

No touching the nano-doll!
What fun is that...its nice being
the boss. I get to play with the
new toy!

You are...very generic. I think I
can fix that...this control unit
should let me mold you into
anything I want

Hmm, you are like a lump of clay
and I am the master sculptor.

Lets start with your complexion.
you look kind plain in all
white.

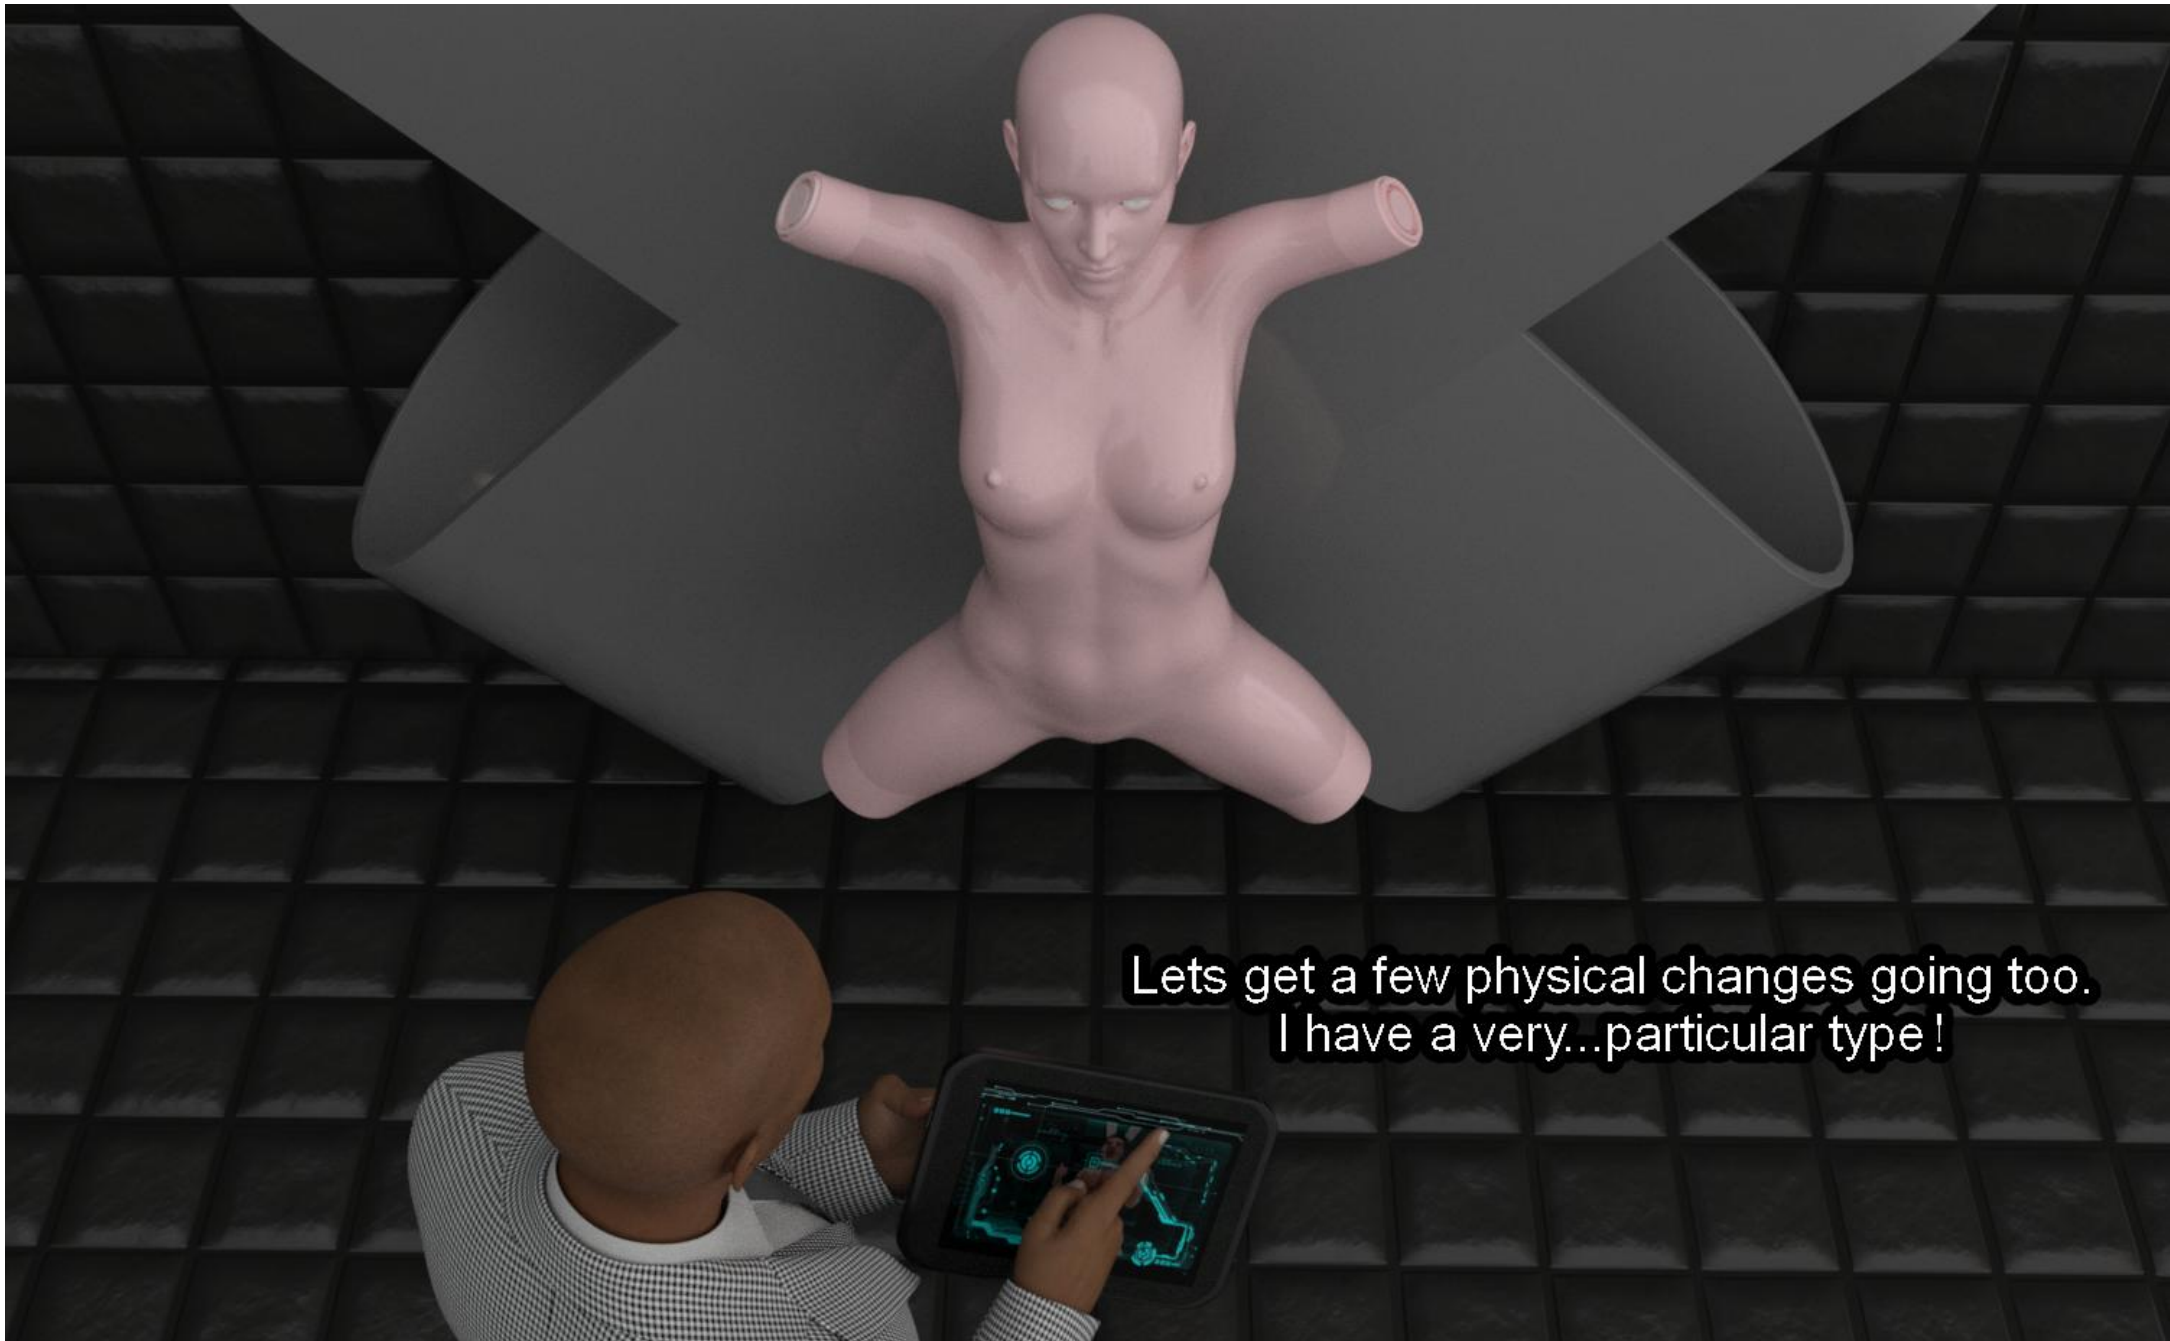

A little bit of color goes a long way!

A man in a grey checkered suit stands in a dark room with a wall of black acoustic foam. He is holding a tablet and pointing at a glowing blue interface. In the center of the room, a large, pink, featureless mannequin stands with its arms outstretched. The mannequin is positioned in front of a large, dark, geometric structure that resembles a stylized 'X' or a large letter 'K'.

Its amazing how quickly the Nano-doll morphs to a new form. It happens before your eyes!

Lets get a few physical changes going too.
I have a very...particular type !

See, You are looking much better!
Those blue eyes really make you
look...well, alive!

There we go! Why would I want you
to have the genitalia of a Barbie doll?

Lets start ramping this up... See just how extreme I can push your design!

A man with a shaved head, wearing a grey and white checkered suit jacket, a white shirt, and a grey tie, is looking at a pink, humanoid robot. The robot has a smooth, featureless face with large blue eyes and is sitting in a black chair. The background is a dark grey wall with a grid of square acoustic panels. The man is holding a black tablet with a glowing blue interface.

There is not a single part of you that will remain unaltered...not that a thing like you would ever care!

Damn, those are some great tits...
and the nipples I can bolt onto you!
Chefs kiss!

I wonder the scientists don't don't want me touching it...Probably don't want any finger prints on their fancy toy!

Fuck it, I am corporate! I get to do whatever I want...I know better than these guys...its product testing!

Still, better be sneaky about it... this thing is costing us an absolute fortune to put to market!

Alright. I am completely alone.
Looks like the staff is out to lunch.
This is perfect!

Let those titties to stop growing...Nice!
If they feel as good as they look...
we are going to be rich!

Let those titties to stop growing...Nice!
If they feel as good as they look...
we are going to be rich!

Damn scientists are always slowing down progress with...caution! What do they know anyway!

• Whoa, what the hell...she isn't even solid...I can thrust my hands clean into her! WEIRD!

Ok, now she is getting firm... too... firm.
Hey...let go of me...Fuck, its pulling
me into her!

OH, fuck. Oh, fuck. Umm.
HELP, is anyone there. Please,
I need help like...NOW!

What is this thing made of
I feel...IT! Like a new layer
of skin...this can't be good.
**HEY, ANYONE...HELP
ALREADY!**

Just stay calm...they will be back
any moment....any minute now....
any second now...GLUK!

GLUK...GAG...GASP...
Fuck...it encased me...but I can
kinda move...Fuck it feels
trippy...feels fucking
sexy

Can't fight it...can't...find...my
limbs...Holy crap...its nipples
are so sensitive...My dick...
is getting ...rewired...

Its getting hard to move...
even my tongue is getting sluggish.
Fuck...I am spreading my stumps!

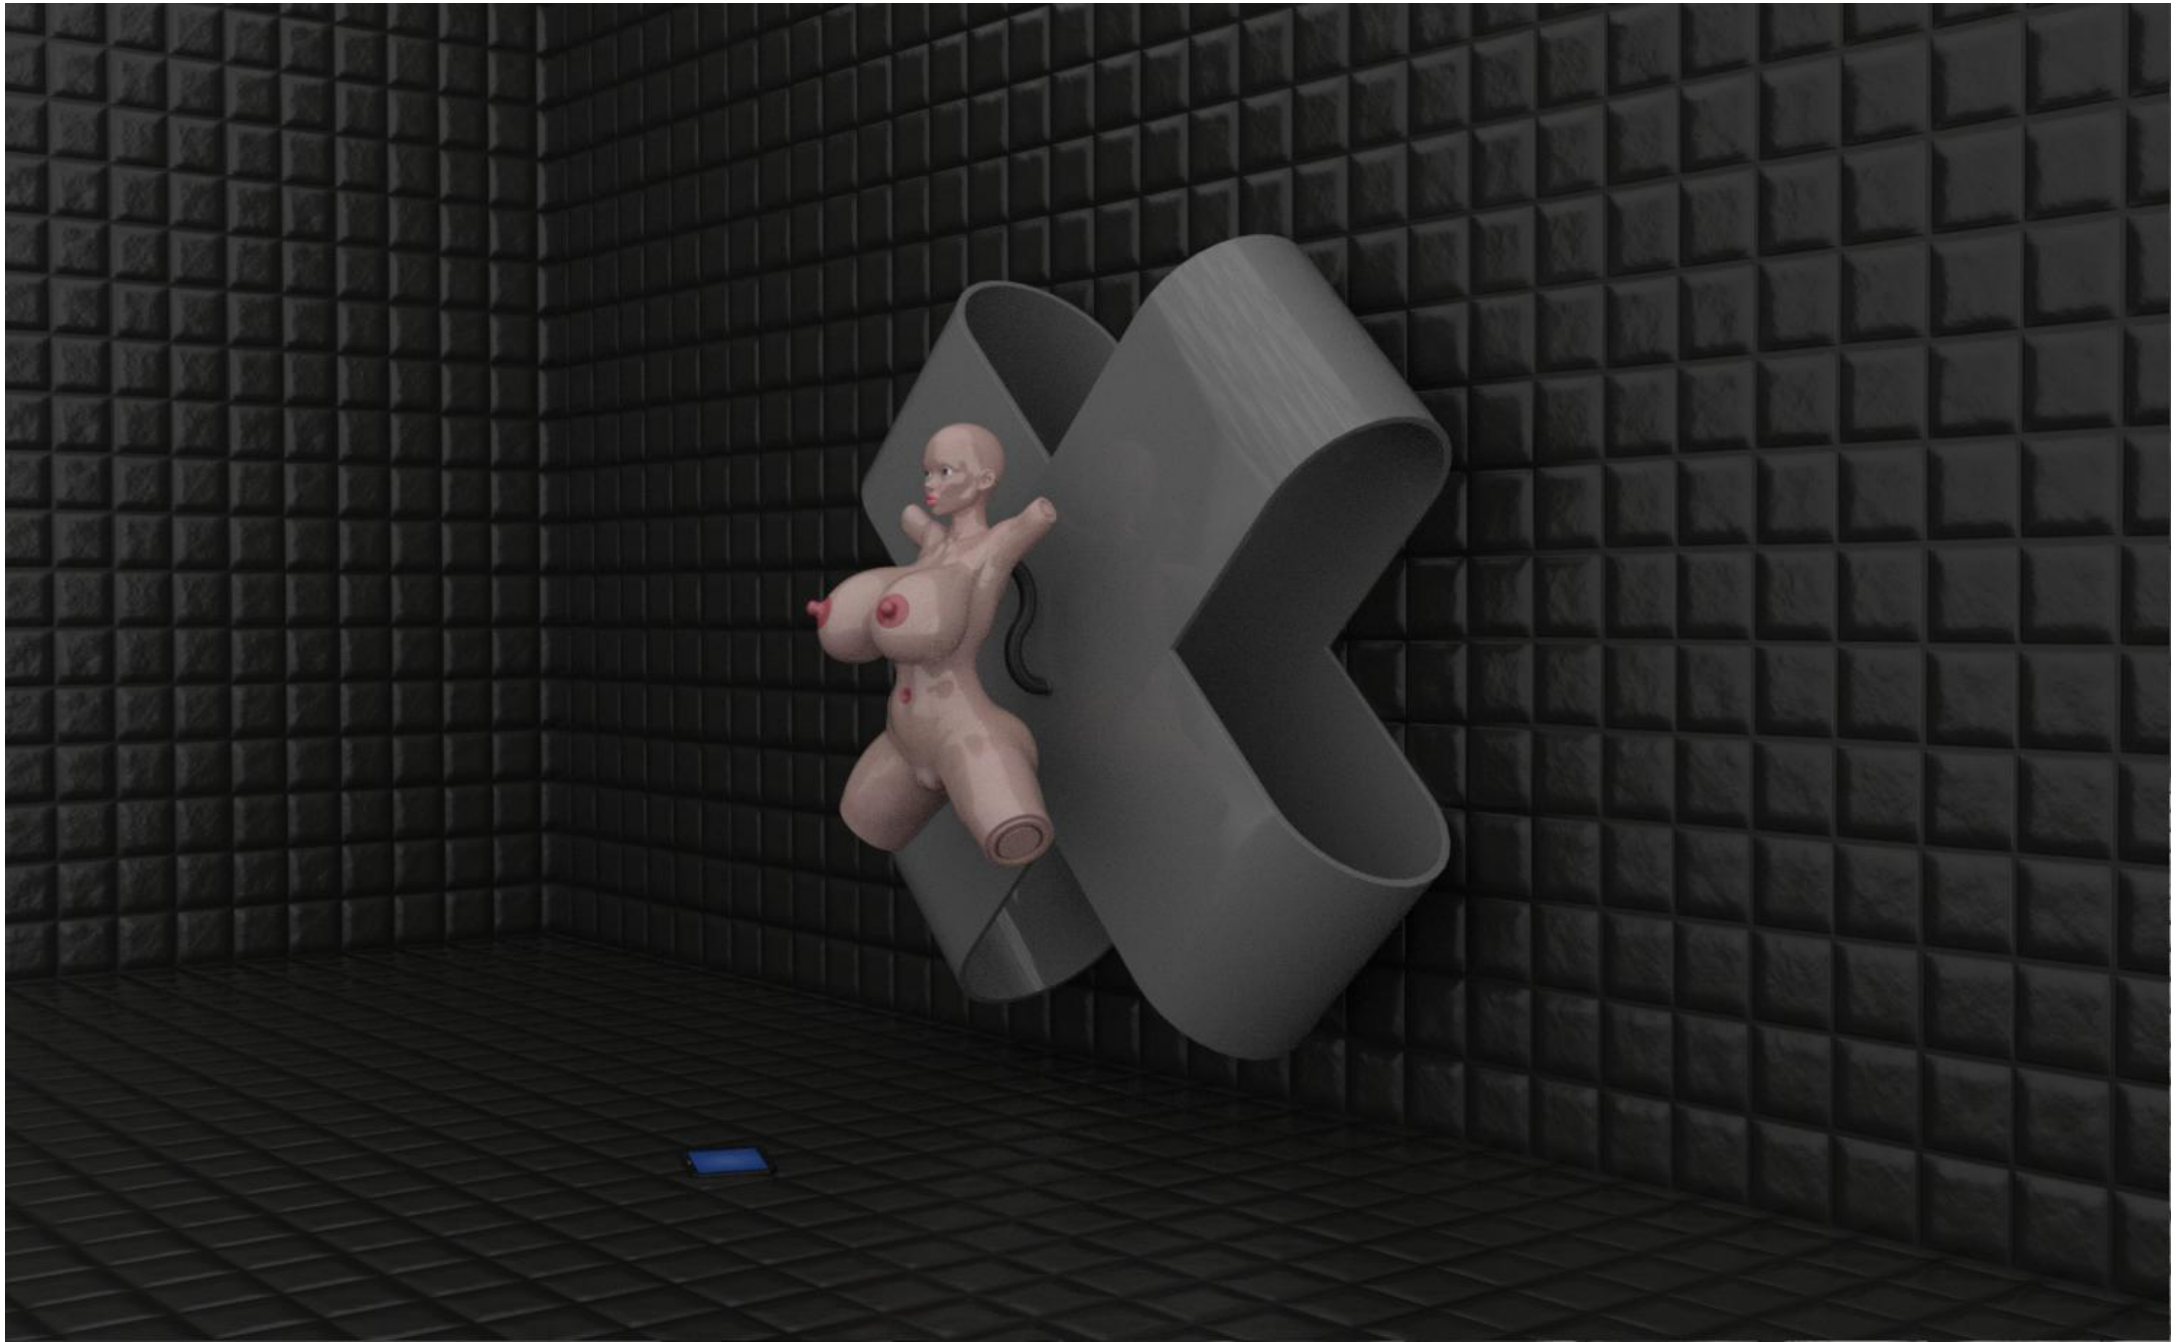

Am I...Mute...fuck...Ok, stay
calm...I can signal with my eyes
bink in code...They will fix this!

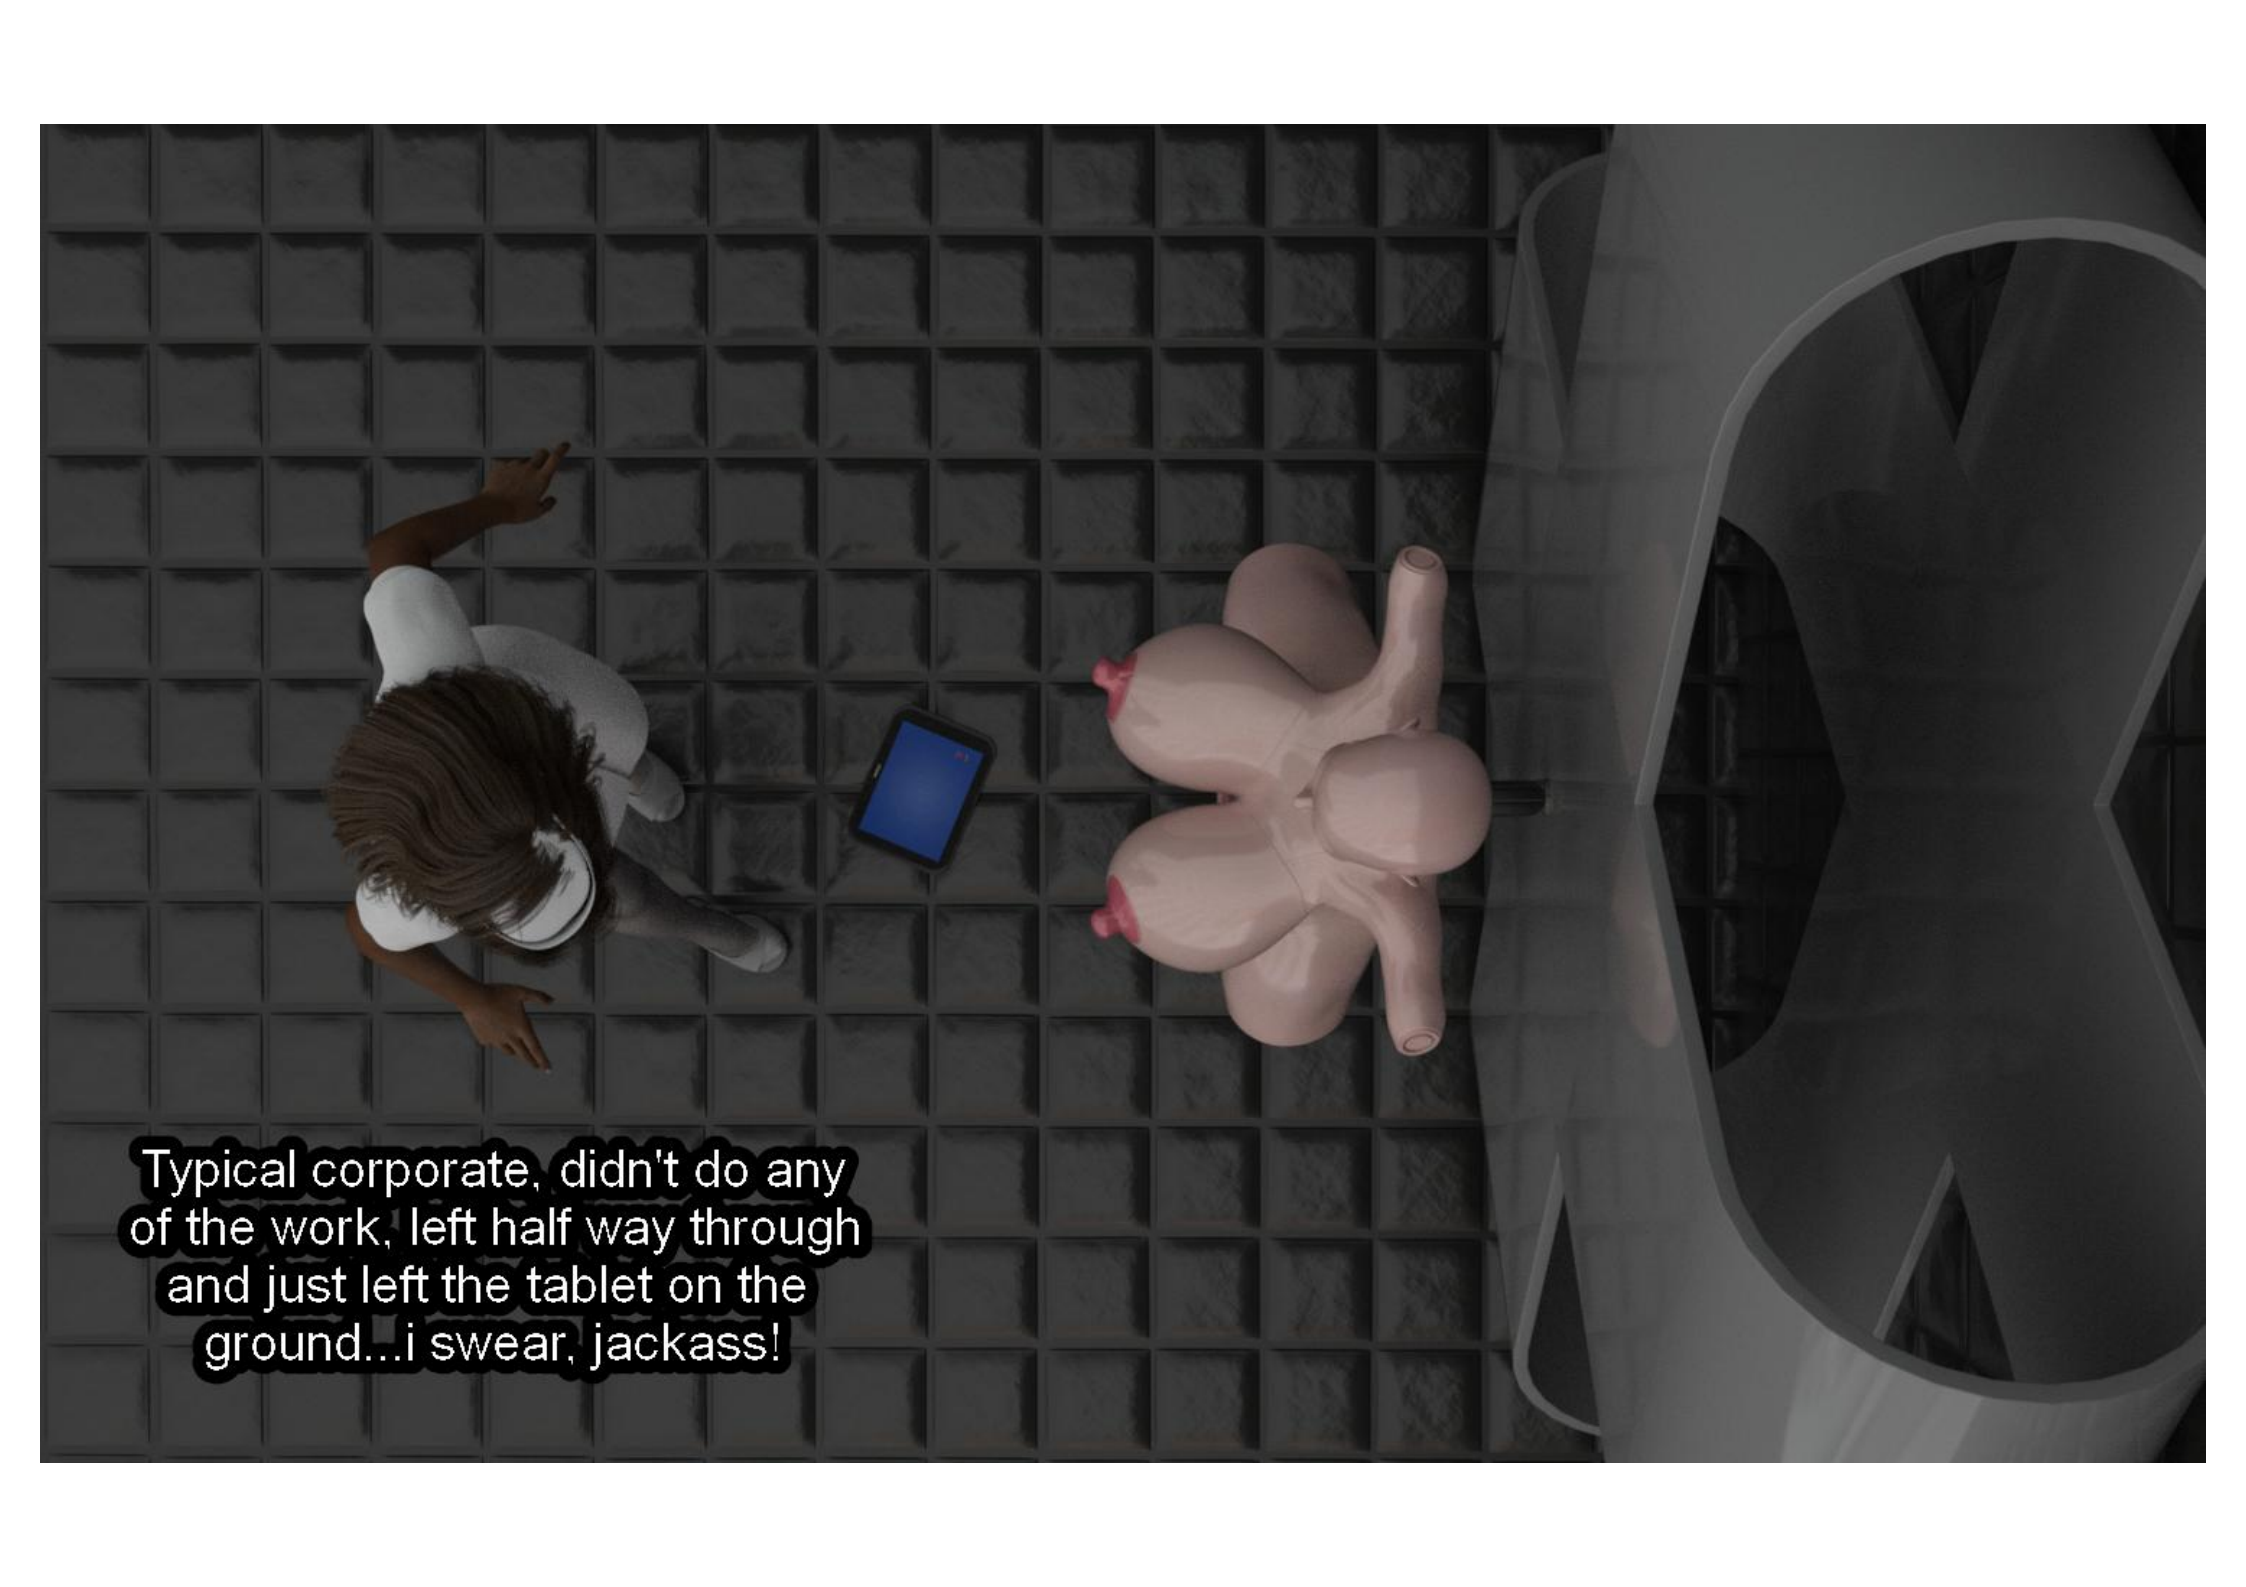

They took too long! I can't even blink...my eyes are locked straight forward...how will they know...I AM HERE!

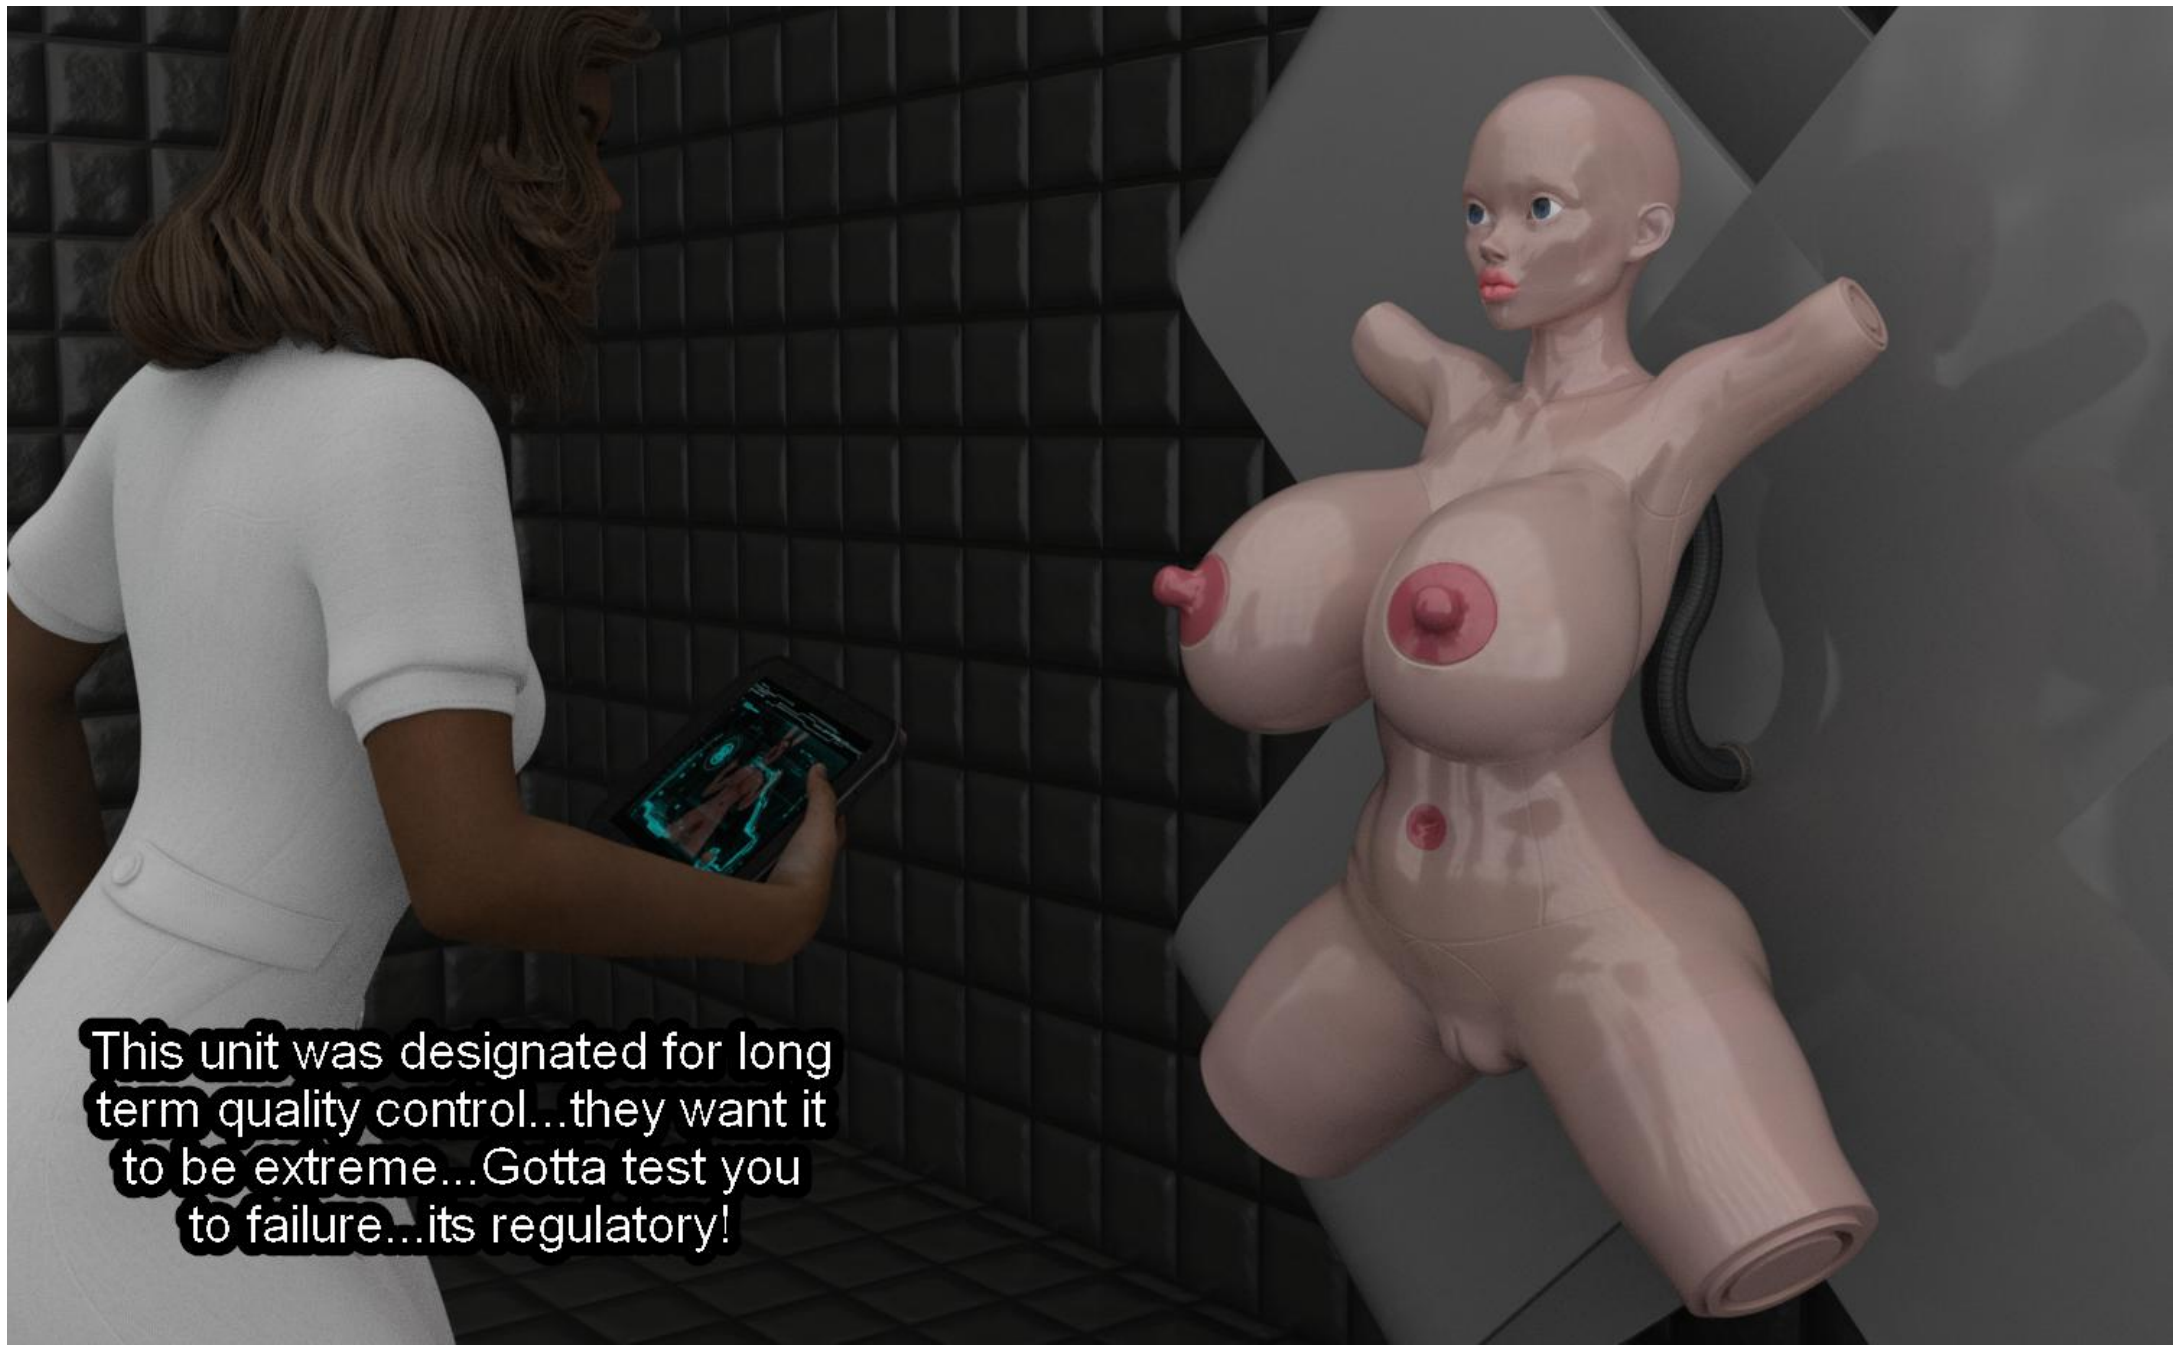

Hello, Mr. Morris are you still checking out the NANO-DOLL. Guess not, must have already caught the private jet back to headquarters!

Typical corporate, didn't do any
of the work, left half way through
and just left the tablet on the
ground...i swear, jackass!

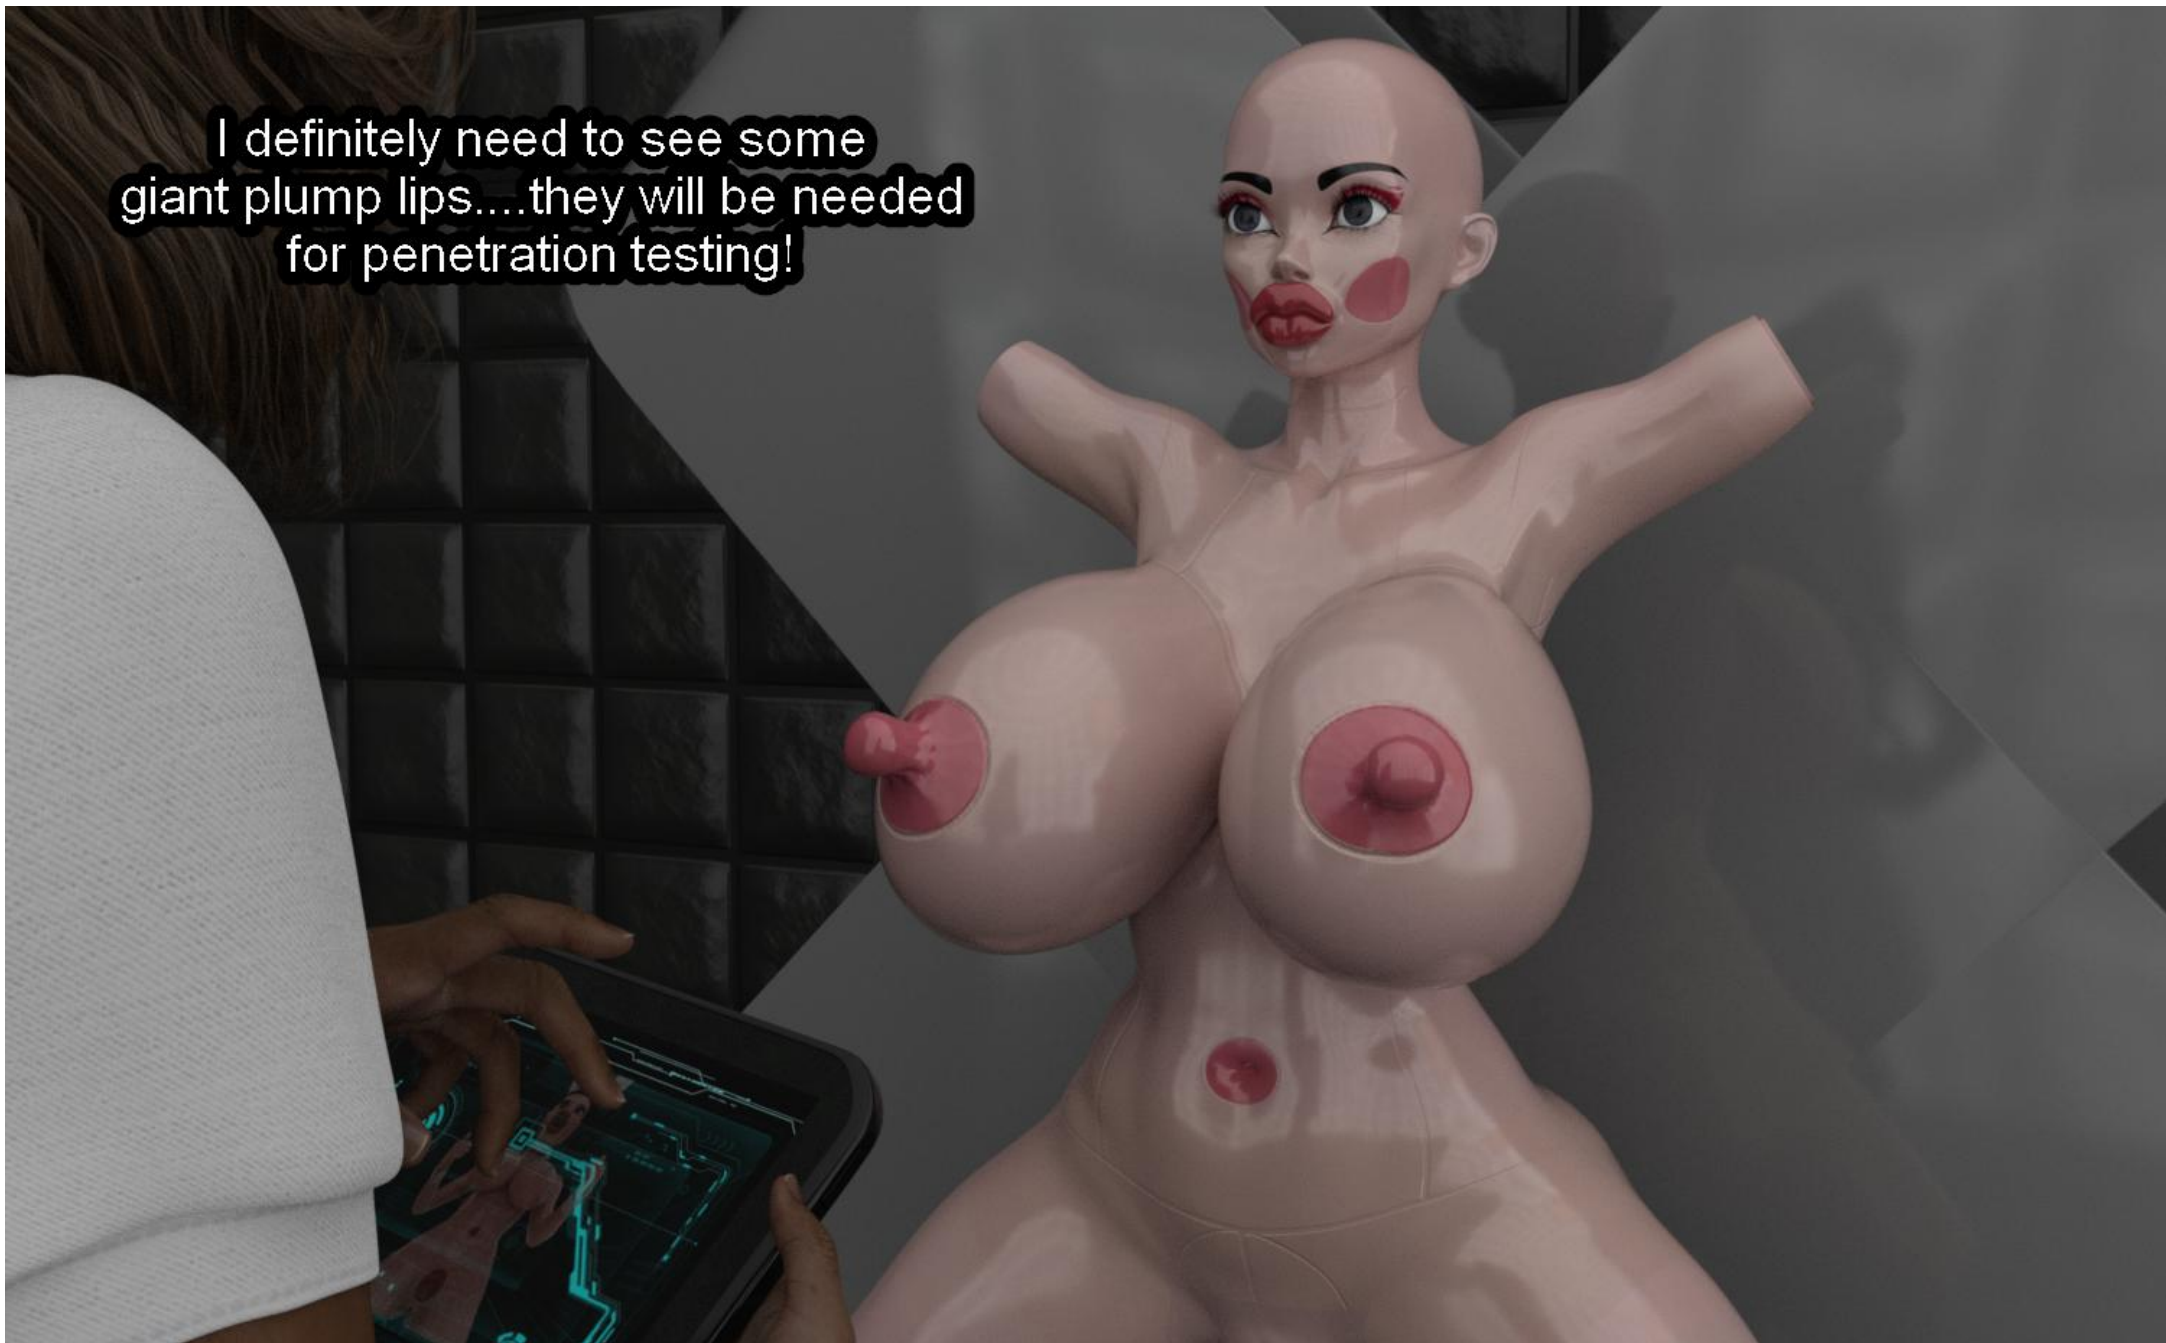

This unit was designated for long term quality control...they want it to be extreme...Gotta test you to failure...its regulatory!

First, lets just get your makeup installed...Now you are looking all DOLLED-UP. HAHA

I definitely need to see some
giant plump lips....they will be needed
for penetration testing!

Bigger and bigger tits, I need them swinging for bounce testing...lets perma fix those lips to open and inviting!

You are looking just obscene!
We better get a move on before the
nanobots harden and you
become permanent!

Those fat pussy lips are just too funny.
Mr. Morris should have come after
you harden...then he could have
touched...lets be honest...could
have fucked you!

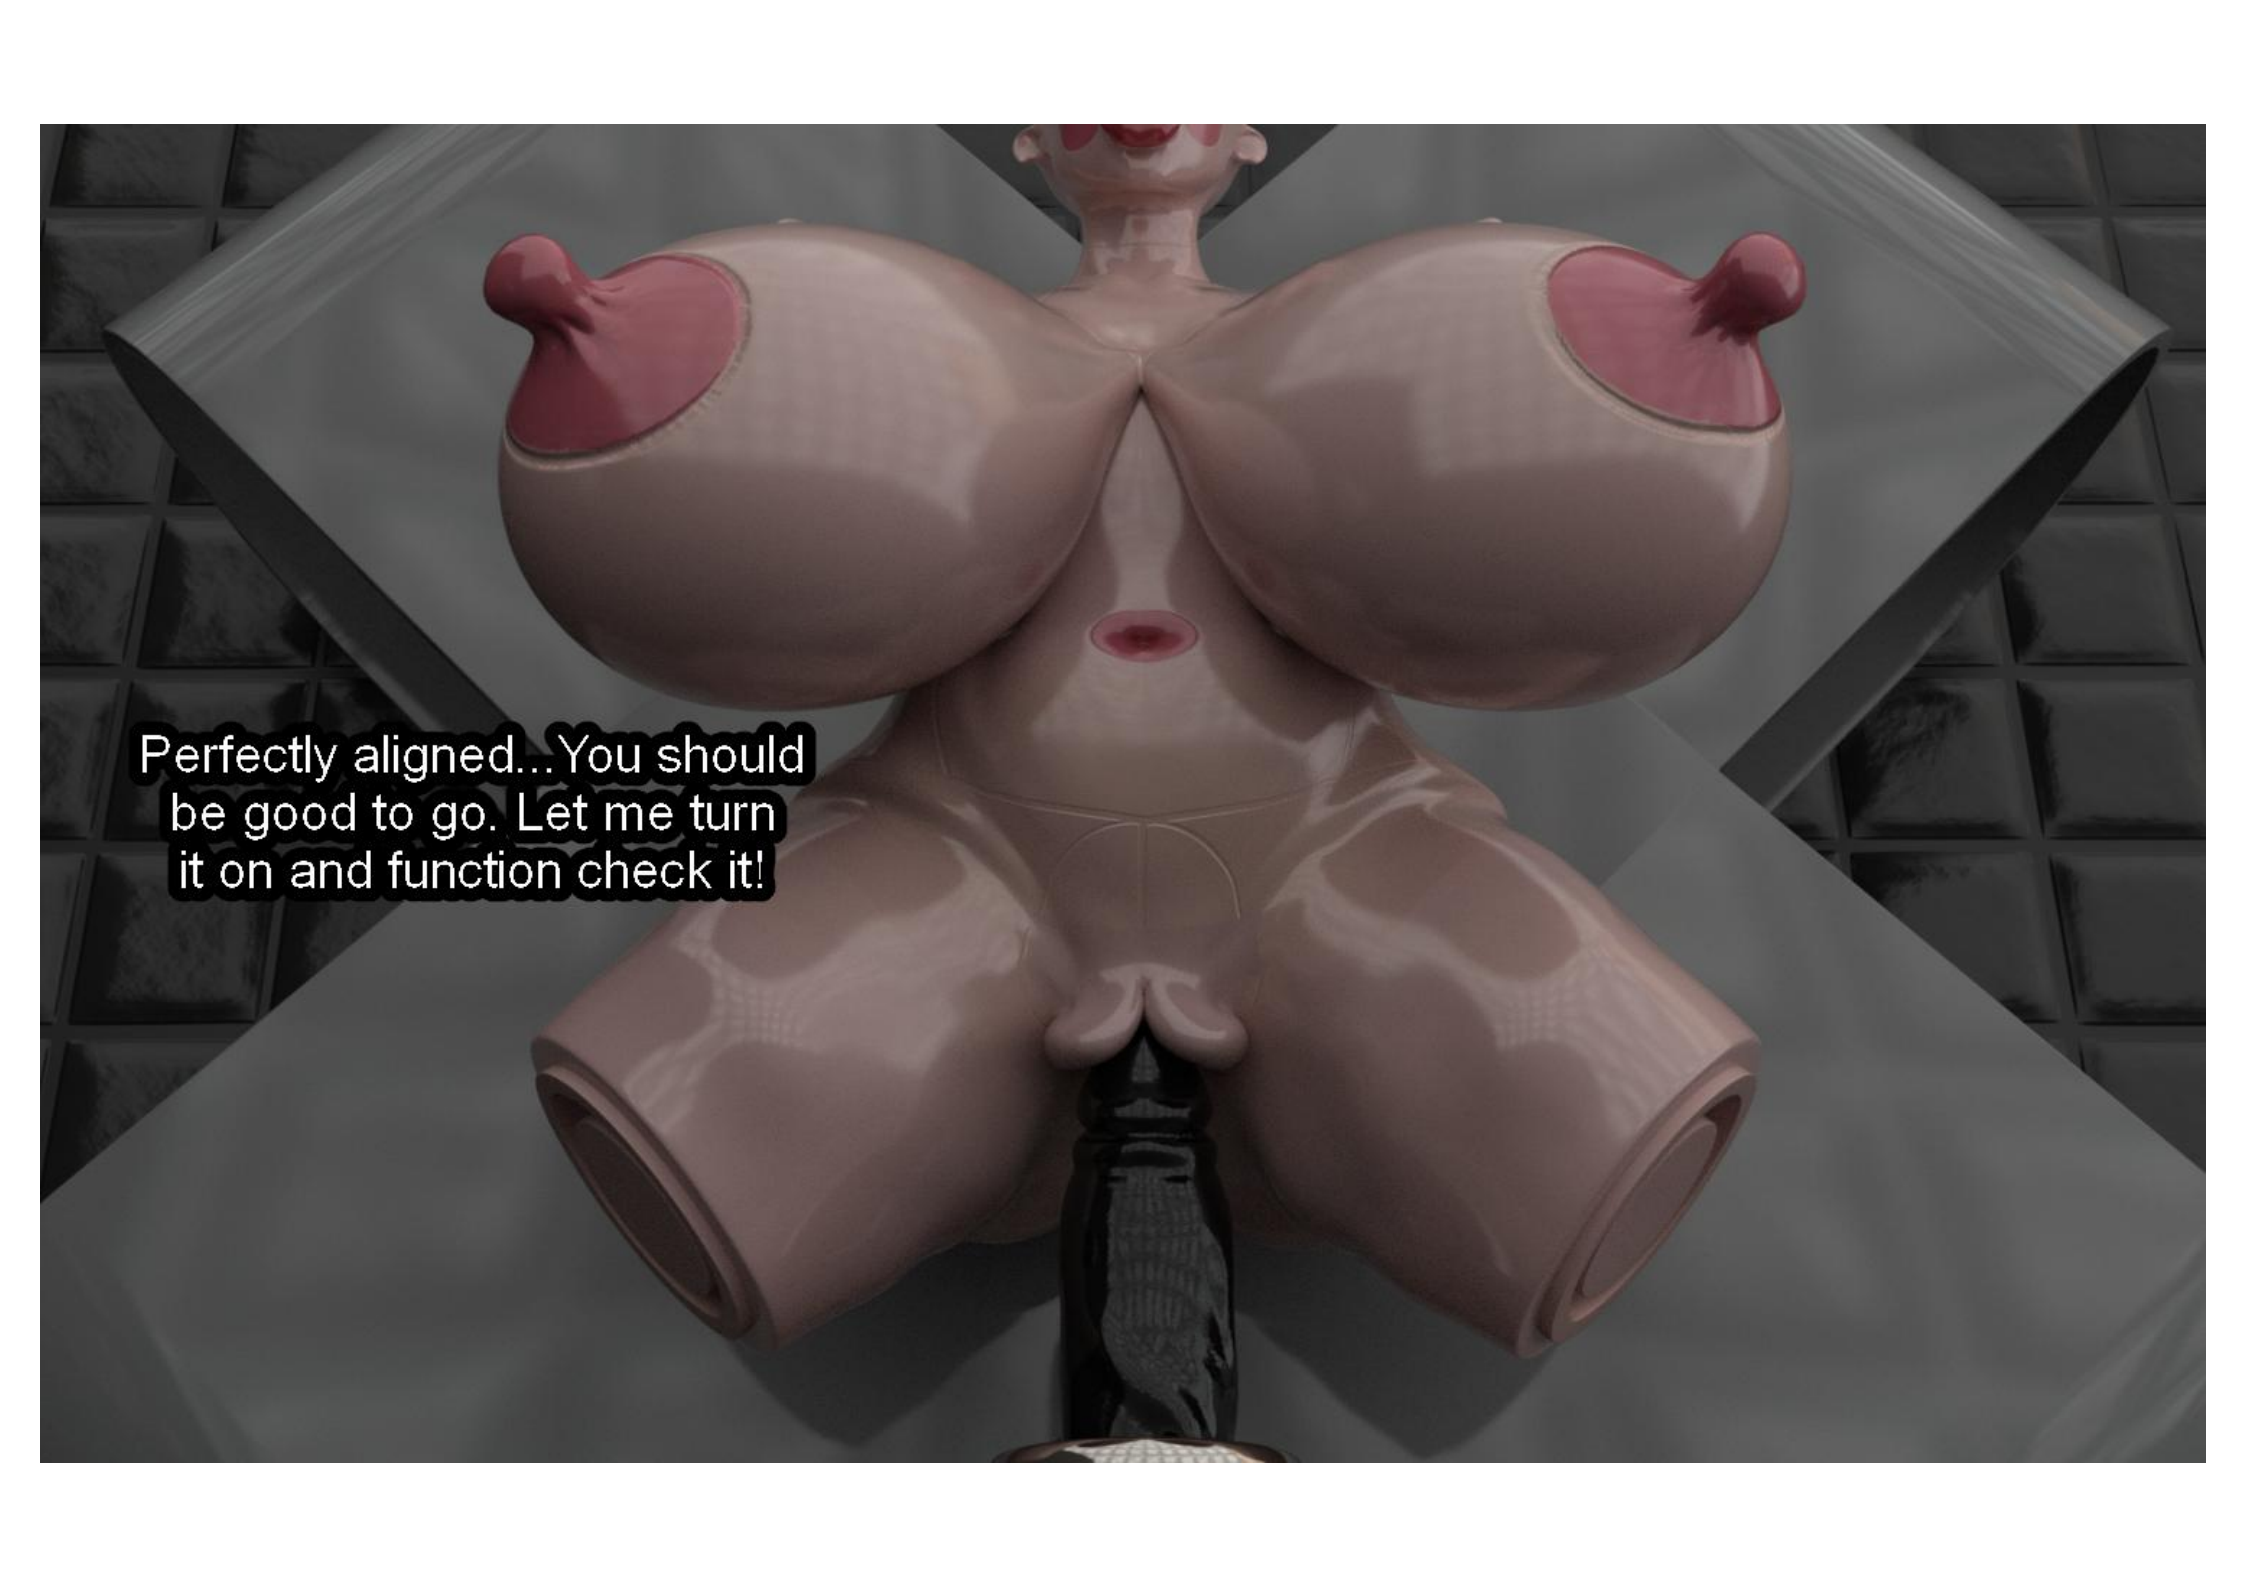

That should be big enough...
We really need to see that body
bounce and strain as it is penetrated.
We are hoping for at least 2 million
thrusts before any damage!

Hmm, looks like you have hardened
into your permanent form! Its time
to place the thrustmaster 9000...
right between your legs.

That thing is going to run all the way
through you until you break...its
how we will determine your
warranty!

A woman with brown hair, wearing a white nurse's uniform with a white cap, stands on the left. She is looking towards a pink, inflatable-looking female figure on the right. The figure has exaggerated features, including large breasts, a large buttock, and a large head with red lips and cheeks. The background is a dark, textured wall with a grid pattern. The scene is lit with dramatic, low-key lighting.

Mr. Morris...I am not gonna lie but you are in for a wild ride...this is the new you...a super powered orgasm factory!

Holy fuck that was good...

HURRY UP I HAVE TO HAVE ANOTHER!

UHNGHMM. Please just turn on the machine...pretend I am just the doll! I lied...there is no Mr. Morris in here. Just me...THE FUCKDOLL!

Unfortunately, we don't have a license for human testing. So, you are gonna have to wait for that next orgasm. Could be a few months until I can get one!

NO! Use me....Dolly wants to play.
AHH. Having withdrawls from
my fuck machine! FUCK ME!

Sorry Mr. Morris! I bet all
those hyper active sexual
features are driving up you

You will just have to edge!
