PANEL 1

Full width panel, set in the royal hall. Heather is entering from an impressive double-doorway, looking regal in her white dress (nipples and aureolas showing) while she is announced by a royal servant. Around her, a few noble couples applaud at her arrival. She's touching her forehead with her fingers, looking down at her toes in despair and gritting her teeth.

Caption: Shortly after, at the dining hall.

ANNOUNCER

("Princess Heather" in giant pink letters)

Announcing... PRINCESS HEATHER!

HEATHER

(thinking)

GAH!!!

HEATHER

(cont'd)

It's getting WORSE!

PANEL 2

Close-up on the banquet table where (at right) Alberta is already sitting. Heather (entering from left) is motioning for Alberta to scoot a bit further to make room for her. Alberta (in this reboot) has a fairly feminine face, but dresses like a boy (like Prince Albert pre-reboot). She doesn't have very big boobs, but we see they're there. She leans away from Heather, looking at her sister with raised eyebrows.

HEATHER

Make some room, will you?

ALBERTA

Oh, there you are. I was worried you'd be late.

HEATHER

A princess is NEVER late, Alberta. Nor is she early. She arrives precisely when she means to.

PANEL 3

Zoom in on Heather alone. Elbows on the table, she's holding her head and looking straight ahead. Her eyes are wide with despair. A couple of beads of sweat roll on her forehead.

HEATHER

(thinking)

This is the WORST! I can't let anyone find out how HORNY I am. I'll be HUMILIATED!

PANEL 4

Similar layout to Panel 3. Heather has regained her composure and is looking maliciously at Alberta. Full-on BITCH MODE!

HEATHER

So THIS is what you're wearing for your own EIGHTEENTH birthday party?

ALBERTA

What's wrong with my clothes?

HEATHER

You look like a MAN! You should embrace your femininity!

PANEL 5

Headless torso shot of Heather, whose boobs are DEFINITELY indecent and completely immodest thanks to the clingy dress. Nipples, aureolas, everything's visible and there's no doubt what gender SHE is!

ALBERTA

(from off-panel)

I think you're embracing your femininity enough for the BOTH of us.
