfast anchor: her love for Lily. Occasionally, she is troubled by dreams of another life, one where she lived as a man. Despite these unsettling visions, she dismisses them as mere nightmares...

To be man... What a dreadful thought.
