

The Tallest in the Family Vol. 3

a growth
story made
by Arianault

Chapter 11: School trip!

I was so looking forward to it: A week-long school trip!

Alright, class. Everyone is here.
Let's go! We need to catch our train!

YAY!

We were traveling by train and the ride was quite cozy and fun.

I am so looking forward to see that castle, Jen!

Me too, Dorothea!

If I am correct, it was built like an old german castle but don't take that for a guarantee!

**Castles had their high point
between 1000 and 1500 A.D.!**

**And then came gunpowder and artillery
that were able to breakthrough walls.**

Wow, you are so smart, Dorothea!

It was great to have a look from up there...

... well, for me at least.
Some were not so lucky!

Not fair!

Poor Laura...

It's kinda cute seeing her trying!

Maybe ... a little bit

I shared a room with three other girls: Jen, Marianne and Laura. All of them were pretty cool!

...nah, all silly rumors!

Say, Dorothea. Have you heard anything from Tom lately?

I texted with him right before the trip. He is fine!

It's a shame that our
favorite couple is no more.

Ah, stop it Jen!

You looked so cute together.

You meant funny, Marianne.
Tiny Tom and our loveable Tower.

**I should have known, that the conversation
would turn into these topics, especially
with Marianne, haha!**

Was there anything between you?

We were friends, still are, but I have to disappoint you.
No secret stories on my part.

giggles

BORING! Come on, Dorothea!
How can the most outstanding
person be so boring?

Of course, it was only a matter of time,
until my height became a topic for it self!

I always wondered,
how it would feel to be that...tall.

We can change that, haha!
Did not expect this from Laura though!

Wow!

Welcome to my world, haha!

Never thought you were that strong to lift someone heavy like me.

Oh, come on, Laura. Don't say that.

Say, how do those two look from up here?

Erm...well...small.

We really look like children
compared to you.

Hehe...
And I am the youngest of us all!

Well, that is easy to answer...

Have you ever thought how
the world looks for a small girl?

No, not at all, haha!

So you like to be taller than everyone else?

I mean ... she never was 'small'

Hehe...

Don't know how many times I said it but ... I would **KILL for legs like Dorothea's!**

Your legs and feet alone.
So much bigger!

Or your hands. Wow!

**I have never seen Laura so...
excited. Seems as she is
finally coming out of her shell!**

I know, haha!

And the comparisons continued!

Now I feel even smaller!

Hehe...she is REALLY excited!

Amazing

Later that same evening we played 'Spin the bottle'!

My turn ... hmm... TRUTH!

Well... Marianne...

Hehe... yeah. Six weeks ago!

Are the rumors true,
that you and Vince had...

It actually took a while until it was my turn.

I pick Truth, Laura.

Have you reached a height of 7 feet?

Erm...

...to be 100% honest ...

I really don't know!
Lie!

Agreed!

We should change that!

As if those girl had planned that!

Hehe

Just a second...

Jen really celebrated the 'announcement'!

Knew it of course!

Ladies and ... well just Ladies, let me share with you the official result. Our candidate, Miss Dorothea Lockhart measures an astounding ... 7'1 (215cm)!

I was happy, that they all found
my size just awesome. Great girls!

Tell us your magic secret, Dorothea.

I mean ... was there a magic secret?

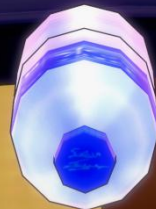

I think Laura wants to become a giantess herself.

Stop it, Jen. I'm just curious.

And so the game continued!

Finally, Dorothea!
I dare you to kiss someone out of us three.
Your choice.

Dare!

And I picked ... Laura!

M-M-M-M-ME!?

But I had an ... additional idea.

Come here, Laura.
I want to do something.

Uhh.. This could be interesting!

Y-Yes?

I wanted to lift her while
I kissed her!

Nervous smooch

I see. Sneaky, big girl!

My very first kiss!

How was it?

I-It was...

CUTE!

I was happy that she liked my idea!

...simply awesome!

She even turned bright red!

Really awesome!

Laura had a real sparkle in her eyes!

Maybe I ... like it too much?

Chapter 12: Create a hero you never thought to be possible.

Vivid memories. We all have them
for the most different things.
And sometimes, it's simple stuff
that triggers them.

Time to find out, if they
promised too much!

It was a fantasy RPG which proclaimed to have the 'biggest custom character creator to date'.

'Create a hero you never thought to be possible!'
A bold claim indeed.

But ... it got me hooked!

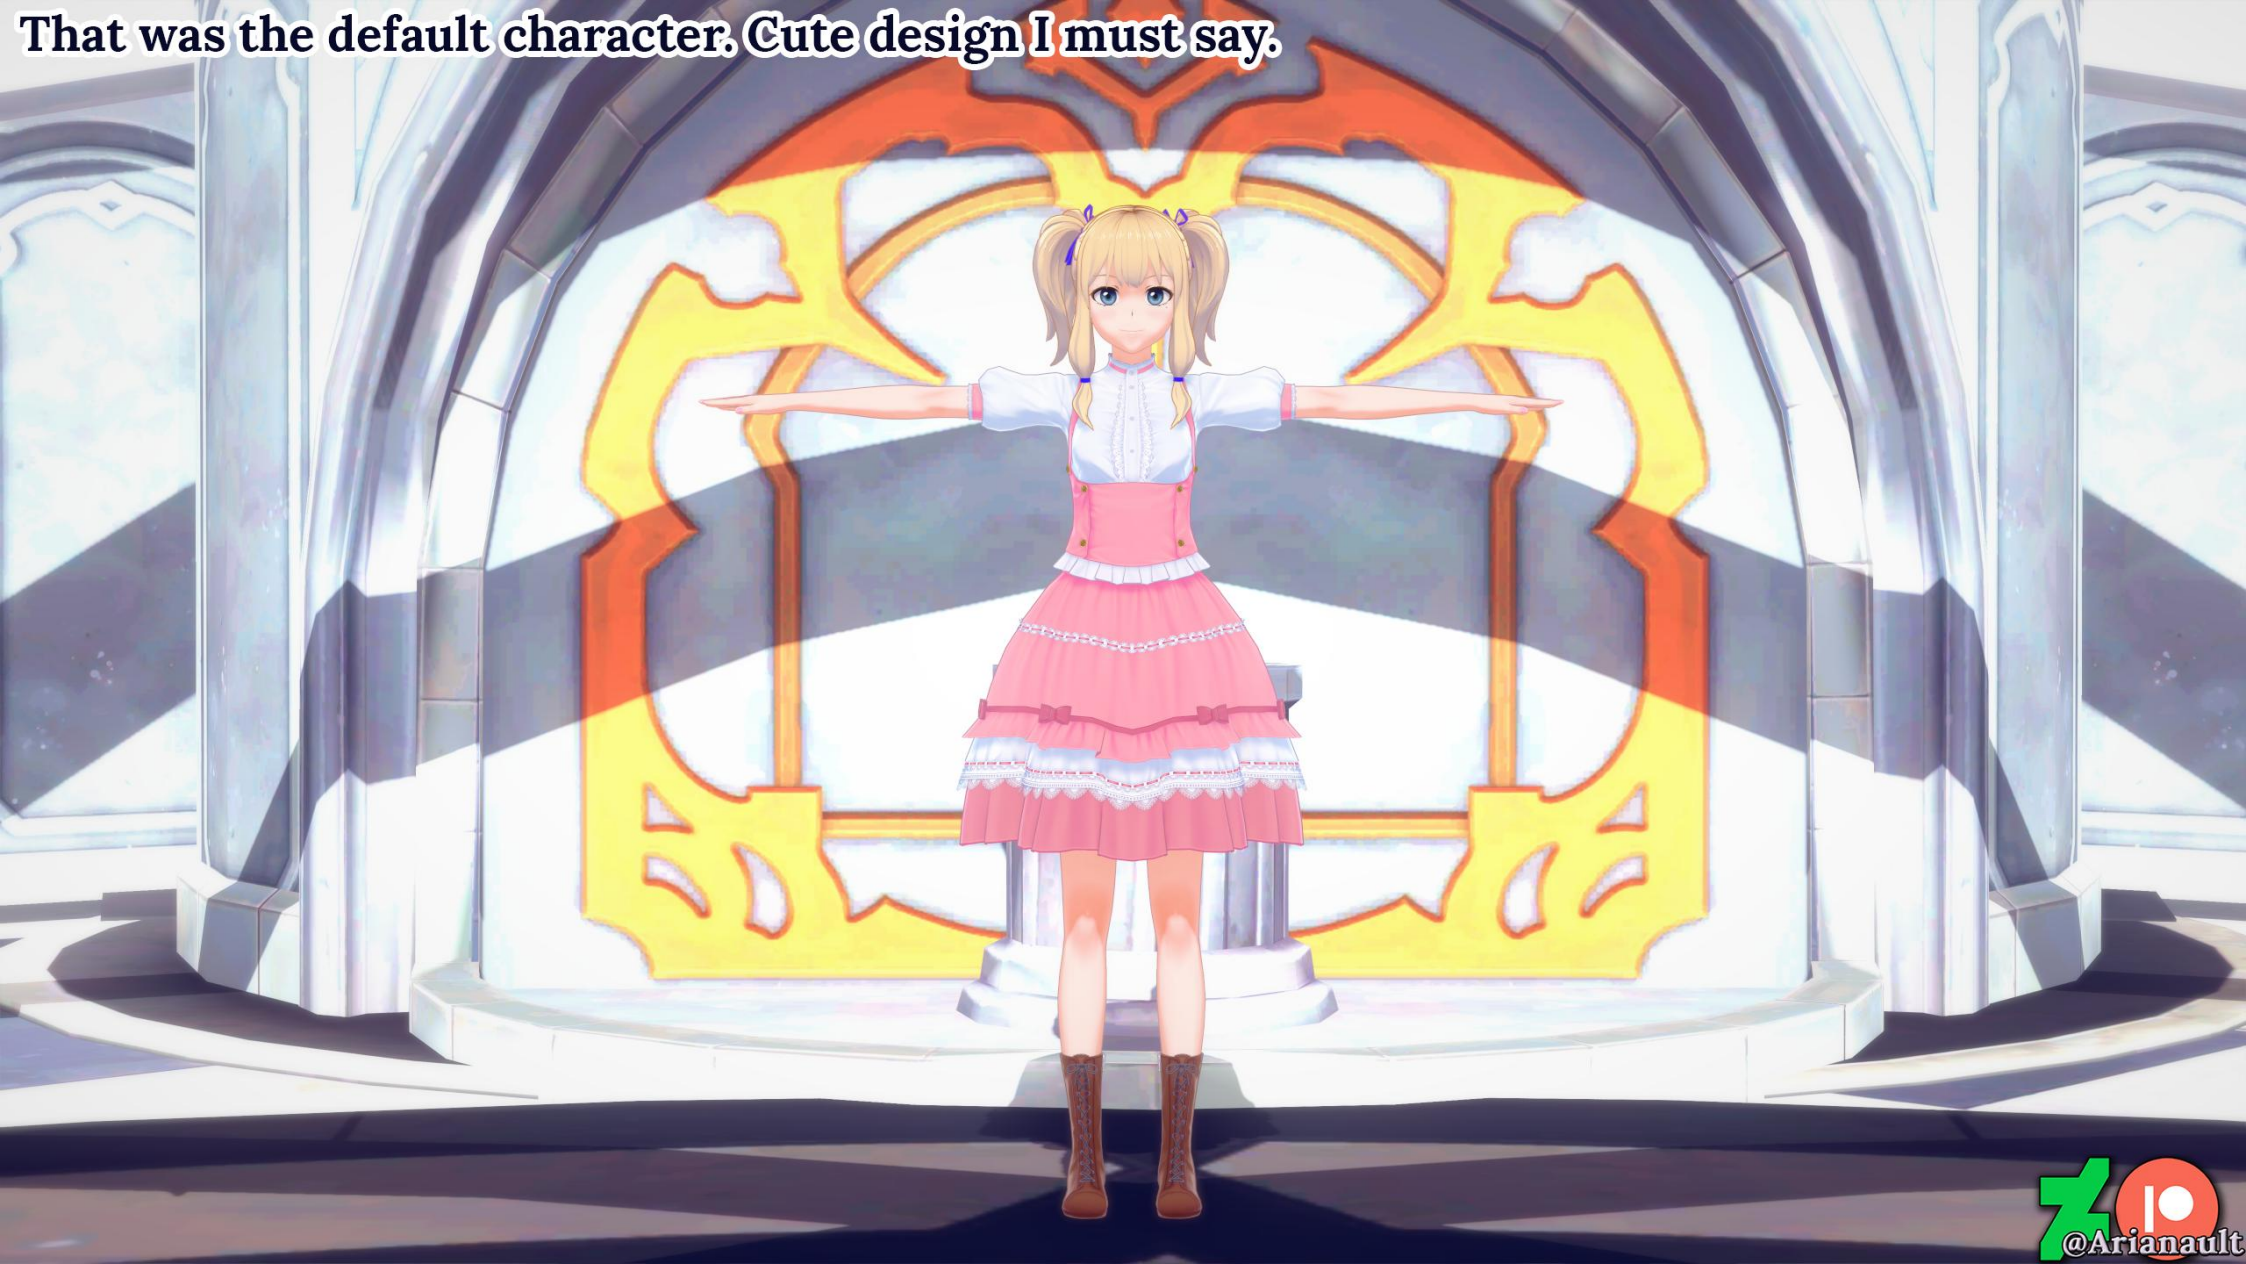

Only one way to find out!

And so I installed the game to find out.

Let's see...

That was the default character. Cute design I must say.

They promised much and they actually delivered.

23 taint skin colors!?

**...
How many hair styles!?
Those must be 100 at least!**

Easy to assume that I was sitting there for a while!

That's cool! But maybe that hair style would fit better though...

Back and forth. But it was a fun process, until...

How long have I worked on her?

...I hit the option for the character's height.

The maximum height ... 7 feet (213cm).

And with that my mind went wandering.

'Just' 7 feet. Dorothea is taller than that...

Create the hero you always desired. Haha. They weren't thinking far enough!

Dorothea is taller than...wow...

It took me a while to realize. I remodeled my character after...

Oh gosh. I ... I ... created ... her...

I modeled her after Dorothea! Sure, the hair was different ... but not for long ...

Wow... she looked so similar! Only one teeny-tiny thing was missing...

There we are!

I created Dorothea ... or at least a smaller
version of her!

hehe ... smaller

Until I was finished.

Wow.

Ever since the school trip, I was thinking about it. How we kissed as part of 'Spin the bottle'...

That day made me realize: I had a thing for really tall girls!

I created myself too. Look how small I am next to her!

That was fast.

I was ready to go, but the game had one more surprise for me!

Creation complete.

Do you want to start your adventure with this party?

Yes

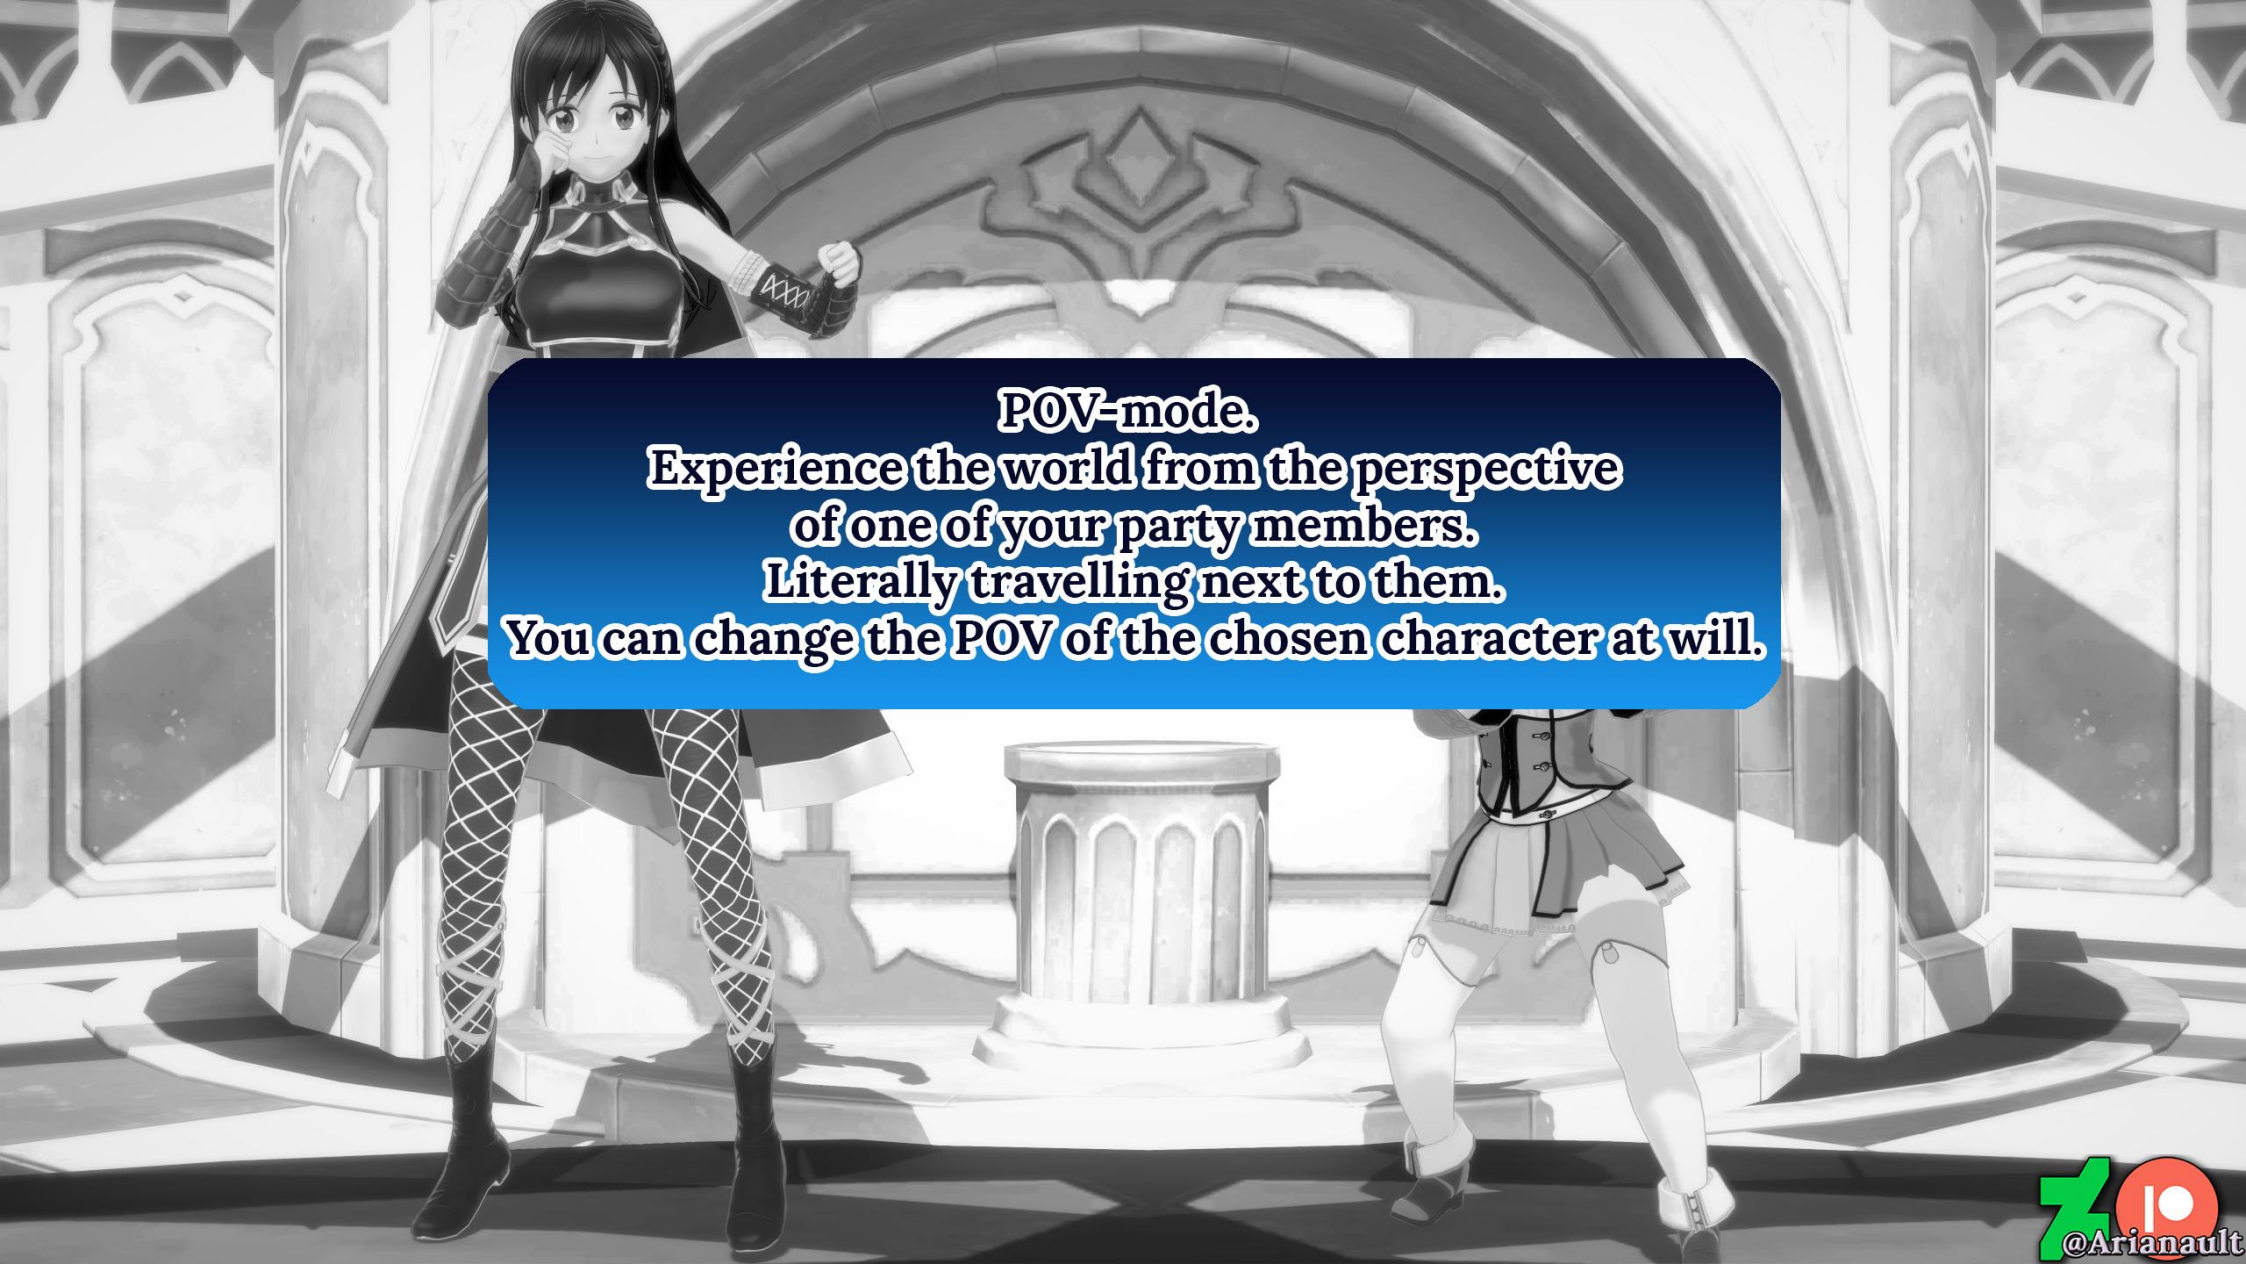

No

Creation complete.

Do you want to play in POV-mode? ?

Yes

No

POV-mode.
Experience the world from the perspective
of one of your party members.
Literally travelling next to them.
You can change the POV of the chosen character at will.

Of course I HAD to try that feature!

I was already in love with that feature!

So tall

Time to change perspective!

I look THAT tiny to her!?

Let's just say, I never played in 'non-POV-mode'!

I can only dream to be like her...

An amazon warrior and a mighty mage like me? Truly unbeatable!

Oh, and that screenshot is my desktop wallpaper from now on!
Hope, Dorothea doesn't mind!

Chapter 13: Vision of the future?

I was in the middle of checking if I needed to order new stuff, when ...

... my Computer made a sound. A notification...

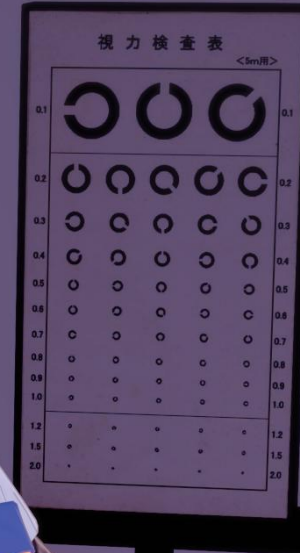

... one I was waiting for weeks!

FINALLY!

And so I ran over to see it for myself!

I hope, he has good news!

It was, what I hoped for, but ...

It's indeed from Dr. Jones!

... I was hoping for a ... quicker answer ...

From Dr. Francis Jones <jones_francis_dr@medoffice.com>

To Me

Dear Dr. Lockhart,

I received your package with the probes and the reports of you. I expect my extended analysis to be done within three weeks. Be sure that everything in that case will be dealt extra confidential.

With best regards,

Dr. Francis Jones

Dear Dr. Jones,

I want to inform you, that after our conversation about my case, that I've sent you a package with my probes and my analysis, but like I told you, your opinion is important to me. Everything I filed in this case runs under the name 'Mary Sue' as I promised my client to not share private details. I hope, you can help me in that matter.

Once again thank you for helping a former student of yours and with best regards,

Dr. Tiffany Lockhart

[Save All](#)

Three weeks. Quite a long time to wait, if he is able to see something, I might have missed!

I am sorry, Dorothea, but I HAD to do this. I NEED a second opinion and nobody was better than Dr. Jones in that regard. You are my sister and I love you even though I knew that I broke my promise not to share that case with anybody.

phone ringing

Speaking of Dorothea. She just texted me and gave me 'news'!

**Hey sis! Trip is awesome.
The girls and I compared
and ... well ... how should I
... ah well ... 71 (215 cm)!
Love you!**

I guess, you know my reaction...

F-F-F-urther growth!?

And so I did the only logical thing: Collect more data! Time to check 'the wall'!

Let's see...

**All of Dorothea's measurements visible at once.
Date, age and height. A gold mine!**

She never stopped...

But my work was not unnoticed.

Just how is this...

Tiffany? What are you doing there?

I wanted to not scare her, so I told her ... a variant of the truth.

I just need the values for my data research.

I see...

She was clearly thinking for a bit, then she answered.

If that is the case, then...

And I was interested in an instant.

... I should bring you something.

And so, I waited a bit until she came back after a few minutes.

****Now I am really curious****

She had a book in her hand which looked like a diary.

I will make a copy of the passages you might need.

Intriguing

It was in fact her old diary.

I hope this will help you.

Mom changed her mind and instead gave me the entire diary for my research.

Thanks mom. I will get started immediately. Love you!

Love you too, Tiffany. I trust you with it!

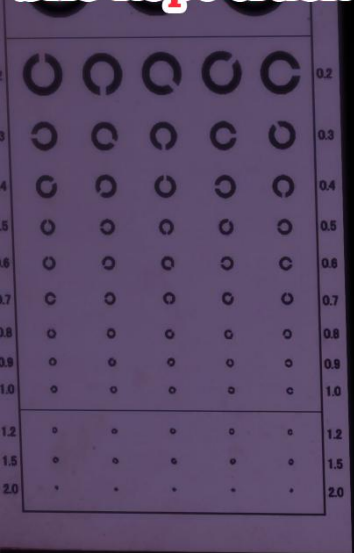

Back in my office I started immediately. I soon realized, why she gave it to me.

Let's see, what's inside you.

She kept track of Dorothea's growth... but not only hers.

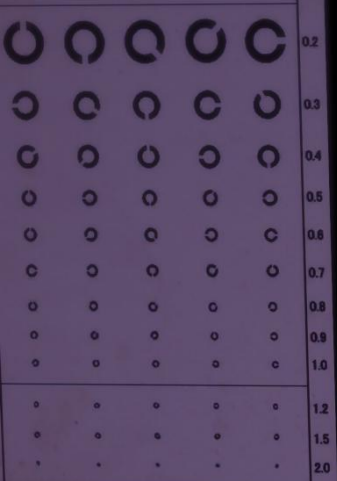

Mom tracked my height too!?

I mean, yeah, I was much taller than mom and dad as well...

**But wait...
if I have all those
numbers to compare...**

That gave me an idea!

THIS...IS...PERFECT!

Time for some number crunching!

Age (Y)	Average (50 th P.)	Tiffany	Dorothea
0	50.3	53.3	58.4
1	75.7	79.0	82.9
2	87.8	91.4	95.1
3	96.1	100.3	107.4
4	103.3		116.8
5	110.0		124.4
6	115.1		131.0
7	120.8		137.0
8	126.6		143.0
9	132.5		146.0
10	138.6	145.0	161.0
11	145.0	152.0	170.6
12	151.2	157.0	201.6
13	156.4	165.0	215.0
14	159.8	173.0	
15	161.7	179.0	
16	162.5	181.0	
17	162.9	183.0	
18	163.1	184.0	

One could only imagine how she would end up.

**IF she 'ends' up!
What if her growth never stops!?**

**Suddenly I had a strange vision before me.
I met Dorothea in a park at her current size
of 7'1 (215 cm) but then out of nowhere...**

**Another Dorothea appeared ... but older and ...
you guessed it ... much, MUCH taller.**

I saw an adult Dorothea at a height of (I would assume around) 9 feet visually in front of me!

Is this...the future?

towering

Both of them ... they ... were smiling.

Or we reach even bigger heights!

What a lovely future!

feels like a child

**This vision of Dorothea.
Not only the tallest in our family, but ...**

That's because I am happy and healthy!

**You look so happy ...
and healthy!**

... also the tallest of all time!

**Not one bit. I love it and I am happy.
I'm just a big and healthy girl!**

Do you mind your uniqueness?

****and hopefully
still growing!****

If that is indeed the case...

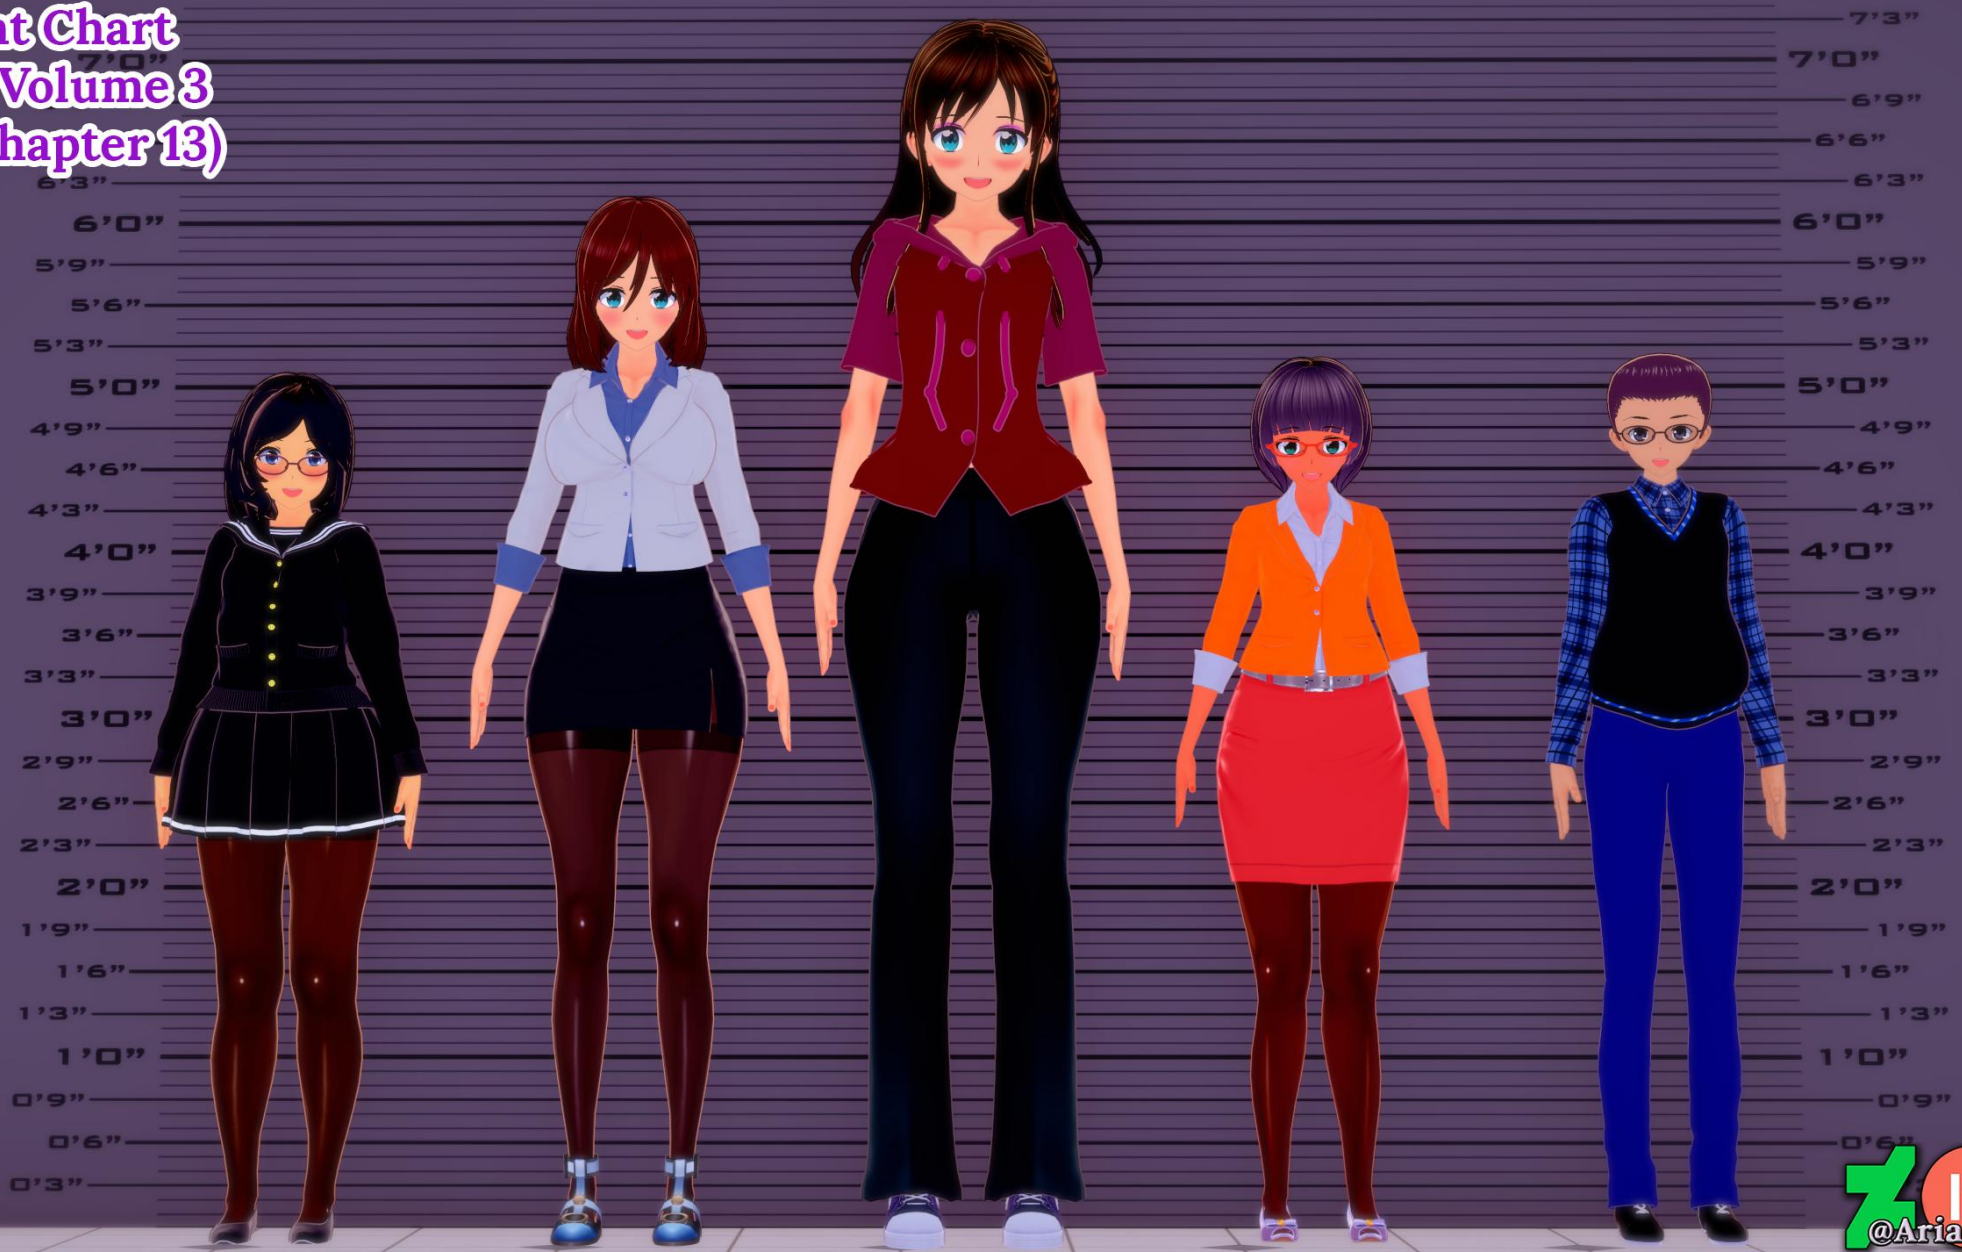

Maybe, just maybe, it is okay her being like this
as long as she's happy... and healthy.

Sigh
I guess if that is the case
I should get used to it.

To be continued...

Height Chart End of Volume 3 (after Chapter 13)
